Part 1

1.1 Introduction:

With a view to meeting the increasing demand for the development and dissemination of engineering and technology as well as business and arts, Bangladesh Armed Forces established Bangladesh Army University of Science and Technology (BAUST) at Saidpur Cantonment that promises to provide facilities for higher education on technical and non-technical fields including literature, language and business studies for the students from home and abroad. Bangladesh Army University of Science and Technology started its journey on 15 February 2015 by offering four-year bachelor degrees on Computer Science and Engineering (CSE), Electrical and Electronic Engineering (EEE), and Mechanical Engineering (ME). Later, four more programs of four-year bachelor degree have been added to Industrial and Production Engineering (IPE), Bachelor of Business Administration (BBA), BA (Hons) in English and Civil Engineering (CE). Now, the University is going to offer two-year Master's degree on Business Administration (MBA) and one-year Master's degree in English (ELT).

1.2 Mission and Vision of the University:

The mission of the university is to contribute to the society through pursuit of education, learning, and research at the highest international levels of excellence. This university aims at providing the students with necessary skills to suit for individual career success in the global economy. The graduates will take leadership positions influencing education and other related public policies, conducting applied research that will create the new products and services necessary for sustaining the economy of the community.

1.3 Objectives:

The objectives of Bangladesh Army University of Science and Technology (BAUST) are to produce skilled, well disciplined, self-motivated and dedicated engineers, computer professionals, business and arts personnel. The university aspires to make provisions for research and development and dissemination of knowledge in appropriate fields of science, technology, business and arts.

To fulfill these objectives Bangladesh Army University of Science and Technology (BAUST) is offering the following degrees with a view to meeting the increasing demands in the country:

a. Four-year Bachelor's degree in Computer Science and Engineering (CSE)
b. Four-year Bachelor's degree in Electrical and Electronic Engineering (EEE)
c. Four-year Bachelor's degree in Mechanical Engineering (ME)
d. Four-year Bachelor's degree in Industrial and Production Engineering (IPE)
e. Four-year Bachelor's degree in Civil Engineering (CE)
f. Four-year Bachelor's degree in Business Administration (BBA)

g. Four-year Bachelor's degree in English
h. Two-year Master's degree in Business Administration (MBA)
i. One-year Master's degree in English (ELT)

1.4 Department of English:

The Department of English is one of the newest and promising departments of Bangladesh Army University of Science and Technology (BAUST). It set out its journey in Fall, 2016.

The Department is committed to nurturing the potential of the students to make them capable of surviving and competing well in the 21st century academic and professional settings. Its MA in English (ELT) program offers a carefully selected syllabus containing useful courses. The courses will introduce the students with key concepts of ELT, recent practices in ELT, linguistic theories and their application in real life situations. On a practical ground, having completed the degree the students will be able to express their ideas clearly and fluently both in written and spoken English. Developing good presentation skills is also a key focus in most courses.

In classrooms, students are encouraged to explore their full potentials through maximum participation in class-room activities, such as pair/group discussion, presentation, free-hand writing etc. The weaker students are given special care and attention, and encouraged to attend classes and take part actively in different activities and tasks. Outside of the classroom the department is shortly going to launch a language club where students from any department of the university may join and actively take part and enrich their language skills.

The Department looks forward to taking initiatives in research and makes valuable contributions after work, valuable in contributing to Higher Education in English language teaching in Bangladesh.

Admission Requirements of MA in English (ELT) Program

1.5 Admission Requirements:

Candidates must have a second class/CGPA 2.50 at every level of education.
In addition, they must have ONE of the following qualifications;
1. A 4-year BA (Hons) degree in English Language/Literature/Linguistics from a recognized university
2. A three-year BA with one-year MA degree in English Language/Literature/Linguistics from a recognized university
3. A two-year BA (pass) degree with 2- year MA degree in English Language/Literature/Linguistics from a recognized university

1.6 Admission Procedure:

Selection of candidates is based on their position in the combined merit list. The selection process is as follows:

Written Admission Test: All candidates are required to attend a written admission test of 75 marks that follows the internationally recognized IELTS standard in terms of conventions, coverage and level of difficulty.

Oral Test (Interview/Viva-Voce): The candidates qualifying in the written test will be called for an oral test. A panel of faculty members conducts this test/interview which carries 25 marks.

Final Selection: For the final selection, a merit list is prepared totaling the marks obtained by candidates in the written admission test and the oral test/ interview/viva voce.

1.7 Admission in MA in English (ELT) Program:

The selected candidates must collect Admission Form from Admission Section of Registrar Office and complete admission and registration formalities within the given time frame by paying required fees. The following rules will be applied in this regard:

1. The admission of the candidates who fail to complete admission formalities within the prescribed date and time, will be considered as cancelled.
2. In case, the prescribed vacancies are not filled up by the candidates in the first merit list, other merit list(s) will be published from the waiting list candidates for admission.

1.8 Medical Checkup:

Candidates selected through above procedure will go for medical checkup in the medical center of Bangladesh Army University of Science and Technology (BAUST). If the medical authority

considers any candidate unfit for study in the University due to critical/contagious/mental diseases as shown in medical policy of university, they will be declared unfit for admission.

1.9 Conduct and Discipline:

During their stay in Bangladesh Army University of Science and Technology (BAUST), all students are required to abide by the existing rules, regulations and code of conduct. Students are strictly forbidden to form or be members of any student organization or political party, club, society etc., other than those set up by university authority in order to enhance students' physical, intellectual, moral and ethical development. Zero tolerance will be shown regarding sexual abuse, harassment in any forms, drug abuse and addiction and all these activities will be strictly observed in the campus.

1.10 Library and Internet Facilities of the Department:

The Department endeavors to provide its faculty members and students with easily accessible Wi-Fi and library facilities equipped with latest and updated editions of relevant books and documents.

Part 2

MA in English (ELT) Program Structure

2.1 MA Program:

The Department of English of Bangladesh Army University of Science and Technology (BAUST) intends to offer MA program. The program is as follows:

MA in English (ELT)

Duration: 1 year (2 Terms).

Credits: 36

Level I Term I: Level 1, Term I comprises five 3-credit core courses each carrying 100 marks, one 3-credit open course carrying 100 marks and a 1.5-credit course of 50 marks as viva-voce.

