CURRICULUM COMMITTEE

Department of Business Administration, BAUST

The under-graduation course curriculum of the department of Business Administration of Bangladesh Army University of Science and Technology (BAUST) has been reviewed by the committee as mentioned below and will be implemented from Level-1 Term-I of BBA.

A. Chairman

Md. Zaber Hossain
Assistant Professor
Department of Business Administration
Bangladesh Army University of Science and Technology

B. External Members

Md. Abaydur Rahman Pramanik
Treasurer, University of Rajshahi, and
Former Professor
Department of Accounting, University of Rajshahi

Dr. Mohammad Thoufiqul Islam
Professor
Department of Management
University of Dhaka, Dhaka

C) Internal Members (Department of Business Administration)

Rakibul Islam
Assistant Professor
Department of Business Administration
Bangladesh Army University of Science and Technology

Lima Nasrun Eni
Assistant Professor
Department of Business Administration
Bangladesh Army University of Science and Technology

Goutam Saha
Assistant Professor
Department of Business Administration
Bangladesh Army University of Science and Technology

Md. Azmir Sharif
Assistant Professor
Department of Business Administration
Bangladesh Army University of Science and Technology

Shamima Islam
Lecturer
Department of Business Administration
Bangladesh Army University of Science and Technology

Sanzida Begum
Lecturer
Department of Business Administration
Bangladesh Army University of Science and Technology

Samiya Bint Halim
Lecturer
Department of Business Administration
Bangladesh Army University of Science and Technology

Most. Mukta Khatun
Lecturer
Department of Business Administration
Bangladesh Army University of Science and Technology

Mehedi Hasan
Lecturer
Department of Business Administration
Bangladesh Army University of Science and Technology

Md. Rabiul Awal
Lecturer
Department of Business Administration
Bangladesh Army University of Science and Technology

Md. Shahadat Hossain
Lecturer
Department of Business Administration
Bangladesh Army University of Science and Technology

Nazmun Nahar Shova
Lecturer
Department of Business Administration
Bangladesh Army University of Science and Technology

Md. Anwar Hossain
Lecturer
Department of Business Administration
Bangladesh Army University of Science and Technology

TITLE OF THE ACADEMIC PROGRAM: BACHELOR OF BUSINESS ADMINISTRATION (BBA)

NAME OF THE UNIVERSITY: BANGLADESH ARMY UNIVERSITY OF SCIENCE AND TECHNOLOGY (BAUST), SAIDPUR

ABOUT BAUST

Bangladesh Army University of Science and Technology (BAUST) is a private university sponsored by Bangladesh Army Welfare Trust. Bangladesh Army established BAUST on 15th February 2015 at Saidpur Cantonment.
The intention to establish BAUST is to spread technical education to the remote places of the country.

BAUST got approval to start its academic activities from the Ministry of Education and UGC on 17 February 2015 and launched its academic session with four departments (CSE, EEE, ME, and A & S) on 15 Feb 2015 under 03 faculties. At present BAUST is functioning with 08 departments (CSE, EEE, ME, IPE, CE, ICT, DBA, AIS, English and Arts & Science) under 05 faculties.
BAUST is in full compliance with the Private University Act 2010 and instructions issued by Army Welfare Trust, Ministry of Education and University Grants Commission of Bangladesh.

LOCATION OF BAUST

BAUST is located at Saidpur Cantonment, Saidpur, Nilphamari, a hub of knowledge for Bangladesh Armed Forces. Saidpur Cantonment is a calm and quiet education village and free from all possible pollution of a city life. Whistling birds on the tree branches and overall bounty of nature adds to the already existing splendid academic atmosphere.

OBJECTIVES OF THE UNIVERSITY

- To offer the following discipline in Engineering as well as business with a view to meeting the increasing demands in the country. Four-year bachelor's and 1/1.5/2 year Master's Programs are:
  - B. Sc. in Computer Science and Engineering (CSE)
  - B. Sc. in Electrical and Electronic Engineering (EEE)
  - B. Sc. in Mechanical Engineering (ME)
  - B. Sc. in Industrial and Production Engineering (IPE)
  - Bachelor of Business Administration (BBA)
  - Master of Business Administration (MBA)
  - B. Sc. In Civil Engineering
  - B.A Honors in English
  - BBA in Accounting and Information Systems (AIS)
  - B. Sc. in Information and Communication Technology (ICT)
  - MA in ELT
- To strive for excellence by providing quality teaching through wide varieties of instructional approaches.
- To produce highly competent and global standard manpower in Science and Technology who will be proficient in communication skill, critical thinking and analytical abilities.
- To generate adequate resources to support the University's instructions, research and extension pursuits.

- To provide a timely, friendly and accessible support system that promotes partnership, and a sense of shared responsibilities between students, faculty, alumni, and other stakeholders.
- To strive for the gradual expansion of faculties, departments, and programs in accordance with the need and in abidance with the Private University Act, 2010 (revised).
- To develop joint collaboration with similar universities, institutes and organizations, both at home and abroad and sign agreements and memorandum of understanding to this effect.
- To sensitize and infuse the core values of BAUST i.e. Integrity, Openness, Intellectual Curiosity, Commitment to Excellence, Self-Discipline, Sense of Responsibility, Diversity and Respect for others amongst the students.
- To carry out other necessary University works to meet the need of time.

VISION OF BAUST

The university aspires to transform into a center of excellence in Science, Engineering and Technology, Arts, and Business Administration programs by providing innovative, multi-disciplinary courses to the young generation of the country and beyond. It endeavors to make the university a hub of knowledge and be recognized as a leading university of the country.

MISSION OF BAUST

The mission of BAUST is to

- Provide state of the art education to achieve disciplinary knowledge, problem solving skill, ability to lead and communication skill.
- Provide a collaborative environment enabling free exchange of ideas to flourish research, creativity and innovation.
- Remain updated and responsive to the diverse needs of society and transform in a sustainable way.

NAME OF THE PROGRAM OFFERING ENTITY

Department of Business Administration

VISION OF THE DEPARTMENT OF BUSINESS ADMINISTRATION

To transform into a leading business school that will enhance business education, leadership skills, research, and corporate excellence to serve the society in the 21st century.

MISSION OF THE DEPARTMENT OF BUSINESS ADMINISTRATION

M1	Imparting theoretical and practical business knowledge to the students so that they can contribute towards different business domains by acquiring technical, problem solving, and communication skills.
M2	Encouraging logical understanding and inquisitive mindset among the students so that they are able to analyze business problems from a unique perspective and come up with contemporary solutions to complicated business issues by applying innovative strategies.
M3	Updating students about the multifarious requirements of the society by providing them entrepreneurial and multidisciplinary knowledge in a sustainable way to instill a sense of ethical and social commitments in the individual and practical life of our business graduates.

OBJECTIVES OF THE DEPARTMENT OF BUSINESS ADMINISTRATION

The objectives of the program offering entity (DBA) are as follows:

1. Developing skilled, efficient and committed professionals for the private, public and semi-government institutions of the country and abroad.
2. Providing contemporary and modern knowledge to the business graduates for competent, meaningful and successful interaction with the competitive forces of the global business environment.
3. Developing future leaders for different sectors with up-to-date research exposures and sophisticated decision models to managerial responsibilities.
4. Creating managerial resources from a holistic view, prosperity, stability and cooperation for ensuring continuous success in the midst of growing complexities.
5. Increasing technical competence, decision making skills and sociability of the future leaders with integrated analytical and ethical knowledge.

NAME OF THE DEGREE

Bachelor of Business Administration (BBA)

DESCRIPTION OF THE PROGRAM

Bachelor of Business Administration (BBA) program aims at providing contemporary and up-to- education in business, preparing students as well-trained business professionals to meet the needs of the national and international business.

Through this program, students get an opportunity to develop their ability to understand necessary techniques for dealing with the economic, social, political and technological environment of the business firms, especially quantitative techniques and communication skills. It also aims at developing in students a wide appreciation of relevant subjects and of their importance in solving practical business problems. The undergraduate degree program maintains this extensive approach to business. There are formal final examinations in all courses and all activities carried out in the program are considered for overall assessment of students' merit. A satisfactory record of class work will also be required at each stage for successful completion of a BBA degree.

GRADUATE ATTRIBUTES

The graduates of the Department of Business Administration are expected to have the following attributes:

i. Communication Skills.
ii. Thinking Skills.
iii. Leadership and Team working Skills.
iv. Adaptability.
v. Global Citizen.
vi. Enterprising Skills.
vii. Problem Solvers
viii. Superior Professionals
ix. Innovators

Program Education Objectives (PEOs)

PEO1	To enable the business graduates to theorize, critically evaluate, and develop in-depth business acumen by instilling in them an exceptional capacity to synthesize knowledge towards adding value in such business disciplines as finance, marketing, accounting, management, and economics.
PEO2	To inspire lateral thinking by enabling business graduates to examine business issues from innovative angles and thereby making them bring about suitable strategic solutions to complex business problems.
PEO3	To develop a curious outlook among the business graduates so that they research the facts and truths by employing rigorous methodologies that support technological application, empirical analysis, and profound decision making.
PEO4	To instill a passion for entrepreneurship in the business graduates by developing their interpersonal, problem solving, and communication skills as well as introducing them with the application of sophisticated business technologies and techniques.
PEO5	To develop a sense of patriotism, ethics, and social commitment in the personal and professional life of business graduates so that they can able to add value to the society.

Program Learning Outcomes (PLOs)

1	**PLO1**	Demonstrate foundational knowledge in several business areas, such as finance, accounting, marketing, management, economics, statistics, and entrepreneurship, in application of concepts and theories.
2	**PLO2**	Demonstrate an ability to apply and integrate the business theories and practices to solve business and social problems.
3	**PLO3**	Demonstrate effective skills in both verbal and non-verbal communications using up to date technologies as well as an ability to undertake multidisciplinary approaches for contemporary business problem solving and strategic decision making.
4	**PLO4**	Foster investigative and critical thinking abilities for research and data supported decision making.
5	**PLO5**	Demonstrate an ability to comprehend, evaluate, and communicate global, legal, managerial, financial, and ethical aspects of business.
6	**PLO6**	Demonstrate an ability to lead themselves and others in the achievement of entrepreneurial, managerial, and organizational goals, contributing effectively to the professional and team building skills.
7	**PLO7**	Demonstrate a sense of responsibility towards business organizations, nation, and society as a whole.

Part-B

Structure of Curriculum

Duration of the program: Years: 4 Semesters: 8

Admission requirements:

For Bangladeshi Students

a. HSC/ Alim or equivalent examination with minimum GPA of 3.0 (with additional subject). The total GPA of HSC/Alim or equivalent and SSC/ Dakhil or equivalent should be at least 6.0 (with additional subjects).
b. GCE O/A Level Examination: At least GPA 3.0 in both GCE O-Level and GCE A-Level. The total GPA in GCE A-Level and O-Level should be at least 6.0.The candidate must not have any F grade in any subject of the both levels.

For Foreign Students

a. Foreign nationals who have successfully passed in their Secondary School and Higher Secondary or their equivalent examination (after 12 years of schooling) having at least 50% marks from foreign educational institutes.
b. Have English as medium of instruction or IELTS-5.0/TOEFL-79 on IBT.
c. Apply within two years from the date of completion of the standard twelve years Course curriculum.
d. Candidates for engineering programs must have Mathematics, Physics and Chemistry in Secondary or Higher Secondary or equivalent examination.
e. Candidates having contagious and communicable diseases or cardiac problems are not eligible for admission.

Admission Procedure

Bangladeshi Students: The selected candidates must collect Admission Form from Admission Section of Registrar Office and complete admission and registration formalities within the given time frame with BAUST Admission Section and respective Faculty by paying prescribed fees. The following rules will be applied in this regard:

1. Candidate failing to complete admission formalities within the prescribed date and time, his/ her selection will be considered as cancelled.

2. Student who fails to attend the class without any permission from concerned authority within four weeks of the commencement of 1st semester class, his/her admission will be considered as cancelled.

In such cases, the vacancies will be filled up by the candidates in the first merit list, other merit list(s) may be published from the waiting candidates for admission if required, and who will have to follow the same procedure for admission.

Foreign Students: A maximum of 20 (twenty) students from a single country (per Faculty) and a maximum of 10 (ten) students in a single department shall be allowed.

i. Visit the **"Information for International Students"** available on BAUST website (www.baust.edu.bd).

ii. Download the prescribed application form from the link or apply online.

iii. Fill it up properly; incomplete application will not be processed. A separate sheet can be attached if the space provided is found insufficient.

iv. The documents that need to be attached with the application are:

a) All academic records (certificates)
b) Marks certificate of the last public examination passed
c) Photo (Passport size; taken within 3 months)
d) A copy of the detailed syllabus of the last public examination passed
e) A copy of valid passport showing the name, photo, nationality and the passport number of the applicant
f) Any other document supporting the requirements (if there is any) of the faculty concerned.
g) NOC/PCF
h) Character Certificate.
i) Medical Certificate.

v. Send the signed application form along with all necessary documents by post to the following address, and also send a scanned copy of the whole set of application to the email admission@baust.edu.bd

Room No. 104
(Admission Office) Administration Building
BAUST Saidpur – 5310, Bangladesh
Tel.: +88-01769-675554

vi. The International Student's Admission Office will scrutinize all applications and forward all the valid applications to the competent authority for evaluation. During the evaluation process an applicant may be asked to submit further documents if necessary. Only short-listed applicants will be notified through their e-mails for further processing of their applications.

vii. Admission will be finalized after receiving the NOC/Clearance certificate from the competent authority of Bangladesh Government, and after verifying original academic records and transcripts.

Applicants who have passed HSC/Alim or equivalent or A-Level or equivalent examinations are eligible to apply, if he/she fulfills the following conditions:

Selection Procedure

Applicants eligible for Admission Test will be selected on the basis of total GPA of SSC & HSC or 'O'&`A' Level results. Name of the eligible applicants will be published in the University website (www.baust.edu.bd) and Notice Board.

Medical Checkup

Candidates selected through above procedure will have to go for medical checkup in BAUST/CMH, Saidpur Cantonment. If the medical authority considers any candidate unfit for study in University due to critical/contagious/mental diseases as shown in medical policy of University will be declared ineligible for admission.

Dope Test

BAUST ensures a drug free campus for every student. The University firmly believes that the use of drugs and other illegal substances can have a negative effect on the performance of the student's intellectual and spiritual development. The potential for alcohol and drug abuse threatens the viability of the student's professional development. In furtherance of these beliefs, BAUST has instituted an alcohol and drug testing policy to maintain wellness for students. Students will have to go through Dope Test during admission time.

Credit Transfer

BAUST students who wish to transfer their credits to a foreign university are advised to go through the website of that university very carefully and must understand all the procedure regarding admission, tuition and other fees, available financial aid and insurance policy, and available part-time work facility for the students etc. before enrollment.

Transfer from other University: Students with good academic records from other recognized University are eligible for transfer of their credits to BAUST. Students willing to transfer from another university must have transcripts of courses and grades, together with the copies of certificate/ mark sheet of SSC or HSC or transcripts of O and A levels. These Transcripts will be evaluated against the minimum entry requirement at BAUST.

Exemption of Courses: Students with extensive academic or professional experience may apply to waive courses by completing a 'Request for Course Waiver form. This form should be submitted to the Coordinator of the Program/ Head of the Dept./ Dean of the Faculty with the relevant academic transcripts or evidence of an appropriate certification.

Students having completed any course of Bachelor's degree from other recognized university are eligible for waiver provided that he/ she obtained at least a 'C+' grade or over 50 percent

marks in that specific course. Waiver is given to only in the case of those courses which are included in the syllabus of the program; the student wants to get admitted. Course waiver requires approval from equivalence committee of BAUST.

TOTAL CREDIT REQUIREMENT TO COMPLETE THE PROGRAM: 141
TOTAL CLASS WEEKS IN A SEMESTER: 14
NUMBER OF TERMS IN A YEAR: From Level 1 to Level 4 there shall be two regular Terms (Term-I and Term-II), each ordinarily having duration of not less than 14 weeks of classes.

DURATION OF A TERM
The duration of each term shall be as follows:

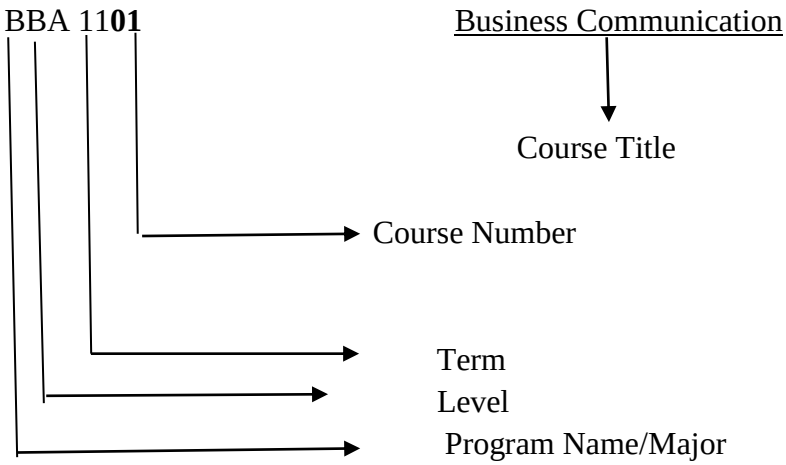

Sl. No	Events	Duration (week)
1	Classes before Mid Term	7
2	Mid Term Examination (To be conducted in 8th week of a term)	1
3	Mid Term Break/ Vacation	1
4	Classes after Mid Term	7
5	Review and Problem Solving class	1
6	Preparatory Leave for Term Final Examination	2
7	Term Final Examination	3
8	Result Publication	1
9	Term End Vacation/ Industrial Attachment/ Referred/ Improvement/ Backlog Exam	3
	Total	**26**

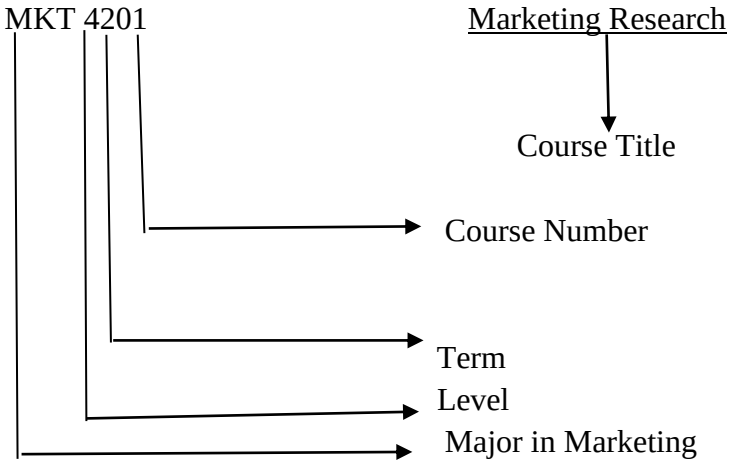

MINIMUM CGPA REQUIREMENTS FOR GRADUATION: 2.50
MAXIMUM ACADEMIC YEARS OF COMPLETION: 6

COURSE DESIGNATION SYSTEM
Each course is designated by a two to four letter code identifying the department offering the course followed by a four-digit number having the following interpretation:

- The first digit corresponds to the level in which the students normally take the course.
- The second digit corresponds to the term in which the students normally take the course.
- The third and fourth digit together indicates course number.

The Course designation system for Bachelor of Business Administration Program is illustrated as follows:

CATEGORY OF COURSES:

General education courses: Courses which are assigned for the students of all departments of all active faculties.

Sl. No.	Course Code	Course Title	PoE	Credits	Marks (%)		
					CIE	SEE	Total
1	HUM 1105	History of the Emergence of Bangladesh	BBA	3.0	40	60	100
2	HUM 1111	Bengali Language and Culture	BBA	3.0	40	60	100
3	CSE 1205	Computer Applications in Business	BBA	3.0	40	60	100
4	HUM 1205	Bangladesh Studies	BBA	3.0	40	60	100

Sessional Course

Sessional course is a type of Course designed to acquire practical knowledge base on the Theory of that particular course

Sl. No.	Course Code	Course Title	PoE	Credits	Marks (%)

Conduct of Examinations

Class tests, Mid-term exam and Term final exam will be conducted for theory courses and sessional exams will be conducted for sessional/practical courses. Referred/ Improvement/ Backlog examination will be conducted for theory courses.

Class Tests/Assignments/Presentations: These are to be conducted by the course teacher(s) in class rooms for the theory courses. Concerned department will arrange and monitor these tests. Class tests will carry a weight in the final assessment.

Mid Term Examination: Mid-term assessment (Examination/Project) for the theory courses will be conducted by the concerned department around the middle of a term. Duration of the mid- term examination will be maximum 1 (one) hour. The mid-term examination will carry a weight in the final assessment.

Term Final Examination: The students will get a 02 weeks preparatory leave for the term final examination usually after 14 weeks of classes. The term final examination will be conducted for all the theory courses over a period of 03 weeks by the Office of the Controller

of Examinations. The duration of term final examinations will be of 03 hours irrespective of the credit hours of the theory courses. The term final examination will carry a weight in the final assessment.

Sessional/ Practical Examination: Sessional/ Practical examinations for concerned program (both mid-term evaluation and final evaluation including viva-voce and quiz etc.) will be conducted by the concerned course teacher(s) and will be arranged and monitored by the concerned department. Both mid-term assessment and final assessment will carry a weight.

Referred Examination: The failed theory course(s) of the term final examination will be treated as referred course(s). Only for Level-1, Term-I, a student failed in a maximum of 3 (three) theory courses in the final examination will get a chance to appear in the next consequent referred examination because such a student will have no backlog course(s). But the student will not be promoted to the next higher level and Term if he/ she cannot clear at least one fail theory course out of the 3 (three) fail courses in the referred examination. Students having referred course (maximum three for L-1, T-I and maximum two for all other Levels and Terms) will have to appear in the next consequent referred examination, which will be held combined with the Improvement and Backlog examinations at the end of each semester or at the beginning of the next semester at any convenient time as decided by the authority. The maximum grade obtainable in Referred examinations shall be 'B'.

Improvement Examination: A student may also appear in the next consequent Improvement examination for the passed theory course(s) with letter grades less than 'B+' in the final examination. The maximum letter grade obtainable in the improvement examination shall be 'B+' and if he/ she cannot improve, the obtained grade of the final examination shall prevail.