Level I Term II: Level 1, Term II comprises three 3-credit courses each carrying 100 marks. There is one 6-credit thesis and defense carrying 200 marks and a 1.5-credit viva-voce exam carrying 50 marks for 'Thesis group'. Non-thesis group will comprise five 3-credit courses carrying 100 marks and a 1.5-credit viva-voce exam carrying 50 marks.

Total marks : 1200

Total Credits : 36

Required contact hours for each 3-credit course: 42 teaching hours per term

2.3 Assessment Pattern

CIE- Continuous Internal Evaluation (50 Marks)

Bloom's Category Marks (out of 50)	Midterm (30)	Class Test/ Assignment /Presentation (10)	Class Observation, Performance and attendance (10)
Remember	5		
Understand		5	5
Apply	8		
Analyze	9		
Evaluate	8		5
Create		5	

TEE- Term Final Examination (50 Marks)

Bloom's Category	Test
Remember	5
Understand	10
Apply	15
Analyze	10
Evaluate	5
Create	5

2.4 Class Attendance Requirements:

a. All the students are expected to attend classes regularly.
b. Students are required to attend at least 60% of all classes held in any course.
c. Students having attendance from 40% up to 60% shall have to pay a certain amount of fine to attend final examination.
d. Students having attendance less than 40% will not be eligible for the final examinations.

Marks distribution on attendance percentage:

90% or above : 5 marks

85% to below 90% : 4 marks

80% to below 85% : 3 marks

75% to below 80% : 2 marks

60% to below 75% : 1 mark

below 60% : 00

2.5 Credit requirements:

Minimum requirement of credits for the award of MA in English (ELT)	: 36 credits
Credits offered in the MA in English (ELT) program	: 42 credits
Minimum requirement of credits for the award of MA in English (ELT) with thesis	: 36 credits
Minimum requirement of credits for the award of MA in English (ELT) without thesis	: 36 credits

2.6 Grading Scale and Grades:

Marks obtained in each course will be transferred to grades leading to GPA (Grade Point Average). The conversion chart based on UGC guidelines is given below:

Numerical Grades	Letter Grades	Grade Points
80 and above	A+	4.00
75 to less than 80	A	3.75
70 to less than 75	A–	3.50
65 to less than 70	B+	3.25
60 to less than 65	B	3.00
55 to less than 60	B–	2.75
50 to less than 55	C+	2.50
45 to less than 50	C	2.25
40 to less than 45	D	2.00
Less than 40	F	0.00
Incomplete (Does not take an exam)	I	0.00
Withdrawn (Does not attend any class and take any exam)	W	0.00

Part 3

Description of the Program

MA in English (ELT)

3.1 Introduction:

English language, the international and most commonly used *lingua franca* and a communication tool in the modern world, is now being learned and taught at all the levels of education in Bangladesh. The teachers presently involved in English language teaching are evidently facing challenges to meet the needs of their students and the demand of the nation owing to their inadequacy in number as well as their lack of proper and sufficient training. This is why it is increasingly momentous to equip a large number of persons with the expertise in English Language Teaching (ELT). The MA in English (ELT) program in the Department of English at Bangladesh Army University of Science and Technology (BAUST, is designed with a view to imparting relevant skills to students to make them capable of working in and contributing to different sectors, especially to English education of the country.

3.2 Description of the program:

The MA in English (ELT) program has two groups – Thesis Group and Non-thesis Group. Both groups have to complete five compulsory courses with one open course in the first term (see table no 1.1 and 1.2). In the second term, the thesis group will have to study three courses along with the thesis paper. The non-thesis group will have to study five compulsory courses (see table no 1.3.1 and 1.3.2). It should be noted that the students securing at least CGPA 3.50 in the BA (Hons) examination will be eligible for conducting the thesis.

3.3 Vision of the program:

MA in English (ELT) program aspires to produce competent ELT practitioners. This program will prepare the learners with necessary practical skills to face new challenges and make successful and effective contributions.

3.4 Mission of the program:

M1	The MA in English (ELT) generally intends to expose students to varied facets of ELT (English Language Teaching).
M2	This program is specifically designed to create diverse professionals including well-trained and highly qualified English language teachers increasingly demanded both locally and globally.

M3	This program is designed to provide the best knowledge of different linguistic theories and practices in relation to English language teaching and beyond.

3.5 Program Educational Objectives (PEO)

The program educational objectives (PEO) are the statement that describes the career and professional achievement after the program of studies (graduation/post-graduation). The PEOs can be minimum three and maximum five.

PEO1	**Knowledge of Language:** In-depth knowledge of language, grammar, theories and application of these techniques in the field of ELT and societal development.
PEO2	**Knowledge of Linguistics Theories:** In- depth knowledge of different linguistic and ELT theories regarding linguistic skills, theoretical and practical implementations.
PEO3	**Professional Services:** To provide the professional services to private and public organization through competitive examinations.
PEO4	**Higher Education:** To opt for higher education, research and to be a life-long learner.
PEO5	**Professional Services with Leadership Qualities:** To provide the professional services in private and public organization through competitive examination, and to provide value based and ethical leadership in the professional and social life.

3.6 PEO to Mission Statement Mapping

Mission Statements	PEO1	PEO2	PEO3	PEO4	PEO5
M1	**3**	**2**	**3**	**3**	**3**
M2	**3**	**2**	**2**	**3**	**2**
M3	**2**	**2**	**3**	**3**	**3**

Correlation: 3- High, 2-Medium, 1-Low

3.7 Program Learning Outcomes (PLO):

The program learning outcomes (PLO) are the statement of competencies/abilities. POs are the statement that describes the knowledge and the abilities the graduate/post-graduate will have by the end of program studies. After the completion of this program students will:

1.	**PLO 1**	Set forth mastery of the discipline by detailing the development and current practices of linguistics, teaching of English language, pronunciation, oral and written abilities.
2.	**PLO 2**	Set forth mastery of the discipline by characterizing, instantiating, and understanding the dominant and updated linguistic theories, methodologies, and practices in the field.
3.	**PLO 3**	Pursue research that leads to a substantial original thesis, written over the course of the second semester, in a subfield of the student's choice.
4.	**PLO 4**	Pursue research that engages and responds to diverse audiences of scholars, students, and community members.
5.	**PLO 5**	Advanced skills in effective communication and argument, oral and written.
6.	**PLO 6**	Analyze intercultural relationships that mark the contemporary world
7.	**PLO 7**	Develop advanced skills in argument, synthesis and critical expression
8.	**PLO 8**	Produce writings and speech showing their splendor in wide range of vocabulary and grammatical accuracy.
9.	**PLO 9**	Demonstrate values and ethics in respective job sectors.