Backlog Examination: From Level-1 Term-II and higher a student may have a maximum of 3 cumulative Backlog courses. Backlog course(s) are those theory course(s) which a student registered in a Term but even after the Final and Referred Examination he/ she obtained 'F' grade in that course(s). The maximum obtainable grade in the Backlog examination shall be 'B'. A student will get a maximum of 03 (three) chances to clear the Backlog course(s).

Number of Courses Allowable for Referred/ Improvement/ Backlog Examinations: A student will be allowed to appear for a maximum of 3 (three) courses in the Referred and /or Improvement and /or Backlog Examination in a term.

Conducting and other rules of Referred/ Improvement/ Backlog Examinations: Referred/ Improvement/ Backlog examinations will also be conducted by the Office of the Controller of Examinations. The Referred, Improvement and Backlog Examinations shall be held once in each term. Referred, Improvement and Backlog courses in each level-term shall be treated as self-study (i.e., retaining the already obtained marks of class performance, class tests and mid-term examination). The Referred, Improvement and Backlog Examinations will be held combined at any convenient time as decided by the authority. A student will be allowed to appear in a maximum of three courses from among his/ her Referred and/ or Improvement and/ or Backlog courses in a term.

Special Backlog Examination: A Special Backlog Examination on only Backlog courses may be conducted for the students who have completed their 4-year degree course (up to level-4 term-II) and have a shortage of maximum 12 (twelve) credits to obtain the Bachelor degree. The special backlog examination shall be arranged in a convenient time after 30 (thirty) days of publication of the final results of the level-4 term-II examination. The

evaluation system shall be same as backlog with self-study. The students willing to appear at the special backlog examination have to apply to the Head of the Department and with his permission must register within 7 (seven) working days of publication of Level-4 Term-II Final and Backlog examination results. A student who will fail in the special backlog examination shall have to register the failed course(s) in the next regular term.

Exemption from Taking Courses for Level Repeat Students: If a student fails to get himself/ herself promoted to the next higher level/ term on poor academic performance, he/ she have to take readmission in the same level and term in which he/ she failed as a repeater student. In such case he/ she shall be exempted from repeating the past theory and sessional courses. A Repeater student will have to repeat only those theory and sessional courses in which he/ she has failed even after the final and referred examinations.

Level/ Term Repeat for Student under Punishment: No waiver shall be given to a student if a student repeats the Level/ Term due to punishment; he/ she must have to repeat all the courses of the repeating Level/ Term.

Code of Conduct for Examination:

a. An examinee must not write his/ her name or any indication mark anywhere in the answer script. If he/ she do so, the answer script will not be examined.

b. No examine will be allowed to leave the examination hall until an hour has passed from the time when the question paper is given nor will an examinee be allowed to sit for the examination 30 minutes after the starting of an examination. An examinee also will not be allowed to leave the examination hall during the last fifteen minutes of the examination unless he/ she submits the answer script.

c. An examinee must not bring any loose papers, books, notes, instruments etc to the examination hall unless instructed.

d. An examinee shall not create any situation that may cause disturbance to other examinees and/ or breach of discipline.

e. An examinee must not communicate or attempt to communicate with other examinee/examinees nor shall he/ she copy or attempt to copy or take help or attempt to take help from any incriminating document.

f. The university campus including the rooms, toilets and circulation space is in examination premises.

g. In any matter not specifically mentioned in the regulations or on the cover page of the answer script, an examinee shall abide by the decision of the invigilator in the examination hall

Description of Major Unfair means activities:

The following activities are treated as unfair means activities in the examinations:

• Possession of any incriminating document related to the course of examination.
• Copying/ attempt to copy/ taking help from any incriminating document.
• Insertion of any page in the answer script written outside of the examination hall.
• Writing anything on any part of body/ clothes of the student concerned/ chair, table, desk, bench, wall etc.
• Having the answers written on the answer script by other.

• Exchanging of the answer scripts or any part of it or additional answer sheet with other examinee(s).
• Carrying a cell phone/ non-essential electronic device(s).
• Misbehaving with invigilator(s) and/ or other examinees.

Penalty for Committing Offences Related to the Examination: Penalty will be imposed for the offences during examinations are to be classified as the following types in order of severity:

a) Attempt to communicate with other examinee or examinees: Issuing warning and/or changing of seats and or deduction of marks or expulsion from the examination hall.

b) Possession of unauthorized document(s), and/or any unauthorized device(s): cancellation of the answer script of that particular examination and he/she will get 'F' grade in that examination.

c) Possession of unauthorized document(s), and/or any unauthorized device(s), and being caught while attempting to use them: He/she will be expelled from that examination and will get 'F' grade in that examination. He /she will not be allowed to appear in the examination of the remaining courses. Accordingly, he/she will get 'F' grade in the results of the remaining courses. But in case of Referred/ Improvement/ Backlog Examinations, he/she will be expelled from that particular course and will get 'F' in the course.

d) Possession of unauthorized document(s), and/or any unauthorized devices, and being caught with proof that those have been already used: He/ She will be expelled from the entire examination of that term. Accordingly, he/ she will get 'F' grade in the result of all the courses.

e) Attempt to get possession of question paper(s) or answer script(s) before the examination: Expulsion from the University for the semester in which the offence is committed.

f) Use of violent language and holding out threats to the invigilators, question paper setters, examiners and scrutinizers: Cancellation of the enter examination of the student for that semester and expulsion for the university for good.

g) Impersonating or causing to impersonate in the examination hall: Cancellation of the entire examination of the student concerned for that semester and expulsion from the University for Good.

h) Any other activities (which are not mentioned here) deemed to be unfair means in the examination: Chief Invigilator and Chairman CECC will take the decision in consultation with the Vice-Chancellor.

Minimum Earned Credit and CGPA Requirement for Obtaining Degree: Minimum credit hour requirements for the award of bachelor's degree in engineering (B.Sc. Engineering) and other disciplines shall be decided as per the existing rules. The minimum CGPA requirement for obtaining a Bachelor's degree is 2.50. A student is expected to complete the whole course within 4 years (8 terms). For an unavoidable reason if a student fails to complete the course within the stipulated time of 4 years, he/ she must complete all degree requirements within a maximum period of 6 academic years (12 terms). Failure to complete all degree requirements within the given time frame may disqualify a student from continuation of his/her study at the university.

Course Registration Procedure: The time and date for course registration shall be announced in advance by the Registrar's office. Students will register his/ her courses in a Term according to following guidelines:

i) A student must pay all Hall dues before the course registration of a Term.
ii) The student must pay the semester fee of the semester.
iii) The student will complete the registration and Head of the Department will verify it.
Finally, the Office of the Registrar will distribute course-wise list of registered students to the concerned department and Controller of Examinations.

Industrial/ Professional Training Requirements: Depending on the requirement of some Department, a student may have to complete a prescribed number of days of industrial/ professional training to the satisfaction of the concerned Department.

Internship and Organizational Attachment and Comprehensive Viva-Voce for BBA Program

The internship is a part of the BBA degree requirement. The internship constitutes a practical work experience and is a preparatory step towards placement. The primary goal of internship is to provide on the job exposure to the students and an opportunity for translation of theoretical concepts in to real life situation. During internship students will be placed in enterprises, organizations, research institutes as well as development projects. The program covers a period of 8 (eight) weeks of organizational attachment and 4 (four) weeks of report finalization work.

The student is required to prepare and submit an internship report within the time specified. The internship report of a student will be graded as per usual grading practice of the university. The passing grade in the internship program is 'D'. Failure to obtain passing grade will call for a retake of internship program. Such retake will be allowed only once. The grade earned on the internship report will be included in the grade sheet of students.

(a) Submission and Evaluation of Internship Report

The report must be submitted to the concerned supervisor within the stipulated time determined by the department. Final report, submitted by a student, shall be evaluated by the supervisor and the co-supervisor (if any). Total marks given by the evaluators shall be averaged for the final result.

(b) Internship Viva-Voce

The Internship Viva-Voce shall be conducted by a board of teachers. This board shall be formed by the departmental head, consisting at least one expert from other university and all supervisors and co-supervisors or departmental teachers. The marks of viva-voce given by the individual board members shall be averaged to prepare the final result. Final result of internship will be based on the report and viva-voce.

Rounding off the Decimal Marks: If there is any decimal marks in any of the examinations like class test, tutorial, term paper, viva voce, course final examination then instead of rounding off the decimal figure in the result of every subject/sessional, it is to be rounded off only once during tabulation while converting the total marks to percentage mark after summation of all the subject/sessional marks. To round off, 0.5 and above is to be converted to next higher whole number and less than 0.5 is to be converted to previous whole number (For example 58.5% would be 59% and 58.49% would be 58%).

Rounding off the GPA and CGPA: The GPA/CGPA is not to be rounded off like the total marks of each subject/sessional, but it is to be rounded off after two figures of decimal. To round of 3.555 and above after two figures of decimal, it is to be rounded off as 3.56 and 3.554 and below after two figures of decimal, it is to be rounded off as 3.55.

Honors, Dean's List and University Gold Medal:

(a) Honors/ Distinction

In all Engineering programs and in BBA program candidates for Bachelor's degree shall be awarded the degree with Honors if their CGPA is 3.75 or better. For English program they shall be awarded the degree with Distinction if their CGPA is 3.75 or better.

(b) Dean's List

In recognition of excellent performance, the name of the students who maintain an average GPA of 3.75 or above in two regular Terms of an academic year may be published in the Dean's List in each Faculty and he/ she will be given a certificate from the respective Dean as recognition. Students who have obtained an 'F' grade in any course during any of the two consecutive regular Terms will not be considered for Dean's List in that year.

(C) University Gold Medal

University Gold Medal for outstanding graduates shall be presented to the students who will secure the 1st position in each Department and whose CGPA is above or equal to 3.75. The student must have completed his/ her undergraduate course work within four consecutive academic years with no 'F' grades and have a satisfactory attendance to his credit.

Part-C
Description of All the Courses

Course Code: BBA 1101 **Course Title:** Introduction to Business **Credits**: 3.00

Rationale of the Course: This course provides a detailed concept of Business, Industry, Branches of Commerce, Business Location, and various forms of Business, Business Management, Entrepreneurship, Franchising and Small Business, Business Promotion Institution, Trade Practices in Bangladesh, and Business Combination and Integration.

Course Content:

Introduction: Define Business, Why we study business, Industry, Types of Industry and Commerce, Branches of Commerce, Location of Business, Rural vs. Urban Location, Effectiveness of various types of Business Organization in Bangladesh, Institutions for Promotion of Business Support. Trade Practice in Bangladesh,

Business Ownerships: Ownership forms, Sole Proprietorships, Partnerships, Corporations, Trust, Cartel, Co-Operatives, Joint Venture, Multinational Corporations, Holding Companies, State Enterprises, and Factors influencing the forms of ownership.

Financial Market: Money Markets, Capital Markets, Short-Term Financial instruments, Institutions and methods of capital Market operations: Long term Capital Instruments, Intuitions, Stock Market, Securities & Exchange Commission, Capital Market Indices and Agencies.

Competition: Co-Operator and Expansion of Business: Business Liquidation –Merger and combinations, Business House Conglomerates.

International Business: Basic Economy of international Trade, Scope, Concepts & Barriers of International Trade, Multinational Corporations, Terms used in international Trade: Invoice, L/C, Back to back L/C, FOB, COD etc. Clearing & Forwarding, Regional Trade Groups

Institutions for Furtherance of Business, Trade and commerce: Chambers of Commerce & Industry, Federation of Commerce and Industry, Trade Associations, Export Promotion Bureau (EPB), Trading Corporation of Bangladesh (TCB), Board of investment (BOL), Privatization Board (EPB) Secretaries & Exchange Commission (SEC), Dhaka Stock Exchange (DSE), Chittagong Stock Exchange (CSE) and other financial and non-financial institutions.

Organizing the Business: Organizing decisions, Principles of Organizing, Business Action, How to organize a business, IBM'S Restructuring strategy, Ford and Honda Reaching to become "Learning" Organization Structures

Managing Production and Operations: Consumerism and planned obsolescence, Organizing the production process, The forces of globalization, Robotics, Maintaining safety for employees, Products and the Environment, Globalization of environmental pollution.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand business, different forms of businesses, industries, and services.
CLO2	Describe business ownership and the general methods of financing.
CLO3	Analyze the characteristics of business and its environment.
CLO4	Appraise global awareness for appropriate international trade decisions.
CLO5	Formulate government policies regulating business and various institutions for furtherance of trade and commerce.

CLO5	Lecture, Analysis of academic texts, cases, and examples	Test

Course Code: BBA 1102 **Course Title:** Business Mathematics **Credits: 3.00**

Rationale of the Course:

The rationale of this course is to enhance students' knowledge in Theory of Sets, Set Operation and its Application to Business Problem, Function, Equation idea of Function, Co-ordinate Geometry, Matrices, Determinants, Differentiation, Conditions for profit and Output Maximization and cost Minimization, Integration.

Course Content:

Definition, Finite Sets, Null Set, Equal and Equivalent Set, Subset, Power Set, Union and Intersection of Sets, Universal Set, Complement and Difference of Sets, Set Operation and its Application to Business Problems, Definition of Matrix and determinant and their Properties, Addition and Multiplication of Matrices, Inverse of Matrix, Solution of Simultaneous Equations, Rectangular Co-ordinate System, Distance between two points, Gradient, Equations of Straight lines, Slope intercept from, Two points form, Parallel and Perpendicular Lines Equation and Graphical Representation of Circle, Parabola and Hyperbola, Definition of function, Types of function and Exercise based on different functions, Graphical representation of function and Introduction to the equation, Discussion about different types of equations and their solutions, Introduction of differentiation and its basic rules of differentiation, Application of differentiation in business related problems, Introduction of integration and its basic rules of integration, Method of substitution, Integration by parts and idea of definite application.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Demonstrate actual knowledge including the mathematical notation and terminology used in this course.
CLO2	Describe the fundamental principles arising from the mathematical ideas associated to business applications.
CLO3	Recall, Understand and Evaluating the matrix and determinate.
CLO4	Solve problems regarding permutation counting, apply permutations and combinations to business problems.
CLO5	Describe the concept of Arithmetic and Geometric progression.

Course Code: BBA 1103 **Course Title:** Business Communication **Credits**: 3.00

Rationale of the Course:

The rationale of this course is to enhance students' knowledge and skills as a communicator for business purposes and provide students with practice in professional writing and presentation.

Course Content:

Introduction to Communication-Nature, Scope, Principles of communication; Business and Social Communication; Barriers to Communication. Different Methods of Communication: Verbal, Non-Verbal and Electronic Communication. Different Perspective of Communication: Down ward, Upward, Horizontal, Diagonal, External, Internal, Formal, Informal/Grapevine, Intrapersonal, Interpersonal, Personal, Organizational, Group and Public Communication. The Communication Process – Essential elements, One- way versus Two-way Communication, Different Models of the Communication process.

Communication Networks- Types, Selection of Networks. Organizational Communication: Intra and Inter Organizational communication. Tools of Internal Communication- Memorandums, Office Orders, circulars: Inter-Organizational Communication- Business & Job letters. Writing an Application Letter, Preparing a CV/ Resume. Mass Communication –Importance, Media of Mass

Communication, Mass Communication in the Business Enterprise of Bangladesh. Meeting – Types of Meetings, Writing Notice, Agenda and Minutes, Convening and Conducting Meetings, Points of Information, Points of Order, Motions. Report Writing: Informal and analytical Reports – Planning Business reports, Preparatory steps of Writing Reports, Writing the Final Reports, Documenting Reports. Business English: Fundamentals of Grammar, Composition, Translation and Comprehension.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the basic concepts of communication and help them to transform their communication abilities.
CLO2	Acquire necessary skills of business etiquettes for handling day to-day managerial responsibilities and evaluate the facilitators of business communication
CLO3	Choose their body language more correctly and impressively in accordance with an organizational requirement and international standards
CLO4	Analyze the forms of Communication and make the students to understand the verbal and non-verbal Communication and to design impressive documents.
CLO5	Illustrate the correct practices of the strategies of Effective business writing

Course Code: BBA 1104 **Course Title:** Principles of Management **Credits**: 3.00

Rationale of the Course:

Broad awareness and understanding of the principles, concepts, theories and techniques of modern management in the contemporary environment is very important to be an effective business leader and executive. This course will let the students know about the issues of scientific management theory in the field of business and will enable them to lead an organization efficiently.

Course Content:

Introduction: Definition and importance of Management; Functions, Principles, and Levels of Management; Role & skills of Managers; Outcomes of Management; Management as art or science; Scientific Management; Social Responsibility of Management
Planning: Meaning of planning; Nature of planning; Need for planning; Steps in Planning; Planning premises; Types of plan; Elements of planning; Limitations of planning; Principles of Planning.
Goal Setting: Define goal, goal setting process, types of goals, Who set goals
Staffing: Importance and need of proper staffing, Manpower planning, Job analysis, Recruitment, Selection, Placement, Induction (Orientation).
Performance Appraisal: Introduction, Meaning of performance appraisal, purpose and criteria of performance appraisal and its different methods.
Organizing: Its meaning & purposes; Types of organization; Organizational structure; Elements of Organizational structure; Division of work; Departmentalization, Span of control; Delegation of authority, and Committee
Decision Making: Definition of decision making; Types of decisions; Decision making conditions; Decision making process; Decision making styles; and Guidelines for effective Decision making. Leading: Definition and importance; Characteristics of effective leaders; Leader Vs. Manager; Leadership styles; Theory X and Theory Y
Motivating: Definition and importance of motivation in the workplace; Motivation Process; Reasons of motivation; Theories of motivation.
Controlling: Definition and importance of controlling; Types of control; Steps in control process; Control Standard; Budgetary and Feed forward control.
Organizational Conflict: Levels of Organizational conflict, Stages of conflict, Causes of conflict, its prevention and resolution.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Gain insight about various management styles and apply them in real business conditions.
CLO2	Understand the process of staffing, performance appraisal and training
CLO3	Analyze and evaluate the various issues and challenges arises due to organizational conflict
CLO4	Evaluate and execute the best management practices in the organization.
CLO5	Determine and construct various controlling measures to solve various problems.

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**

CLO5	Lecture, cases	Test

Course Code: HUM 1105 **Course Title:** History of the Emergence of Bangladesh **Credits**: 2.00

Rationale of the Course:

This course has been designed for undergraduate students to help them learn the rich history of Bangladesh, to understand present Bangladesh in the light of history and to provide them with basic knowledge of historical events which eventually led to the formation of Bangladesh and constitution of Bangladesh, current trends in economic development and thereby to enhance their understanding of present phenomena in the light of history which will make them responsible citizen. The course aims at making students familiar with the history of emergence of Bangladesh as a sovereign state as well as the emergence of Bangla as the state language.

Course Content:

Discussion on introduction, syllabus and examination, Naming Bangladesh, Characteristics of land nature and settlements of ancient Bengal, Ethnic structure and characteristics of Bengalis, Partition of Bengal (1905), Hindu-Muslim response, partition of Bengal cancelled (1911), Two-Nation Theory (1939), Lahore Resolution (1940).

The proposal for undivided independent Bengal, 1947 and Consequences, Mountbatten plan, The Indian Independence Act, 1947 and country division 1947, The creation of Pakistan (1947), Differences between East Pakistan and West Pakistan, Language Movement (1952): Background and follow of events

The United Front of Haque-Vasani-Suhrawardi, Election of 1954 and Consequences, Military Rule (1958), Cause of the Promulgation of Martial Law in 1958, Ayub Khan's Rise to Power and Characteristics (Political Repression, Basic Democracy, Islamisation), Education Movement of 1962, Election of 1965, Pak-India war (1965), Six Point Movement of 1966, The Agortola Case, 1968, The Mass-Upsurge of 1969 and Eleven Point Movement, Election of 1970

Non-Co-Operation Movement and the 7th March Address of Bangabondhu, Operation Searchlight, Declaration of Independence by Bangabondhu and His Arrest, The Liberation of War (1971), Genocide, Repression of Women, Refuges, Formation of Bangladesh by Mujb Nagar Government and Proclamation of Independence, The Spontaneous Early Resistance and Subsequent Organized Resistance (Mukti Force, Mukti Bahini, Guerillas and the Frontal War force.

Publicity Campaign in the war of Liberation (Shadhin Bangla Betar Kendra, The Campaigns Abroad and Formation of Public Opinion), The Rule of Super Powers in the Liberation War, The Anti-Liberation Activities of the Peace Committee, Al-Badar, Al-Shams, Rajakar Bahini and Killing of the Intellectuals, Formation of Joint Command and Victory December 16 on 1971, The Surrender of Pakistani Forces and the Rise of Independent Sovereign Bangladesh, Bangabondhu's Return home.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	To identify and explain the main events of the History of Emergence of Independent Bangladesh.
CLO2	Understand the inevitability of the emergence of Bangladesh as a sovereign state and analyse about how Bangladesh come to be, about how we gained independence
CLO3	Evaluate the most fundamental aspects of our education that entails learning about the history of Bangladesh

Course Code: HUM 1111 **Course Title:** বাংলা ভাষা ও সাহিত্য **Credits**: 2.00

Rationale of the Course:

বাংলা ভাষা ও সাহিত্য সম্পর্কে মৌলিক ধারণা প্রদান করার উদ্দেশ্যে কোর্সটি সিলেবাসের অন্তর্ভুক্ত হয়। প্রাচীনকাল থেকে আধুনিককাল পর্যন্ত নানা বিবর্তন ও পরিবর্তনের মাধ্যমে বাংলা ভাষা আজকের সমৃদ্ধি লাভ করেছে। তথ্য -প্রযুক্তির বিকাশের সাথে সাথে যোগাযোগের মাধ্যম হিসেবে ভাষার ব্যবহার এবং বোধ জাগ্রত করার মূল হাতিয়ার হিসেবে মাতৃভাষার গুরুত্ব সম্পর্কে তুলে ধরার একটি ক্ষেত্র হিসেবে বাংলা ভাষা ও সাহিত্য নামক কোর্সটি অত্যন্ত গুরুত্বপূর্ণ ভূমিকা পালন করবে; সেইসাথে আন্তর্জাতিক অঙ্গনে বাংলা ভাষা ও সাহিত্যকে প্রতিষ্ঠাকরণ এবং আধুনিক যোগাযোগের মাধ্যম হিসেবে বাংলা ভাষার মাধুর্যকে তুলে ধরবে। আদর্শ ও দেশপ্রেমিক জাতি গঠনে সহায়ক ভূমিকা পালন করবে।