3.8 Mapping of PLOs to PEOs

PEO/ PLO	PLO 1	PLO 2	PLO 3	PLO 4	PLO 5	PLO 6	PLO 7	PLO 8	PLO 9
PEO1	**3**	**3**	**2**	**2**	**3**	**3**	**3**	**3**	**3**
PEO2	**2**	**2**	**3**	**3**	**1**	**1**	**2**	**2**	**2**
PEO3	**3**	**3**	**2**	**2**	**3**	**3**	**3**	**3**	**3**

PEO4	**3**	**3**	**2**	**2**	**3**	**3**	**3**	**3**	**3**
PEO5	**3**	**3**	**2**	**2**	**3**	**3**	**2**	**3**	**3**

3-strong Correlation 2- Medium Correlation 1- Low Correlation

3.9 Generic Skills/ Graduate Profile (Based on Need Assessment)

Graduates of the MA in English (ELT) will generally acquire a range of advanced scholarly and language related skills, such as:

1. critical skills in the close reading and comparison of different theories
2. advanced skills in the reading and assessment of a range of critical linguistic theories and practices
3. advanced use of an appropriate critical lexicon
4. sophisticated awareness of generic conventions
5. communication and understanding of formal and informal, native and foreign speeches
6. the ability to place critical arguments and debates within the discipline as a historical and conceptual discourse
7. an ability to articulate how different formal, linguistic and cultural contexts affect the nature of language and meaning
8. a sophisticated response to the central role of language in the creation of literary meaning
9. advancement in effective communication, argumentation, oral and written skills
10. the scholarly skills appropriate to the discipline, including accurate citation of sources and use of bibliographical references

3.10 Course Summary:

The MA in English (ELT) program has two groups: Thesis Group and Non-Thesis group. The Thesis group students shall take 8 compulsory courses, 1 open courses, thesis and defense whereas the Non-Thesis students group shall take 10 compulsory courses and 1 open course. It should be noted that students securing at least CGPA 3.5 in BA (Hons) will be eligible for conducting the thesis. The students of both the groups shall take a viva-voce after the end of the written examination in each term.

MA in English (ELT)

36 Credits

3.11 Term-wise Course Distribution

Level 1, Term I: Table 1.1

Course Codes	*Course Titles*	*Credits*	*Marks*
ELT 5101	English Phonetics and Phonology	3	100
ELT 5102	Morphology, Syntax and Semantics	3	100
ELT 5103	Approaches, Methods and Principles of Language Teaching	3	100
ELT 5104	Psycholinguistics and Second Language Acquisition (SLA)	3	100
ELT 5105	Teaching Language Skills: Theory	3	100
ELT	Open Course 1	3	100
ELT 5109	Viva-voce	1.5	50
Total Credits and Marks:		**19.5**	**650**

Open Courses: Table 1.2 (Students will choose one from the options below.)

Course Codes	*Course Titles*	*Credits*	*Marks*
ELT 5106	Pragmatics and Discourse Analysis	3	100
ELT 5107	Stylistics	3	100
ELT 5108	Sociolinguistics	3	100

Level 1 Term II: Table 1.3

Non-Thesis:

Course Codes	*Course Titles*	*Credits*	*Marks*
ELT 5201	Syllabus Design and Materials Development	3	100
ELT 5202	Research Methodology	3	100
ELT 5203	Language Testing, Evaluation and Assessment	3	100
ELT 5204	Teaching Practicum	3	100
ELT 5205	Using Technology in Language Classroom	3	100
ELT 5207	Viva-Voce	1.5	50
Total Credits and Marks:		**16.5**	**550**

Table 1.4

Thesis:

Course Codes	*Course Titles*	*Credits*	*Marks*
ELT 5201	Syllabus Design and Materials Development	3	100
ELT 5203	Language Testing, Evaluation and Assessment	3	100
ELT 5204	Teaching Practicum	3	100
ELT 5206	Thesis and Defense	4+2	140 + 60
ELT 5207	Viva-Voce	1.5	50
Total Credits and Marks:		**16.5**	**550**

Part 4

Detailed Syllabus for MA in English (ELT)

4.1 Course Details:

The course details including the rationale, objectives, content and recommended reading of each of the courses are given below:

Courses for Level 1 Term I in details

Course Code : ELT 5101
Course Title : English Phonetics and Phonology
Credits : 3
Full Marks : 100

Rationale:

The rationale of studying the course is to involve learners in the primary exploration of Phonetics as the science to consider and investigate speech production through speech organs, properties of speech sounds and recognizing speech structures. Through the course, learners also explore Phonology for the study of speech sounds of a language or languages, and the laws governing them, particularly the laws governing the composition and combination of speech sounds in language.

Course Objectives:

The primary aim of this course is to develop students' understanding of the structure and the articulation of English speech sounds, with reference to phonological theories and with an emphasis on how the speech sounds work in both native and non-native speech in formal and informal contexts. It also intends to develop students' ability to transcribe speech using the IPA symbols. Additionally, it aims to make learners aware of teaching pronunciation to EFL/ESL students with a particular focus on the Bangla speaking EFL learners.

Course Contents:

- Phonemes, phones and allophones
- Organs of speech or articulators
- Categorization of speech sound segments
- English short and long vowels and diphthongs
- Consonant phonemes and their places and manners of articulation
- Phonetic and phonological characteristics of English consonant phonemes
- English syllable structure and phonotactics

- Strong and weak syllables
- Suprasegmental phenomena: Stress and intonation
- Aspects of connected speech
- Phonological theories: Daniel Jones, Bloomfield and the Bloomfieldians, the Prague School
- Generative phonology
- Minimal pairs, complementary distribution and free variation
- Transcription using the IPA
- Pronunciation problems of Bangla-speaking EFL learners
- Teaching pronunciation of English as an International Language: Issues of attitudes, intelligibility and identity

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	Remember the basics of phonetics and phonology
CLO2	Understand the varied facets of phonetics and phonology
CLO3	Analyze different aspects of vowels and consonants characteristics
CLO4	Evaluate English vowels, consonants and suprasegmental factors
CLO5	Create new concepts of phonetics and phonology in research

Mapping of Course Outcomes to Program Outcomes-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**	**PLO8**	**PLO9**
CLO1	1	2	1		1	1			3
CLO2	2	2	1		2	2			2
CLO3	1	1	1	3	2	2	2	1	2
CLO4	1	1	1	3	2	2	3	1	2
CLO5			1	1	2	2	1	1	

Correlation: 3-High, 2-Medium, 1-Low

Teaching Learning Strategy:

Course conduct methodology includes lectures, consultations, discussions, giving feedback, analysis of academic texts and examples, relevant texts, journals, handouts, posters, pictures, written assignments, group work and individual work. The classes will be comprehensive and interactive. Students are encouraged to communicate with the teacher regarding relevant matters in the classroom as much as possible. Students are expected to come prepared to each class. This means that the students need to complete assigned readings and any other assignments provided prior to the particular class session. Classes will consist primarily of both lectures from the instructor and student-driven discussions.

Assessment Strategy:

Assessment Method	(100%)
Class Assessment	
Class Performance/Observation/Attendance	10
Class Tests/Assignments	10
Mid-Term Assessment (Exam/Project)	30
Exam	
Final exam	50

Course Code : ELT 5102

Course Title : Morphology, Syntax and Semantics
Credits : 3
Full Marks : 100

Rationale:

This course serves as an introduction to the science of linguistics by further exploring the theoretical and cultural base of the discipline. Students will examine, among others, language structures, phonology, morphology, syntax, and semantics in relation to historical, descriptive, and generative linguistics; examine social uses of language and language variation; and demonstrate complete comprehension that such a survey entails. They will understand and assess current scientific debates in the field and appreciate the relationships between linguistic data and language teaching and learning theories and models. After the completion of this course, the students will be able to study the basic facets of word structure, word formation, sentence structure and theories related to meaning construction.

Course Objectives:

The course is designed to provide a detailed account of the theories of three fundamental aspects of language: morphology, syntax and semantics. It investigates the process by which morphemes combine to produce larger units of language, systematically dealing with central problems e.g. morph/morpheme relationship, segmentation, rules of word formation etc. The course also focuses on the description and comparison of the various theories put forward to explain how words are or can be sequenced in order to convey meaning. The main focus is given on syntactic structure, information structure, grammatical relations, and linking syntax and semantics in simple and complex sentences. Theories of traditional as well as generative and transformational grammars also feature in this course. Semantics, on the other hand, deals with advanced study of meaning communicated through language with an emphasis on the way words acquire meaning and the processes by which native users of a language are able to give stable interpretations to word strings. At word level, students explore the relationships that words have with each other within the language as a whole, and study the related theories. At sentence level, students explore the concept of truth-value of linguistic expressions, and study the related theories.

Course Contents:

Morphology:

- Morpheme
- Types of morphemes
- Root, Suffixes, and prefixes
- Word formation processes
- Productivity and the mental lexicon

Syntax:

- Elements of a sentence
- Syntactic structures and phrase structure
- Syntactic theory
- Constituency and Universal grammar.

Semantics:

- Word meaning and sentence meaning
- Utterances
- Sentences and propositions
- Semantics and pragmatics
- Reference, sense, denotation and connotation
- Types of meaning componential analysis
- Lexical relations

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	Remember the basics of morphology, syntax and semantics
CLO2	Understand the morphemes, major syntactic process, semantic units
CLO3	Analyze different word formation rules, tools for syntactic analysis, meaning of meaning
CLO4	Evaluate English word formations, sentence construction, and different sense relations
CLO5	Create new concepts of morphology, syntax and semantics in research

Mapping of Course Outcomes to Program Outcomes-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**	**PLO8**	**PLO9**

Course Code : ELT 5103

Course Title : Approaches, Methods and Principles of Language Teaching
Credits : 3
Full Marks : 100

Rationale:

The aim of this course is to prepare students as good language teachers by familiarizing them with theoretical and practical aspects of language teaching. The course emphasizes the importance of methodology in language teaching. It critically examines Audiolingual Method, Communicative Method, The Natural Approach, Total Physical Response and Suggestopedia. It will cover areas such as appropriate methodology, learning style, learning context, and discuss appropriate approaches and methods in Bangladeshi context.

Course Objectives:

This course aims to introduce learners to different approaches, methods and principles of English Language Teaching (ELT). Learners will explore ELT theories and their rationale and learn to make connections in order to take informed decisions about context-appropriate classroom teaching.

Course Contents:

- Interdependence of language teaching theories and practices
- Conceptual frameworks of language teaching
- Emerging relationship of linguistic theory and language teaching
- Evaluation of language teaching theories
- Educational interpretation of language teaching
- The roles of teachers, learners, materials and techniques in prevalent approaches and methods
- Culture-sensitive pedagogy
- Communicative approach to ELT and its applications
- Task based approaches to language teaching
- The post methods era: Breaking with the method concept
- Reflective Teaching Practice
- Critical pedagogy

Course Learning Outcomes: At the end of the Course, the students will be able to –

CLO1	Remember the existing approaches, methods and techniques needed for efficient language teaching.
CLO2	Understand the relationship and interdependence of language teaching practices and theory
CLO3	Analyze the prevalent ELT approaches and methods in relation to teacher roles, learner roles, materials, assessment and context
CLO4	Evaluate the social context with the choice of methods and techniques
CLO5	Construct a suitable framework for teaching English as a foreign or second language

Mapping of Course Outcomes to Program Outcomes-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**	**PLO8**	**PLO9**
CLO1	1	2	3	3					2
CLO2	1	1		2		3	3		
CLO3	1	1	2	2		3	3	3	1
CLO4	3	3	1	1		2		2	1
CLO5			1	1	2		2	2	

Correlation: 3-High, 2-Medium, 1-Low

Teaching-Learning Strategy:

- Lecturing (through brief presentations and questions method)
- Case studies (through whole-group analyses and discussions)
- Peer presentation analyses (through providing peer feedback)
- Written assignments (through providing topics that will require research and synthesis of information collected)
- Presentations (through providing students opportunities for application of their own teaching techniques)

Assessment Strategy:

Assessment Method	**(100%)**
Class Assessment

Course Code : ELT 5104
Course Title : Psycholinguistics and Second Language Acquisition (SLA)
Credits : 3

Full marks : 100

Rationale:

This course will provide students with psychological, sociological, and linguistic perspectives on the acquisition of a second language, with particular emphasis on English as a Second/Foreign language. This course serves as an introduction to psycholinguistics and it will examine key issues concerning how language is acquired, represented and processed in the brain (with particular focus on acquisition and learning of a second language). Major psychological mechanism/processes involved in language comprehension and language production will be covered and contemporary research on first and second language acquisition will be discussed.