Course Content:

ক. প্রধান বিষয় (Main Content)

১. বাংলা ব্যাকরণ

২. নির্মিতি

৩. বাংলা সাহিত্য

খ. বিস্তারিত বিষয় (Detailed Content)

১. বাংলা ব্যাকরণ: বাংলা ভাষার উৎপত্তি ও ক্রমবিকাশ, ধ্বনি ও বর্ণ, স্বরধ্বনি ও ব্যঞ্জনধ্বনি, স্বরবর্ণ ও ব্যঞ্জনবর্ণ, বাংলা বানানের নিয়ম, ণ-ত্ব বিধান ও ষ-ত্ব বিধান, যতিচিহ্ন, বঙ্গানুবাদ ইত্যাদি।

২. নির্মিতি:

- প্রতিবেদন বা রিপোর্ট লিখন, পত্র লিখন (ছুটি, নিমন্ত্রণ পত্র, ব্যবসা-বাণিজ্য, চাকরির আবেদন)
- দিনলিপি, অভিজ্ঞতা বর্ণনা, বক্তব্য লিখন, ই-মেইল, এসএমএস, ফেসবুক, সংলাপ রচনা, ক্ষুদেগল্প লেখা ইত্যাদি।
- ব্যবহারিক বাংলা (সংক্ষিপ্ত আলোচনা):
  একুশে ফেব্রুয়ারি, মুক্তিযুদ্ধ, বাংলা নববর্ষ, বাংলা উৎসব, ষড়ঋতু, বাংলা ভাষা, লোকসংস্কৃতি, মানবতা ও নৈতিকতা, বিশ্বায়ন, তথ্য-প্রযুক্তি ইত্যাদি।

৩. বাংলা সাহিত্য:

কবিতা: বঙ্গবাণী, বঙ্গভাষা, খাঁচার ভিতর অচিন পাখি, নির্ঝরের স্বপ্নভঙ্গ, আজ সৃষ্টি সুখের উল্লাসে, বাংলার মুখ আমি, অমর একুশে, স্মৃতিস্তম্ভ, তোমাকে পাওয়ার জন্য হে স্বাধীনতা, আমার পরিচয় ইত্যাদি।

ছোটগল্প:

পোস্টমাস্টার, বায়ুযানে পঞ্চাশ মাইল, পুঁইমাচা, মৌন নয়, নয়নচারা, একাত্তরের দিনগুলি, খাঁচা, অপঘাত ইত্যাদি।

প্রবন্ধ:

বাঙ্গালা ভাষা, সভ্যতার সংকট, তৈল , যৌবনে দাও রাজটিকা, বর্তমান বিশ্বসাহিত্য, আমাদের বাংলা উচ্চারণ, আমাদের আত্মপরিচয়।

নাটক: কবর

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	শুদ্ধভাবে ভাষা বিষয়ক জ্ঞান অর্জন করা , নিজের অস্তিত্ব ও শেকড়ের অনুসন্ধানে চেতনাকে প্রবাহিত করা।
CLO 2	ভাষা বিষয়ক জ্ঞান অর্জন, বোধের বিকাশ এবং তা বাস্তব জীবনে প্রয়েগে উৎসাহিত করা।
CLO 3	সাহিত্য সংস্কৃতির মাধ্যমে নিজ দেশ ও জাতিকে জানা। জাতির ইতিহাস ও ঐতিহ্য অনুসন্ধানের পাশাপাশি ধারাবাহিক চর্চায় অনুপ্রাণিত করা এবং বাস্তব জীবনে তা প্রয়োগ করা।

CLO2	Lecture, Group work	Test/Class Participation
CLO3	Lecture, Viva-Voce	Test/Assignment

Course Code: BBA 1201 **Course Title:** Principles of Marketing **Credits**: 3.00

Rationale of the Course:

Principles of Marketing is a course that examines the role and importance of marketing in the firm and other organizations. We will cover topics such as marketing plans/strategies, marketing research, market segmentation, retailing, advertising, pricing, Internet marketing, etc. You will find the course interesting and informative. Keep on top of the work.

Course Content:

Introduction to Marketing: Definition of marketing, the marketing process, Understanding the marketplace and customer needs, designing a customer driven marketing strategy, preparing an integrated marketing plan and program, Building customer relationships, Capturing value from customers. Company and Marketing Strategy: Companywide strategic planning (Defining a market-oriented mission, setting objectives and goals, designing the business portfolio), Marketing strategic and marketing mix. Introduction to Marketing: Definition of marketing, the marketing process, Understanding the marketplace and customer needs, designing a customer driven marketing strategy, preparing an integrated marketing plan and program, Building customer relationships, Capturing value from customers. Company and Marketing Strategy: Companywide strategic planning (Defining a market-oriented mission, setting objectives and goals, designing the business portfolio), Marketing strategic and marketing mix. Customer-Driven Marketing Strategy: Creating Value for Target Customers: Market segmentation, segmenting Consumer and business market, Requirements for effective segmentation, Market targeting, evaluating marketing segments, selecting target market segments, Positioning, choosing a positioning strategy, Communicating and delivering the chosen position. Products, Services, and Brands: Building Customer Value, What Is a Product? Product and Service Decisions, Services Marketing, Branding Strategy: Building Strong Brands. New Product Development and Product Life-Cycle Strategies: New-Product Development Strategy, The New-Product Development Process, Managing New-Product Development, Product Life-Cycle Strategies,

Additional Product and Service Considerations. Pricing Strategies: New-Product Pricing Strategies, Product Mix Pricing Strategies, Price Adjustment Strategies, Price Changes, Public Policy and Marketing. Marketing Channels: Delivering Customer Value: Supply Chains and the Value Delivery Network, The Nature and Importance of Marketing Channels, Channel Behavior and Organization, Channel Design Decisions, Channel Management Decisions, Public Policy and Distribution Decisions, Marketing Logistics and Supply Chain Management. Communicating Customer Value: Integrated Marketing Communications Strategy: The Promotion Mix, Integrated Marketing Communications, A View of the Communication Process, Steps in Developing Effective Marketing Communication, Setting the Total Promotion Budget and Mix, Socially Responsible Marketing Communication.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Define marketing and the marketing process.
CLO2	Understand the marketing environment and consumers to provide better solutions to their problems.
CLO3	Apply a customer-driven marketing strategy.
CLO4	Analyze how to create value with product and pricing decisions.
CLO5	Formulate a plan to communicate and deliver value to the customers.

Course Code: BBA 1202 **Course Title:** Microeconomics **Credits**: 3.00

Rationale of the Course:

This course provides a prologue to the concept of microeconomics, like – Understand the fundamentals of microeconomics, learn about different economic systems and the basic problems of economics in order to solve them. Apply the concept of demand and supply in managerial decision making, Analyze the consumer behavior to make large sales revenue, Decide about the cost items in the firm for minimizing production cost. After pursuing this course student will be able to understand

the basic microeconomics principles and their applications. It informs how economy performs and expands its scope in different level according to the demand of society.

Course Content:

Introduction: Meaning of Economics, Positive vs. Normative Economics, Tools of Economic Analysis, Nature of Economic Theories, Scope and Subject Matter of Economics, Economic Analysis and Economic Policy. The central Problems of Economic Society: How the Economic problems are solved under Alternative Economic systems, Market Economics, Socialist Economics- Mixed Economic- Islamic Economic System- The price System- Value and price. Theory of Demand and Supply: The demand function, Determinants of Demand for a commodity Market, Demand curve- Shift vs Movement in the Demand Curve, Supply function, Determinants of supply, Shift vs Movement in the supply curve, Competitive Market Equilibrium, Demand and supply and its Implication. Elasticity of Demand and Supply : Price Elasticity of Demand- Point Elasticity of Demand- Income Elasticity of Demand- Cross Elasticity of Demand, Total Revenue, Marginal Revenue, Relationship between Marginal Revenue. Price & Elasticity of Demand, Elasticity of Supply, Concepts, Application in Business. The Theory of Consumer Behavior: Utility Analysis- Cardinal vs Ordinal utility- Cardinality A approach- Marginal utility and Law of Diminishing Marginal Utility, Equilibrium, Ordinalist Approach- Indifference Curve & its properties - Budget line- consumer Equilibrium- Effects of Price and Income Change on consumer Equilibrium, classifying Normal goods, Inferior Goods and Superior Goods- Income Effect and Substitution Effect. Theory of cost: Short run cost: Fixed cost- Variable cost, total cost- Marginal cost- Law of variable proportions- Long Run cost- Derivation of long run cost- Cost from short run cost. Concept of a Market and Different Types of Market: Market Structure, Competitive and Non, Competitive Market, Perfect Competition vs Imperfect Competition, Pricing under Perfect Competition, Pricing under Monopoly.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the fundamentals of microeconomics
CLO2	Learn about different economic systems and the basic problems of economics in order to solve them.
CLO3	Apply the concept of demand and supply in managerial decision making
CLO4	Analyze the consumer behavior to make large sales revenue.
CLO5	Decide about the cost items in the firm for minimizing production cost.

Course Code: BBA 1203 **Course Title:** Principles of Finance **Credits**: 3.00

Rationale of the Course:
This course provides basic principles involved in the process of making financial decisions. Topics include the time value of money, ratio analysis of financial statements, leverage, cash flow and working capital and the relationship of risk to return.

Course Content:
Investment Decisions- Nature of Investment Decisions, Investment Evaluation Criteria- Traditional Approach – Payback Period, Accounting Rate of Return (ROR), Modern Approach – Net Present Value (NPV), Internal Rate of Return (IRR), Profitability Index (PI) and Capital Rationing

Cost of Capital: Significance of Cost of Capital, Calculation of Cost of Equity, Preference Shares, Debentures and Retained Earnings and Weighted Average Cost of Capital (WACC)

Short-Term Financing: Sources of Short-term Financing, Accruals, Trade Credit (Accounts Payable) Short-term Bank Loans, Marketable Securities, Accounts Receivable Financing, Factoring, Inventory Financing.

Long-term Financing (Equity): Common Shares, Balance Sheet Accounts and Definitions, Legal Rights and Privileges of Common Shareholders, Evaluation as a Source of Funds, Common Stock, Retained Earnings, The Market for Common Shares, Types of Preference Shares, Evaluation of Preferred Shares as a Source of Fund, IPO and the Investments Banking Process in Bangladesh.

Long-term Financing (Debt): Traditional Debt Instruments, Evaluation of Long-term Debt as a Source of Fund, the Equity vs. Debt Finance, Corporate Financing in Bangladesh.

Leasing: Its nature, Types of Leasing, Purchase vs. Leasing, Lease Financing in Bangladesh, NBFIs.

Dividend Decision: Concept of Retained Earnings and Plough Back of Profits, Relevance and Irrelevance Theories of Dividend Decision: Walter's Model, Gordon's Model and Modigliani Miller Model; Factors Affecting Dividend Decision.

Working Capital Management: Concept of working capital, components of working capital, working capital cycle, factors affecting working capital requirement, management of working capital, financing of working capital, approaches in working capital financing.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the concept of maximization of shareholders wealth by applying financial techniques
CLO2	Application of evaluation criteria like Payback period, NPV, IRR, PI etc. in decision-making.
CLO3	Analyze risk return characteristics of different alternative capital structures through leverage and EBIT-EPS Analysis.
CLO4	Evaluation and selection of dividend decisions that maximizes shareholders wealth.
CLO5	Examine and formulate tradeoffs between Liquidity and profitability for optimum utilization of fixed assets.

Course Code: CSE 1204 **Course Title:** Computer Application in Business Sessional **Credits**: 3.00

Rationale of the Course:
This sessional course begins with practicing introductory concepts of computers and then covers other important topics such as Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Paint, and Basic web technologies.

Course Content:
Introducing major components of a computer; Hardware: processor, memory, I/O devices; Operating system, application software: Word processor, Spreadsheet, Slideshow maker.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the basic working principle of computer components and their organization inside a working computer.
CLO2	Using knowledge of computer components to identify and solve computer issues.
CLO3	Prepare article, presentation, and present on the topics of the computer.

	PLO1	PLO2	PLO3	PLO4	PLO5	PLO6	PLO7

CLO3	Lecture, Tutorials, Group Work	Presentation/Mid Term/Final

Course Code: CSE 1205 **Course Title:** Computer Application in Business **Credits**: 3.00

Rationale of the Course:

The Computer Fundamental course is designed to introduce the fundamental concepts and mechanisms of computer hardware and software. It helps to identify which hardware is used and which software is commonly used. This sessional course begins with practicing introductory concepts of computers and then covers other important topics such as Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Paint, and Basic web technologies.

Course Content:

Introduction to Studying Computers, History, and development of Computers, Generation of Computers, Types of Computers, Impact of Computers on Society. Number Systems: Radix, Bases of number systems, converting different type of number systems. Computer Hardware and Peripherals: Basic Units of Computer Hardware, Keyboard, Mouse and Different types of Monitors, Different parts of the system unit, a Block diagram of computer organization. Memory: Primary and secondary memory/volatile vs. non-volatile memory, Functions of RAM, ROM, and Cache memory.

Software: Classifications, Application software, System software, Operating system concepts and importance, components and basic functions of DOS, Windows.

Lab: Application software, MS-OFFICE: MS-Word, MS Excel, MS PowerPoint, etc., and Utility programs, Computer Virus. Applications: Computer networks and their goals, Basic concept on LAN, MAN, WAN and Internet systems, Internet services, E-mail, www, E-Commerce, IT concepts, its applications and Information processing cycle.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the basic working principle of computer components and their organization inside a working computer.
CLO2	Using knowledge of computer components to identify and solve computer issues.
CLO3	Prepare article, presentation, and present on the topics of the computer.

Course Code: HUM 1205 **Course Title:** Bangladesh Studies **Credits**: 3.00

Rationale of the Course:

The course intends to equip students with factual knowledge and analytical skills that will enable them to learn and critically appreciate history, politics, and economy of Bangladesh. It will trace the historical root of Bangladesh as an independent state focusing on the social, economic and political developments that have taken place since its independence. It will also identify the major socio-economic, political and developmental issues that have arisen during this period, before assessing the progress over time.

Course Content:

Culture and Heritage of Bangladesh: Culture, National Culture, Characteristics of culture, Model of Culture, Level of culture, Elements of culture, Heritage, Importance of studying National culture & Heritage for business students, Language, Religion, Festival, Dress, Profession. From Pakistan to Bangladesh (1947-1971): Problems facing the new nation of Pakistan, Problems of national integration between East and West Pakistan, Political mobilization and events leading to independence, Prescriptive. Government of Bangladesh: Constitution, The Constitution of Bangladesh, Features of Constitution of Bangladesh-1972, Present Amended Constitution of Bangladesh, Fundamental principles of state administration, The President, The Prime Minister, The Legislature of Bangladesh, The Judiciary System of Bangladesh. Introduction to Bangladesh Economy: Economic activities, The economic activities of the people of Bangladesh, Different economic system, Basic economic problems of Bangladesh, Solution of economic problems of Bangladesh. Industry of Bangladesh: The need for industrialization in Bangladesh, Inter-dependence of agriculture and industry, the dependence of industry upon agriculture, the dependence of agriculture upon industry, Characteristics of industry in Bangladesh, Causes of industrial backwardness in Bangladesh. Economic Planning in Bangladesh: Economic planning, Necessities of economic planning in Bangladesh economy, Types of economic plan, Economic planning in Bangladesh: First Five Years Plan, Two Years Plan, Second Five Years Plan, Third Five Years Plan, Three Years Rolling Investment Programme, Fifth Five Years Plan, Different Plans at a Glance, Vision-2021. Population policy, Population of Bangladesh, causes of high rate of population increase in Bangladesh, Density of population.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the culture, manners, customs and likings of the Bangladeshi consumers.
CLO2	Appraise the evolution of Bangladesh in this part of the world since 1971.
CLO3	Acquire knowledge regarding constitution, business laws and policies identified by the Government of Bangladesh.
CLO4	Analyze the industry, economic trend of Bangladesh
CLO5	Apply the knowledge of economic planning, population policy in the field of business.

Course Code: BBA 2101 **Course Title:** Macroeconomics **Credits**: 3.00

Rationale of the Course:
This course provides a prologue to the concept of Macroeconomics, like – Growth, Unemployment, Inflation, National Income Accounting, Aggregate Demand (AD) and Aggregate Supply (AS): Consumption and Saving Function. It also discussed fiscal and monetary policy, how money function in the economy and globalization. After pursuing this course student will be able to understand the basic Macroeconomics principles and their applications. It informs how economy performs and expands its scope in different level according to the demand of society.

Course Content:
Macro-Economic aggregates and concepts: Circular flow of income, National income and related concepts, calculation of National income, National income and social welfare, concept of Human Development Index. Supply of money, demand for money, price level, Inflation and Stagflation. Inflation and its Control: Definition, Characteristics and Types of Inflation, Monetary Policy, Fiscal policy, Problems and Limitations of Monetary Policy in underdeveloped Country. Money: Meaning, The Role and Functions of Money, Kinds of Money, Features of Good Money, Monetary Standard, Value of Money, Determinants of value of Money, Quantity Theory of money, Keynesian VS Classical Approach, Money Market and Capital Market National Income Determination and Employment: Overview of classical and Keynesian analysis, Business cycles, features, causes and remedial Measures, Equilibrium in the Goods and Money markets Policy Environment: Role of state in different economic systems, Theory of economic policy, Monetary policy, objectives and instruments, Fiscal policy, objectives and instruments, , impact on business, concept of inclusive growth, Economic stabilization, Fiscal v/s Monetary policy and Structural policy, Trade policy, Protection v/s Free trade Globalization: Globalization, meaning and effects (gains and problems), role of IMF and World Bank, concept of global recession with contagion effects. World Trade Organization – agreements and implications for Bangladesh, contentious issues, disputes settlement mechanism. Foreign Capital – Need for Foreign capital, role of MNCs, FDI v/s Portfolio investment, causes of rising FDI in Bangladesh.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the functioning of economy at the macro level and apply these concepts
CLO2	Identify the characteristics and types of inflation
CLO3	Describe the role and functions of money
CLO4	Analyze the role of state in different economic systems & distinguish between structural policy and trade policy,
CLO5	Interpret the concept of global recession with contagion effects

Course Code: BBA 2102 **Course Title:** Legal Environment of Business **Credits**: 3.00

Rationale of the Course:

This course provides basics of business law, contract, termination of contract, agencies, sale of good acts. a prologue to the concept of Law of partnership, Dissolution of Firm, Negotiable instruments, Basics of Industrial Law, Carrying Through Road, Carrying Through Sea, Insolvency, Bangladesh Labor Law

Course Content:

Legal Environment of Business: Definition of Law- Functions of Law- Litigation process and alternative dispute resolution.

Law of contract: The Essential Element of Contract – Offer and acceptance – Free consent – Consideration – Void and void able agreements – Capacities of the parties –Remedies for breach of contract.

Laws relating Sale of goods: Essential elements of sale of goods act – Conditions and warranties and implied conditions – Transfer of ownership.

Law of partnership Definition of partnership, nature of Partnership,

The Essential Elements of a Partnership, definition of Partner, Who can be a partner, Who can't be a partner, Co-owner, Partnership and co-ownership, Firm, Firm-name, Partner, Classes of partner, Classes of Partnership

Registration, conduction and dissolution of Firm Registration of partnership firm, the formalities of registration, the time of registration, consequence of non-registration, Rules regarding the conduct of business, dissolution of firms, the grounds of dissolution, the consequences of dissolution,

Negotiable instruments Negotiable instruments, essential features of negotiable instruments promissory note -Essential elements bill of exchange, essential elements of promissory note differences between a promissory note and a bill of exchange.

Carrying Through Road Definition, Classification, Common Carriers, Is the Post-Office a Common Carrier, Characteristics of Common Carriers, Private Carrier, Gracious carrier, Differences between Common Carriers and Private Carriers, Duties of a Common Carrier

Carrying Through Sea The contract of afreightment, definition of Charter-Party, classification of charter party, definition of bill of lading, function of bill of lading, difference between charter party and bill of lading, duties of carrier by sea, documents related to carry on sea: Mate's Receipt, clean bill of lading, thorough bill of lading, deviation, perils of sea, barratry, jettison, salvage, demurrage.

Insolvency: Insolvency, insolvency legislation and its objectives, when one can declared as insolvent, insolvent in accounting and law

Basics of Industrial Law and Bangladesh Labor Law: Industrial law, Objective, The need for an industrial legislation, Classification of Bangladeshi industrial law, various terms in Bangladesh labor law, service rules, safety measures for machine and human,

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand and apply the concepts of Contract Act in business dealings.
CLO2	Comprehend the rule of partnership as per the Partnership Act, analyze the problems of partnership firm and evaluate the method for registration of a partnership firm.
CLO3	Analyze the need of sale of goods act, apply its laws for conduction of smooth business and analyze the legal issues to solve disputes.
CLO4	Asses the correctness of applying specific laws to a specific cases and choosing the most appropriate one

Course Code: BBA 2103 **Course Title:** Principles of Accounting **Credits**: 3.00

Rationale of the Course:

The course is designed to enable the students to prepare and understand financial statements of service, merchandising and other organizations. Financial statements are tools to understand the financial position and performance of an organization and to make decisions about the organization.

This course includes introduction to basic accounting principles, accounting equation, fundamentals of double entry systems, journal, ledger, trial balance, adjustment and closing entries. Preparation of financial statements of service and merchandising enterprise is covered. Techniques of understanding and analyzing financial statements are introduced.

Course Content:

Introduction to Financial Accounting: Background of Accounting Development, Definition, Purpose and Nature of Accounting Information, The Work of Accountants, Branches of Accounting, The Need for Accounting Concepts and Principles, Professional Associations and Accounting Principles, Generally Accepted Accounting Principles (GAAP), Capital and Revenue Receipts & Expenditures, Introduction to International Accounting Standards (IASs) and International Financial Reporting Standards (IFRS) issued by International Accounting Standards Boards (IASB).

Accounting Mechanism: Depreciation-Meaning, Causes and Needs Methods of Depreciation – Fixed Installment Method and Diminishing Balance Method Provisions and Reserves Trial Balance, Rectification of Errors Meaning, Definition and Uses of Stock in a Business Valuation of Stock: LIFO, FIFO and Weighted Average Method.