Course Objectives:

This course aims to introduce students to the key concepts and issues in Psycholinguistics and Second Language Acquisition (SLA). It also explores a variety of first and second language acquisition theories that help learners to understand how they learn a second language. This course will enable learners to connect second language acquisition theories to their own learning experiences and educational contexts.

Course Contents:

- Brief overview of the history of research in Second Language Acquisition and psycholinguistics
- Key concepts and issues in SLA and psycholinguistics
- Role of L1 in SLA and psycholinguistics
- Individual learner differences in SLA: Age, aptitude, cognitive style, motivation and personality
- Theories of language learning: Behaviorism, innatism, maturation and cognitive theories of learning
- Theories of second language acquisition: The acculturation model, accommodation theory, the monitor model, and interlanguage theory
- Universal Grammar (UG)
- The description of learner language – Error analysis
- Classroom second language acquisition: The role of input, interaction and feedback
- Learning styles and language learning strategies
- Learner autonomy and learner training
- Multiple intelligences and language learning

- Current trends in SLA research: Cognitive approaches, socio-cultural perspectives on SLA

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	Remember essential terms of Psycholinguistics
CLO2	Understand core areas of Psycholinguistics
CLO3	Analyze concepts of Second Language Acquisition in the real life
CLO4	Evaluate Psycholinguistic features in the perspective of contemporary society world
CLO5	Create new ideas regarding Second Language Acquisition in real life

Course Code : ELT 5105

Course Title : Teaching Language Skills: Theory

Credits : 3

Full Marks : 100

Rationale:

Teaching a second/foreign language is essentially concerned with the teaching of the basic skills of the language. This course provides students with experience of and expertise in the theoretical and practical issues of teaching the basic skills of the English as a second/foreign language – listening, speaking, reading and writing, and thus prepares them for teaching the skills in the classroom situation.

Course Objectives:

The objective of this course is to teach the basic skills of English – listening, speaking, reading, and writing to students of diverse levels and needs efficiently. The course aims to enable the students to analyse the element of language and established appropriate relationships among linguistic components. This course will enable the learners to communicate effectively and appropriately in real life situations. The students will develop teaching techniques of four basic skills.

Course Contents:

- ESL/EFL skills, their types and functions, contexts and communication
- Listening: definition, barriers, features, basic levels, planning lessons, developing materials and approaches to teaching EFL listening
- Speaking: definition, theories, planning lessons, developing materials and approaches to teaching EFL speaking
- Reading: definition, models, types, planning lessons, developing materials and approaches to teaching EFL reading
- Writing: definition, types, planning lessons, developing materials and approaches to teaching EFL writing

Course Learning Outcomes: At the end of this course, students will be able to:

CLO 1	understand how to teach lessons on English grammar, spelling and pronunciation, speaking, listening, reading, and writing lessons
CLO 2	apply different approaches, methods, and techniques of language teaching to teaching English Skills
CLO 3	analyze specific feedback and strategies on how to improve English skills
CLO 4	evaluate the teaching of speaking, listening, reading, and writing skills of English
CLO 5	create and develop resources to assist the teaching of English

Mapping of Course Outcomes to Program Outcomes-

	PLO1	PLO2	PLO3	PLO4	PLO5	PLO6	PLO7	PLO8	PLO9

Course Code: ELT 5106

Course Title: Pragmatics and Discourse Analysis

Credit: 03

Rationale:

Pragmatics and Discourse Analysis involve the study of language in its contexts of use. Pragmatics focuses on the effects of context on meaning, and Discourse Analysis studies written and spoken language in relation to its social context.The education of pragmatics and discourse is necessary and important in our globalized world. The reason is that English is currently used by people in the world for interaction and communication with each other in order to do international trade or participate in the academic conferences. For avoiding miscommunication caused by cultural difference, being familiar with diverse cultures and pragmatics is essential. Studies of Pragmatics and discourse emphasize the appropriateness in inter-cultural discourses. Through learning pragmatics, the English speakers' intercultural communication competence should be raised. Their Pragmatic Competence would be better because of knowing cultural differences and being aware of the significance in appropriate languages.

Course Objectives:

The objectives of this course are:

- to introduce learners to key concepts and issues in pragmatics and discourse analysis.
- to develop an understanding of the theoretical principles and processes underlying the analysis of discourse
- to provide students with an opportunity to explore different approaches to the analysis of written and spoken texts
- to gain an understanding of language in use

Course Contents:

- Definition and scope of pragmatics and discourse analysis
- Features of spoken and written discourse, Speech Act theory: Austin and Searle
- Discourse processing and discourse comprehension
- Context of situation

- Cooperative principle, presupposition, inference and implicature in discourse
- Rhetorical organization of texts (theme / rheme, text types)
- Conversational analysis and preference structure
- Politeness theories
- Classroom discourse analysis
- Critical discourse analysis

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	Remember the theories, principles and concepts in pragmatics and discourse analysis
CLO2	Identify and analyze the features of spoken and written discourse
CLO3	Explore and examine the contextual factors that influence text production and reception
CLO4	Show understanding of socially-situated language use
CLO5	Appreciate the power dimensions of language use

Course Code : ELT 5107
Course Title : Stylistics
Credits : 3
Full Marks : 100

Rationale:

This course is primarily concerned with the function of stylistics in facilitating literary response and in understanding the techniques and features of literary texts (with marginal cross-references drawn from such areas of English performance as the media and narrative and forensic linguistics (language and the law). A broad selection of topics central to contemporary linguistics will be discussed, especially those that are particularly illuminating in textual analysis. Selected literary works that have proved to be of considerable interest in literary criticism will be used as a basis for discussion in class. Attention is given to both literary and linguistic stylistics with a view to exploring the relation between style and literary function. By the end of the course, students can acquire understanding of the principles of stylistic analysis and theory. They will be equipped with clear understanding of how language works, how to identify the essence of an author's style and how advertisements and commercials win people over.

Course Objectives:

The objectives of this course are:

- to identify the tools and principles of stylistic analysis
- to analyze texts beyond its formal features
- to provide students with an opportunity to explore different approaches to the analysis of written and spoken texts
- to create various texts using the tools and principles of stylistic analysis

Course Contents:

- The concept of style and stylistics
- The nature and goals of stylistics
- Different types of stylistics
- Levels of stylistic analysis
- Foregrounding

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	remember and identify the principles and tools of stylistic analysis
CLO2	analyze texts beyond its formal features using the principles and tools of stylistic analysis
CLO3	select a research topic and appropriate research strategies
CLO4	deliver a clear, well-timed oral presentation appropriate to the topic and the audience
CLO5	present written work stylistically analyzing a work of literature

Mapping of Course Outcomes to Program Outcomes-

Course Code : ELT 5108
Course Title : Sociolinguistics
Credits : 3
Full Marks : 100

Rationale:

This course is an introduction to sociolinguistics, the study of the relationship between language and society. It will look at variation at all levels of language and how such variation constructs and is constructed by identity and culture. An exploration of attitudes and ideologies about these varieties will be of particular importance to understanding this relationship. It will also consider some of the educational, political, and social repercussions of these sociolinguistic facts.

Course Objectives:

The objective of Sociolinguistics is to study language used in societies, in many theoretical perspectives. It has been observed that language and society are mutually connected which means society and language both have an impact on each other and it is not possible to understand language without the context of society.

Course Contents:

- language of speakers of different ages, genders, social classes and roles and language of various social groups;
- conversation strategies, speakers' communicative competence
- urban and regional varieties, relation between dialects and standard language, multilingualism, language contacts;
- public language (TV, radio);
- language of the new media (text messages, Facebook, skype);
- language attitudes and their alternations (which language or linguistic varieties, language features are considered to be prestigious, nice, the most suitable in different social contexts and in different periods of time);
- language policy and standardization

Intended Learning Outcomes: At the end of this course, students will be able to:

CLO 1	remember the main laws of sociolinguistics.
CLO 2	understand and explain the existence of dialects and various cases of multilingualism in society
CLO 3	apply sociolinguistic concepts to explain the interrelation between language

	and society
CLO 4	analyze pieces of discourse with regard to major sociolinguistic theories.
CLO 5	evaluate the influence of various social factors on language use.

Course Title : Viva Voce
Course Credits : 1.5
Full Marks : 50

Rationale:

The viva-voce will be held after the end of the written examinations of first semester. This test measures the students' overall grasp of the courses covered in the first semester, and their oral communication skills

Course Objectives:

The objective of the viva examination is to evaluate the understanding of 'all the courses covered in the entire semester. The viva examination also aims at instilling confidence in the students to face job and other types of interviews in practical/professional life.

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	learn the proper ways of having formal conversation maintaining correct posture, gesture, and eye contact
CLO2	face job interviews more confidently later on.
CLO3	demonstrate confidence in terms of facing the challenge of speaking in a formal atmosphere
CLO4	have a good understanding of all the courses covered in the entire semester

Mapping of Course Outcomes to Program Outcomes-

Courses for Level 1 Term II in details

Course Code : ELT 5201
Course Title : Syllabus Design and Materials Development
Credits : 3
Full Marks : 100

Rationale:

This course aims to review the principal approaches to the syllabus and curriculum design and examine relevant factors in specifying a syllabus. Besides, the course will analyze teaching materials in the light of syllabus requirements and consider the processes involved in implementing a curriculum and selecting, adopting and designing materials needed for specific syllabus. Students will be taught different types of syllabi: Structural, situational, notional functional, task based, skill based and content-based syllabuses, theories and principles of ELT required for designing and adapting materials.

Course Objectives:

The course aims to introduce learners to issues and concepts related to English language syllabus design and materials development. It focuses on providing learners with the knowledge and necessary skills for designing and evaluating syllabuses and language teaching materials. Theoretical insights, principles and recent developments in this field are also emphasized.

Course Contents:

- Definition and scope of syllabus and curriculum
- Types of syllabi: Structural, situational, notional functional, task based, skill based and content-based syllabuses
- Factors and steps involved in syllabus and curriculum design
- Syllabus evaluation and design
- Designing syllabuses for students of different levels
- Theories and principles of ELT materials design
- Evaluation and adaptation of ELT materials
- Designing materials for teaching the four language skills
- Use of technology in materials design

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	understand the issues of syllabus design and materials development needed for selecting, adopting and designing materials.
CLO2	comprehend practical, social and theoretical factors affecting ELT materials development and syllabus design.
CLO3	evaluate some of the checklists to assess syllabuses and materials for an effective lesson plan and task design.
CLO4	apply the pedagogic approaches in developing course materials for effective syllabus.
CLO5	create materials of any course emphasizing on four skills sand prepare a draft syllabus for a course.

Mapping of Course Outcomes to Program Outcomes-

Course Code : ELT 5202
Course Title : Research Methodology
Credits : 3
Full Marks : 100

Rationale:

Research Methodology is a hands-on course designed to impart education in the foundational methods and techniques of academic research in social sciences and business management context. Research scholars would examine and be practically exposed to the main components of a research framework i.e., problem definition, research design, data collection, ethical issues in research, report writing, and presentation. Once equipped with this knowledge, participants would be well-placed to conduct disciplined research under supervision in an area of their choosing. In addition to their application in an academic setting, many of the methodologies discussed in this course would be similar to those deployed in professional research environments.

Course Objectives:

The objectives of this course are:

- to develop understanding of the basic framework of research process.
- to develop an understanding of various research designs and techniques.
- to identify various sources of information for literature review and data collection.
- to develop an understanding of the ethical dimensions of conducting applied research.
- to appreciate the components of scholarly writing and evaluate its quality.

Course Contents:

- Definition of research; its characteristics and importance
- The process of research using quantitative and qualitative approaches
- Identification of the research problem
- Review of literature
- Purpose statements, research questions, and hypotheses
- Research ethics, reliability and validity
- Quantitative research and methods of data collection
- Analyzing data, reporting and interpreting quantitative results
- Qualitative research and data collection
- Analyzing data, reporting and interpreting qualitative results
- Reporting and evaluating research
- Research designs: survey designs; experimental designs; ethnographic designs; mixed methods design; and action research designs.