Recording Process in Financial Position: Role of Accounting Records, Debit and Credit, the Principles of Double Entry, Journal, Ledger, Coding and Chart of Accounts, Posting in the Ledger Accounts, Trial Balance, Proof Offered by Trial Balance, Limitations of Trial Balance, Locating Errors, Adjusting Entries, Closing Entries for Revenue and Expense Accounts, Opening Entries, Rectification of the Errors before and after preparation of Trial Balance.

Work Sheet and the Preparation of Financial Statements: Use of Work Sheet, Preparation of Work Sheet, Preparation of Financial Statements, Multiple-step Statement, Single-step Statement, Horizontal and Vertical Arrangement, The Accounting Cycle, Reversing Entries with special referee to Presentations of Financial Statements.

Bank Reconciliation Statement: Meaning, Need, Specific Steps in Preparing a Bank Reconciliation Statement: Different methods, Reconciliation of the Bank Balance to the Book Balance; Reconciliation of Bank and Book Balances to a Corrected Balance and Four Column Reconciliation.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Define and Understand the accounting principles and recording of business transactions in Journal.
CLO2	Apply the various methods of charging depreciation and valuation of stock
CLO3	Prepare trial balance and evaluate the different errors in trial balance.
CLO4	Prepare and analyze the financial statements of a business with adjustment entries.
CLO5	Prepare and analyze the bank reconciliation statement, bills of exchange, and consignment accounts

Course Code: BBA 2104 **Course Title:** Business Statistics I **Credits**: 3.00

Rationale of the Course:
This course provides a prologue to the concept of Business Statistics, like –Data Collection and Presentation, Measures of Central Tendency, Measures of Dispersion/Variation, Skewness, Moments and Kurtosis, correlation, regression, sampling and various statistical tests. After pursuing this course student will be able to understand the basic Business Statistics and their applications.

Course Content:
Introduction: Definition- Concepts- Nature- Scope- Nature of statistical Data- Collection- Classification- Tabulation- Frequency Distribution- Graphical Presentation of Data. Measures of Central Tendency: Introduction- Arithmetic Mean- Geometric Mean- Harmonic Mean- Weighted Arithmetic Mean- Mode- Median- Quartiles- Deciles- Percentiles- Properties of a Good Average- Empirical Relation among the Averages. Measures of Dispersion: Significance of Measuring Dispersion- Properties of a Good Measures of Dispersion- Range- Inter- Quartile Range and quartile Deviation- Mean Deviation- standard Deviation- Co-efficient of variations and their uses. Moments, Skewness and Kurtosis: Moments from Arbitrary Value- Moments from mean- Relation between Moments- Measures of Skewness and its uses- Measures of Kurtosis and its Uses. Correlation Analysis: Significance of the study of correlation and Causation- Types of Correlation- Scatter Diagram Method- Karl Pearson's coefficient of Correlation- Rank Correlation Co-Efficient Multiple correlation- Partial correlation. Regression Analysis: Difference between Correlation and Regression Analysis- Simple regression lines- Regression Equation- Regression Co-efficient.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Illustrate classification, tabulation, frequency distribution and graphical presentation of the data.
CLO2	Classify different types of measures of central tendency and demonstrate the uses of different kinds of measures of central tendency in business
CLO3	Demonstrate measure of skewness and kurtosis and their uses in business
CLO4	Explain correlation measures- Scatter Diagram Method- Karl Pearson's coefficient of Correlation- Rank Correlation Co-efficient Multiple correlation- Partial correlation.
CLO5	Analyze Simple regression lines- Regression Equation- Regression Co-efficient, and their uses in business.

Course Code: BBA 2105 **Course Title:** Marketing Management **Credits**: 3.00

Rationale of the Course:

Marketing management provides overall direction by developing plans and policies designed to achieve objectives and then allocating resources to implement the plans. Ultimately, marketing management is for organizations to gain a competitive edge over their competitors.

Course Content:

Defining Marketing for the 21st Century: The Importance of Marketing– The Scope of Marketing– Company Orientations Toward the Market place– Fundamental Marketing Concepts, Trends, and Tasks. Developing Marketing Strategies and Plans: Marketing and Customer Value– Corporate and Division Strategic Planning– Business Unit Strategic Planning– Product Planning: The Nature and Contents of a Marketing Plan. Identifying Markets Segments and Targets: Level of Markets Segmentation– Segmenting Consumer Markets– Bases for Segmenting Business Markets– Market Targeting. Dealing with Competition: Competitive Forces– Analyzing Competitors– Commutative Strategies for Market Leaders– Other Competitive Strategies– Balancing Customer and Competitor Orientations. Crafting the Brand Positioning: Developing and Communicating a Positioning Strategy– Differentiation Strategies– Product Life-cycle Marketing Strategies– Market Evolution. Creating Brand Equity: What is Brand Equity? Building Brand Equity– Managing Brand Equity– Devising a Branding Strategy. Managing marketing channels and Sales force: Channel design decisions- Management decisions- integrated marketing communication. Designing sales force- Recruiting, Training, Motivating and evaluating sales representatives. Marketing Communication: Designing integrated marketing communication, mass marketing communication, marketing digital communication, direct marketing. Service Marketing: Nature and characteristics of a service, Marketing Strategy for services firms. Conducting marketing responsibility for long term success: Managing a holistic marketing organization for the long run, Trends in marketing practice, socially responsible marketing. Organizing, Implementing and Controlling Marketing programs: Analyzing Marketing performance: Marketing control-Annual plan control-profitability control –Efficiency control- Marketing audit.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the strategic planning and marketing management process
CLO2	Analyzing marketing opportunities
CLO3	Know marketing decision support systems and marketing research.
CLO4	Developing marketing Strategy and planning, implementing and controlling marketing tactics

Course Code: BBA 2106 **Course Title:** Corporate Governance, Ethics and Society **Credits**: 3.00

Rationale of the Course:

In today's global world, global capital flows in markets which are well regulated and have high standards of efficiency and transparency. Good corporate governance learning will make the students gains credibility and trust of the global market, develop better and more efficient management and understanding of organization. They will be able to develop more applicable criteria towards performing the task. Hold the balance between social and economic goals.

Course Content:

An introduction to Business, Government, and Society, Business structures: Meaning and nature of business structures, types, nature, advantages, limitations and applicability .Corporate governance: OECD (Organization for economic co-operation and development) on corporate governance. Business Ethics and Corporate Social Responsibility. Business Laws: A .Law of Contract, 1872, The companies Act, 2013, provisions related to governance, management, compliance and enforcement, disclosure norms, auditors and mergers & acquisitions. Environment Protection Act, Laws relating to Intellectual property: The Patents Act, 1970,The Copyright Act, 1957, 3.The Trade mark Act.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand to connect between the corporate, ethics and society.
CLO2	Decide about the appropriateness of various business structures and laws.
CLO3	Understand the need and importance of corporate governance with reference to Environment protection
CLO4	Analyze the essence of business and how business could be mutually beneficial to the businessman and the society.
CLO5	Make the students understand the fact that a "Business can survive only with the support of the society".

CLO3	Lecture, Viva-Voce	Test/Assignment
CLO4	Lecture, Consultations	Test
CLO5	Lecture, Analysis of academic texts, cases, and examples	Test

Course Code: BBA 2201 **Course Title:** Business Statistics II **Credits**: 3.00

Rationale of the Course:
This course is designed to give students exposure on the basic concepts of statistics that are being used in business and management. Students will be introduced to descriptive statistics, basic probability, probability distributions, estimation and confidence intervals, hypothesis testing and regression analysis. This course will enhance student's capability to make analytical decisions and use them in solving business and management problems. Statistics is also used to show the importance of business and management sustainability; and to measure the development of a sustainable or green economy.

Course Content:
Business Forecasting and Time series Analysis : Steps in Forecasting- Methods of Forecasting- Time series Analysis- Components of Time series- Measures of Trend- Graphic Method- Method of Semi Averages least squares and moving average Measurement of seasonal variations- Method of Simple Averages Ratio to Trend Method- Ratio to Moving Average Method- Link Relative Method- Seasonal Index- Measurement of Cyclical variations- Interpolation and Extrapolation: Newton's Forward and Backward Formula for Interpolation and Extrapolation Method- Its limitations and Uses. Probability: Meaning of Probability, Elements of set theory- Sample Space- Events- Theorems of Total and compound probability- Conditional Probability and statistical Independence- Bayer's law. Probability Distribution: Probability Function- Binomial Distribution Poisson Distribution Normal Distribution Area under the normal curve. Test of Hypothesis: Procedure of Testing Hypothesis- Null Hypothesis- Alternative Hypothesis- Type I and Type II Errors- Level of significance- Degree of Freedom- One Tailed and Two Tailed Tests- Power of Test- Tests About Mean- Test about the Difference between Two means- Tests about the Difference between Two means with dependent samples- Tests about the correlation co-efficient-tests of Equality of Two Variances- Tests for proportion- Test of Independence- Test of Goodness of Fit Chi- Square Test: Test of independence Test of goodness of fit- Test of homogeneity and Test of specific value of variance. Analysis of Variance: Assumption in Analysis of variance- Computation of Analysis of variance- One way and two-way classification. Simple and Multiple Regression: Dependent and Independent variable, Correlation, Coefficient of determination, standard error, confidence intervals, regression coefficients.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand time series analysis, components of time series, methods of forecasting, and others
CLO2	Apply discrete and continuous probability distributions to various business problems
CLO3	Evaluate Procedure of Testing Hypothesis- Null Hypothesis- Alternative Hypothesis
CLO4	Learn nonparametric test such as the Chi-Square test for Independence as well as goodness of fit.
CLO5	Compute and interpret the results of Bivariate Regression and Multiple regression

Course Code: BBA 2202 **Course Title:** Intermediate Accounting **Credits**: 3.00

Rationale of the Course:

This Intermediate Accounting course is designed to cover a relatively higher conceptual and related practical aspect of accounting. It covers important areas and functions of accounting such as conceptual framework of accounting and financial reporting, accounting for receivables, revenue recognition principle, accounting for current liabilities, contingencies, intangible assets, consignment, joint venture, non-trading concerns and partnership firms. One might think the phrase "intermediate accounting" could apply to beyond-basic techniques in management accounting or any other area of accounting too.

Course Content:

Conceptual framework of accounting and financial reporting; objectives of General-Purpose Financial Statements; Users and their Information Needs. Underlying Assumptions; Qualitative Characteristics of Accounting Information; Elements of Financial Statements; Recognition and Measurement of Elements. Definition of Receivables; types of receivables; how companies recognize accounts receivable; methods used to value accounts receivable.

Measurement of bad debt expense and entries to record the disposition of accounts receivable; computing the maturity date of and interest on notes receivable. Revenue (IAS-18): recognition principle, the sale of goods, the reddening services-revenue generated on entity assets, measurement and disclosure. Current Liabilities and Contingencies: Nature of current liabilities, accounts payable, notes payable, short-term obligations, liabilities from advance collections; valuation of current liabilities; disclosure of current liabilities in the financial statements; provisions, contingent liabilities and contingent assets, (IAS-37).

Intangible Assets: Identifiable and unidentifiable intangibles, acquired externally or developed internally, initial recognition and measurement, measurement after initial recognition, research and development cost (IAS-38), impairment of intangible assets. Accounting for Joint Venture: Jointly Controlled Operations, Jointly Controlled Assets, Jointly Controlled Entities, (IAS-31).