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	attend to the politics of what to do and not to do as researchers
CLO2	increase critical thinking skills on various types of research and demonstrate this by seriously considering multiple viewpoints and perspectives
CLO3	submit a research proposal and deliver an oral presentation
CLO4	have ethical awareness of plagiarism and other illegal practices in research
CLO5	apply the research based knowledge in practical life

Mapping of Course Outcomes to Program Outcomes-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**	**PLO8**	**PLO9**

Course Code : ELT 5203
Course Title : Language Testing, Evaluation and Assessment
Credits : 3

Full Marks : 100

Rationale:

Language learning and teaching programs are generally concerned with course design, preparation of syllabi and study plans, and assessment methods. The teaching and learning process generally receives primary importance and testing, evaluation and assessment methods are often neglected. This course serves as an introduction to the key concepts, principles and practices in language testing, evaluation and assessment. It is to make the learners understand the need to design testing, evaluation and assessment based on the teaching/learning outcomes. Students will look deeper into the key principles in evaluation in ELT, different purposes for different testing and assessments, key issues in test design, construction and validation. They will be introduced with the production of a good test and will learn how to make it work.

Course Objectives:

The objectives of this course are:

- to introduce learners to key concepts and issues in testing, assessment and evaluation
- to develop an understanding of the theoretical principles and processes underlying test construction
- to develop the practical skills required for the design, construction, administration, assessment and evaluation of English language tests and programs
- to address the most recent trends and developments in the field of assessment

.

Course Contents:

- Introduction to testing, assessment and evaluation
- Basic concepts and issues in language testing
- Types of tests (proficiency, achievement, diagnostic, placement)
- Approaches to language testing (Direct vs indirect; criterion-referenced vs norm-referenced; discrete point vs integrative; objective vs subjective)
- Test formats/ Common test techniques
- Item writing and moderation
- Test construction and evaluation
- Testing the language skills: Reading, writing, speaking and listening
- Testing vocabulary and grammar
- Grading tests and interpretation of results
- Test administration.
- Communicative language testing
- Evaluation of tests and program evaluation

- Current issues in language testing research (alternative assessment, authentic assessment, portfolio assessment)
- Computerized testing
- National and international tests (SSC, HSC, BCS, IELTS, TOEFL, GRE)
- Critical language testing

Course Learning Outcomes: At the end of the Course, the student will be able to –

CLO1	explain central concepts and issues in language testing, such as basic types of language tests
CLO2	explain central concepts and issues in evaluation of language proficiency
CLO3	understand the key principles of test construction and validation, and apply them in the development of a specific language test
CLO4	administer a language test and analyze its result
CLO5	appraise validity and reliability aspects of language testing

Mapping of Course Outcomes to Program Outcomes-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**	**PLO8**	**PLO9**
CLO1	3	1			1			2	
CLO2	3	2	1		2		2	2	
CLO3	3	3	2	3	2	1	2	2	3
CLO4	2	3	3	3	2		2	3	3
CLO5	2	2	3		2		2	1	3

Correlation: 3-High, 2-Medium, 1-Low

Teaching-Learning Strategy:

- Lecturing (through brief presentations and questions method)
- Case studies (through whole-group analyses and discussions)
- Peer presentation analyses (through providing peer feedback)
- Written assignments (through providing topics that will require research and synthesis of information collected)
- Presentations (through providing students opportunities for application of their own testing, evaluation and assessment techniques techniques)

Assessment Strategy:

Assessment Method	**(100%)**
Class Assessment	
Class Performance/Observation/Attendance	10

Class Tests/Assignments	10
Mid-Term Assessment (Exam/Project)	30
Exam	
Final exam	50

Course Code : ELT 5204
Course Title : Teaching Practicum
Credits : 3
Full Marks : 100

Rationale:

The primary goal of the teaching practicum is to provide students with teaching experience within a classroom setting. The students receive instruction and feedback from faculty

supervisors who are responsible for the courses in which the practica take place. Students' practica will vary in the extent to which emphasis is placed on instructional time, course development, assignment grading, and other curriculum review and planning issues and tasks.

Course Objectives:

This course is designed to develop students' skills in teaching the different areas, skills and sub-skills of English application of the teaching techniques of various aspects of English through real or simulated classroom situations. It will help students to engage in taking theories of teaching the basic areas of English (vocabulary, pronunciation, and grammar) and the four major skills (listening, speaking, reading, and writing), into practice in real classroom teaching after to develop links between what they find in the exploration and what they think should be done for an overall improvement, and to translate their conceptual findings into practice through their individual classroom teachings.

Course Contents:

- Teaching receptive and productive vocabulary
- Teaching pronunciation
- Inductive, deductive and task-based approaches to grammar teaching
- Interactive approaches for teaching fluency, appropriacy, turn-taking, and using range of expressions in speaking practice,
- Product, process and interactive approaches to teaching the reading skills of English with their sub-skills,
- Product/genre approach and process approaches to teaching the sub-skills of writing.

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	remember productive vocabulary
CLO2	understand interactive approaches for teaching fluency
CLO3	analyze approaches to grammar teaching in the real life
CLO4	evaluate humanistic approaches to teacher education in the perspective of contemporary society / world
CLO5	create new ideas regarding different aspects of teaching in real life

Mapping of Course Outcomes to Program Outcomes-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**	**PLO8**	**PLO9**
CLO1	1	2	1		1	1			
CLO2	2	2	1		2	2		1	1
CLO3	1	1	1	3	2	2	1	2	1
CLO4	1	1	1	3	2	2	2	2	1
CLO5			1	1	2	2	1	2	1

Correlation: 3-High, 2-Medium, 1-Low

Teaching-Learning Strategy:

- Lecturing (through brief presentations and questions method)
- Case studies (through whole-group analyses and discussions)
- Peer presentation analyses (through providing peer feedback)
- Written assignments (through providing topics that will require research and synthesis of information collected)
- Presentations (through providing students opportunities for application of their own teaching techniques)

Assessment Strategy:

Course Title : Using Technology in Language Classroom

Credits : 3

Full Marks : 100

Rationale:

This course is designed to help English language teaching professionals around the world acquire and maintain basic knowledge and skills in technology for professional purposes through hands-on learning. It will help teachers integrate pedagogical knowledge and skills with technology to enhance their language teaching and learning through their reading, discussion, and creation of new learning activities. The course will help participants apply technology in record keeping, feedback, and assessment, and use technology to improve communication, collaboration, and efficiency by participating in online discussion and presentation.

Course Objectives:

The objectives of this course are:

- to acquire and maintain basic knowledge and skills in technology for professional purposes
- to help teachers integrate pedagogical knowledge and skills with technology
- to enhance their language teaching and learning through their reading, discussion, and creation of new learning activities
- to help participants apply technology in record keeping, feedback, and assessment
- to learn using technology to improve communication, collaboration, and efficiency by participating in online discussions and presentations.

Course Contents:

- Technology: professional and educational purposes
- CALL: foundations, language skills, and CMC
- ICT in L2 teaching/learning
- Web 2.0
- MALL
- Digital games
- Digital story telling
- Smart Board
- Corpora in L2 learning
- e-Assessment

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	remember the basics of computer-assisted language learning (CALL)

CLO2	understand strategies to develop vocabulary growth through social media
CLO3	analyze methods for selecting and adapting appropriate reading texts for accomplishing particular language learning goals
CLO4	evaluate existing listening resources on the Internet to address language learning objectives
CLO5	create and develop teaching units that incorporate one or more of the technologies learned throughout the course.

Mapping of Course Outcomes to Program Outcomes-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**	**PLO8**	**PLO9**
CLO1	1	2	1	1	1	1	1		
CLO2	2	2	1		2	2	1	3	3
CLO3	1	1	1	3	2	2	3	3	3
CLO4	1	1	1	3	2	2	1	3	3
CLO5	2	2	1	1	2	2		3	3

Correlation: 3-High, 2-Medium, 1-Low

Teaching-Learning Strategy:

- Lecturing (through brief presentations and questions method)
- Case studies (through whole-group analyses and discussions)
- Peer presentation analyses (through providing peer feedback)
- Written assignments (through providing topics that will require research and synthesis of information collected)
- Presentations (through providing students opportunities for application of their own teaching techniques)

Assessment Strategy:

Assessment Method	**(100%)**
Class Assessment	
Class Performance/Observation/Attendance	10
Class Tests/Assignments	10
Mid-Term Assessment (Exam/Project)	30
Exam	
Final exam	50

Course Code : ELT 5206
Course Title : Thesis and Defense

Credits : 6

Full Marks : 200

Rationale:

Thesis and Defense is a hands-on course designed to impart education in the foundational methods and techniques of academic research in ELT in Bangladeshi context. Research scholars would examine and be practically exposed to the main components of a research framework i.e., problem definition, research design, data collection, ethical issues in research, report writing, and presentation. Once equipped with this knowledge, participants would be well-placed to conduct disciplined research under supervision in an area of their choosing.

Course Objectives:

The thesis is a piece of independent work that builds upon the practical, theoretical and research skills of the MA in English (ELT) program. It is an opportunity for students to follow their own interests, demonstrate their strengths and produce a rigorously researched thesis on a specific topic related to the learning/teaching of English as a second/foreign language.

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	attend to the politics of what to do and not to do as researchers

CLO2	increase critical thinking skills on various types of research and demonstrate this by seriously considering multiple viewpoints and perspectives
CLO3	submit a research proposal and deliver an oral presentation
CLO4	have ethical awareness of plagiarism and other illegal practices in research
CLO5	efficiently carry out research into different facets of applied linguistics and L2 teaching/learning, and write theses.

Mapping of Course Outcomes to Program Outcomes-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**	**PLO8**	**PLO9**
CLO1	2	2	3	1	1	1	1		
CLO2	1	2	1		2		1	3	3
CLO3	1	1	1		2	2	3	3	3
CLO4	1	1	1	3	2		1	3	3
CLO5		2	1	1	2	2		3	3

Correlation: 3-High, 2-Medium, 1-Low

This course has the following principles:

- **Word range:**13,000-15,000 words
- **Documentation, referencing and formatting:** APA

Plagiarism:

- Citation without proper reference will be considered as an act of plagiarism. If the main argument appears to be rephrasing of established or existing literature available in books, magazines, websites etc., it will be considered as an act of plagiarism. Plagiarism when proved will be penalized as per the university regulations concerned.
- **Oral defense:** Students will make a 50-mark oral defense after the submission of the thesis, conducted by the Examination Committee and supervisor(s) concerned.
- **Submission:** Five (5) copies.
- **Supervisor:** The supervisor will be nominated by the Academic Committee of the department from amongst the faculty members.

Evaluation of Thesis:

The distribution of marks for Thesis evaluation will be as follows:

Description	Marks
Evaluation	140
Presentation+ Defense	60

Total	200

The thesis and defense committee will be constituted as follows:

1. Head of the Department	Chairman
2. One member from within the Discipline (excluding the supervisor and co-supervisor)	Member
3. One external member from outside the Discipline/University	Member

Each examiner will evaluate the thesis separately and the average marks will be considered for grading. However, if the marks given by the first and second examiners vary by 20% or more, a third Examiner appointed by the concerned Examination Committee from outside the University will evaluate the Thesis. Among these marks, an average of the closest two will be considered for grading. However, if the marks given by the third examiner happen to equidistant from the marks given by the first two examiners, the average of the three marks will be considered for grading.

If the Head of the Discipline supervises any thesis, an internal member from the Discipline nominated by the examination committee and endorsed by the Discipline Head will act as a member of the examination committee in place of the Head.

Course Code : ELT 5207
Course Title : Viva Voce

Credits : 1.5
Full Marks : 50

Rationale:

The viva-voce will be held after the end of the written examinations of second term. This test measures the students' overall grasp of the courses covered in the second term, and their oral communication skills.

Course Objectives:

The objective of the viva examination is to evaluate the understanding of all the courses covered in the entire term. The viva examination also aims at instilling confidence in the students to face job and other types of interviews in practical/professional life.

Course Learning Outcomes: At the end of the course, the students will be able to –

CLO1	learn the proper ways of having formal conversation maintaining correct posture, gesture, and eye contact
CLO2	face job interviews more confidently later on.
CLO3	demonstrate confidence in terms of facing the challenge of speaking in a formal atmosphere
CLO4	have a good understanding of all the courses covered in the entire semester

Mapping of Course Outcomes to Program Outcomes-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**	**PLO8**	**PLO9**
CLO1	1	2	1		1	1			
CLO2	2	2	1		2	2		1	1
CLO3	1	1	1	3	2	2	1	2	1
CLO4	1	1	1	3	2	2	2	2	1
CLO5			1	1	2	2	1	2	1

Correlation: 3-High, 2-Medium, 1-Low