Accounting for Non-Trading Concerns: Definition, objectives, capital fund, sources of revenues, receipts and payments account, preparation of the financial statements. Accounting for Partnership Firms: Characteristics and formation of a partnership firm; admission of a partner, bonus to old partners, bonus to new partners, withdrawal/ retirement of a partner, bonus to retiring partner, bonus to remaining partners, death of a partner, liquidation of a partnership: no capital deficiency- capital deficiency.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Describe the meaning and usefulness of a conceptual framework of accounting and financial reporting indicating the qualitative characteristics of accounting information and the basic elements of financial statements.
CLO2	Define receivables and explain the issues related to its recognition and recording in the books of accounts.
CLO3	Describe and apply the revenue recognition principle in recording business transactions.
CLO4	Describe the nature, type, and valuation method of current liabilities and their presentation and analysis.
CLO5	Recognize intangible assets including their origination and be able to measure their values.
CLO6	Identify the nature of consignment, joint venture, non-trading concerns and partnership firms and prepare financial statements for those organizations.

Course Code: BBA 2203 **Course Title:** Organizational Behavior **Credits**: 3.00

Rationale of the Course:
This course provides a comprehensive analysis of individual and group behavior in organizations. Its purpose is to provide an understanding of how organizations can be managed more effectively and at the same time enhance the quality of employees work life. Topics include motivation, rewarding behavior, stress, individual and group behavior, conflict, power and politics, leadership, job design, organizational structure, decision-making, communication and organizational change and development.

Course Content:
Organizational Behavior: Definition and importance of OB; Goals and Forces of OB; Concepts and Framework in OB, OB and other disciplines; Values & Attitudes: Meaning and importance of values; Types of values; Values for cultural assessment; Values of building Attitudes; Components of attitudes; Types of attitudes; Effects of employee attitudes; Job Satisfaction: Measuring job satisfaction; Factors of job satisfaction; Job satisfaction measurement; Job satisfaction Vs. Performance, Absenteeism, and Turnover; Personality and Perception: Meaning and determinants of Personality; Implication of personality to OB; Factors influencing perception; Application of perception in organization; Frustration: Meaning and importance; OB applications of Frustration; Frustration and Motivation; Group & Team Behaviors: Definition of group & team; Classification of group; Stages of group development; Size of Group; Group influence in individual behavior; Group decision making techniques; Types of team; Ingredients of effective teams; and Team building; Leadership: Attributes of 21st century leader; Leadership Theory: Trait theory, Style theory, and Contingency theory for organizational effectiveness; Motivation: Motivational drives and approaches; Motivational theories for organizational effectiveness; Money as a motivator; Power & Politics: Meaning, Contrasting Leadership and Power bases, Sources of Power, Dependency, Power tactics, Coalitions, Politics: Meaning, factors Contributing to Political Behavior; Organization Culture: Meaning, Functions, Creating and Sustaining Cultures, How employee learn Culture.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Analyze individual and group behavior, and understand the implications of organizational behavior on the process of management.
CLO2	Identify different motivational theories and evaluate motivational Strategy used in a variety of organizational settings.
CLO3	Evaluate the appropriateness of various leadership styles and conflict management strategies used in organizations.
CLO4	Describe and assess the basic design elements of organizational structure and evaluate their impact on employees.
CLO5	explain how organizational change and culture affect working relationships within organizations

Course Code: BBA 2204 **Course Title:** Labor Law **Credits**: 3.00

Rationale of the Course:

This course provides basics of labor law, contract, and termination of contract, agencies, and sale of good acts. A prologue to the concept of aw of partnership, dissolution of Firm, negotiable instruments, basics of industrial law, carrying through road, carrying through sea, insolvency, Bangladesh labor law.

Course Content:

Introduction to labor law, occupational safety and health, law relating to remuneration of workers, law relating to training of workers, law relating to work injury and benefits, emerging issues and trends, employment contract, law relating to trade disputes and safety issues. Definition of labour law Definition of labour law History of labour law working condition Child labour. Define Remuneration How is Remuneration Determine Types of Remuneration Bonuses and incentive. Importance of employee training laim for compensation Meaning of workers training Objectives of training. Right to compensation Accidents during training for or performance of emergency services Compensation for temporary total or partial disable men. Industrial Action Unfair Dismissal.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	Describe the working conditions and appointment procedure of employees in the organization.
CLO 2	Know about the financial benefits of workers in an organization.
CLO 3	Describe the relationship of Employers and employees as well as the influence of the International Labor Organization (ILO).

Course Code: BBA 2205 Course Title: Financial Management **Credits**: 3.00

Rationale of the Course:

This course provides students basic knowledge of investment, financing decisions. After completing the course students will be able to gather through financial knowledge about financial instruments like equity securities and debt securities. The prime aim of the course is to introduce students to the share market of Bangladesh.

Course Content:

Financial Management: - Finance, financial management, major decisions of Financial Management, The Goal of Firm, Corporate Governance, Agency Problem. Cost of Capital: - Components of Cost of Capital, Cost of Bond, Cost of Common Stock, Cost of Preferred Stock, Cost of Retained Earnings, Concept & Implication of Cost of Capital, Introduction to CAPM & Its Implications. Introduction to Capital Budgeting: -Types of Capital Budgeting Decision, Techniques of Capital Budgeting, Pros & Cons of Each Technique, Investment Appraisal Techniques: Merits and Demerits, Ranking of Different Investment Appraisal Techniques.

Valuation Concept: - Different Types of Valuation, Basic Valuation Model, Common Stock Valuation, Preferred Stock Valuation, and Introduction to Concept of Bond, Details of Bond Indenture, and Introduction to Different Types Yield, Valuation of Bond. Options; Put and Call Options: - Implications of Option Pricing for Corporate Financial Policy; Warrants vs. Convertibles; Financial Futures. Venture Capital Financing: - Methods of Venture Financing, Rationale for Mergers; Types of Merger; Basic Guidelines for Mergers; Methods of Payment for Mergers; Financial Evaluation of the Methods of Payments; Demergers; Reasons for Demergers. Dividend Policy: - Determination of Optimal Dividend Policy, Various Types of Dividend Policies, Dividend Relevance Theory, Dividend Irrelevance Theory.

Course Learning Outcomes: at the end of the course, the students will be able to-

CLO 1	Integrate ethical, compliance, and governance obligations of managers in organizations to contextualize managerial roles and responsibilities.
CLO 2	Investigate the nature and application of the four principal financial statements (i.e. the Income Statement, Statement of Financial Position, Statement of Cash Flows, and Statement of Changes in Equity) to inform managerial decision making.
CLO 3	Interpret quantitative and qualitative data to assess financial performance and position of an organization.
CLO 4	Prepare budgets to make decisions about planning, controlling, and directing activities.
CLO 5	Apply recognized evaluation methodologies to make Capital Investment Decision.

Course Code: BBA 3101 **Course Title:** Advertising and Promotion **Credits**: 3.00

Rationale of the Course:
The rationale of this course is to provide a general overview of advertising and other promotional tools, their roles in business, advertising-marketing relationships, strategic planning, creative aspects, media choices, and integration of all elements.

Course Content:
The Evolution of Advertising: What is advertising?, The role of advertising in business and economics, Advertising Design: Message strategies, Cognitive strategies, Affecting strategies, Brand strategies, Advertising Appeals and Execution: What is advertising appeal?, Rational appeal and its types, Emotional appeal, Moral appeal, Advertising Media Selection: Media Strategy, Media Planning, Media Selection, Media Mix, Consumer Promotions: Discounts, Coupons, Premiums, Bonus Packs, Price Off, Sweepstakes, Rebates, and Others. Trade Promotion: Nature of trade Promotion, Types of Trade Promotions, and Objectives of Trade Promotions

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Apply knowledge about the advertising and promotional tools for communicating value to the customers.
CLO2	Evaluate and undertake several advertising & marketing communication appeals and media selection plans.
CLO3	Analyzing personal selling and public relation skills to build a favorable corporate image.
CLO4	Understand how to enhance marketing communication skills using digital technologies.

Course Code: BBA 3102 **Course Title:** Production and Operations Management **Credits**: 3.00

Rationale of the Course:
The students will learn tools aimed at innovation in business operations to improve productivity and capacity with available resources. In addition, they will develop skills that allow them to configure business processes to channel operations and reduce bottlenecks.

Course Content:
Introductions to Production and Operations Management: Concept of Operations-Operations Management- Functions- Transformation process-Life Cycle approach- Trends and challenges in operations management- Relations with other specialists-Historical development.
Operations Strategy: Meaning of Operations Strategy- Corporate Strategy-Operations Strategy Model-Productivity Measurement-New Operations Themes-Market analysis-Competitive priorities-Services strategy-Manufacturing strategy-Mass Customization.
Capacity and Layout Management: Capacity and layout Planning-Measures of capacity-Layout types-Designing process layout-Designing product layout-Economies of Scale-Diseconomies of scale-Capacity strategies-A systematic approach to capacity decisions-Simulation-Decision Trees-Managing capacity across the organization.
Statistical Process Control: Meaning of statistical process control-Common causes of variation-The inspection process-Quality measurement-Sampling-Sampling distribution-Statistical process control methods.
Inventory Management: Definition of inventory-Functions of inventory Management-Requirements for effective inventory management-Costs involved with inventory-Economic Order Quantity (EOQ) model- Problem on EOQ- Inventory control system-Continues review system-Periodic review system.
Constraint Management and Scheduling: The theory of constraint-Managing Bottleneck in service processes- Managing Bottleneck in manufacturing processes-Applying the theory of constraints to product mix decisions-Managing constraints in Line processes-Practices-Scheduling in Manufacturing- Gantt chart- Performance measures-Job Shop Dispatching- Multiple work station scheduling-Linking manufacturing scheduling to the supply chain.
Lean systems: Continuous improvement using a lean systems approach-Strategic characteristics of Lean systems-Supply chain consideration in lean systems-Process considerations in lean systems-Designing lean systems layout-One worker multiple machines-Group technology-The Kanban systems.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the basic concept of production, operations and other related issues.
CLO2	Analyze product design, operations strategy and focus on competitive priorities.
CLO3	Understand and apply statistical process control techniques, location and layout designing procedure with the goal of maximizing firm's productivity.
CLO4	Analyze constraints and inventory management to ensure optimum utilization of firm's resources for creating utility.
CLO5	Evaluate factors of lean systems of manufacturing that minimizes the wastage of production and supply chain process.

CLO6	Evaluate comparative approaches to operations management in a global context.

Course Code: BBA 3103 **Course Title:** Supply Chain Management **Credits**: 3.00

Rationale of the Course:

Supply chain management introduces high-level strategy and concepts while giving students the practical tools necessary to solve supply chain problems. Using a strategic framework, students are guided through all of the key drivers of supply chain performance, including facilities, inventory, transportation, information, sourcing, and pricing.

Course Content:

Understanding the Supply Chain: Definition of Supply Chain, The Objective of a Supply Chain, Decision Phases in a Supply Chain, Process Views of a Supply Chain. Achieving Strategic Fit in a Supply Chain: Competitive and Supply Chain Strategies, How is Strategic Fit Achieved?, Supply Chain Levers to Deal with Uncertainty, Expanding Strategic Scope. Supply Chain Drivers and Metrics: Financial Measures of Performance, A Framework for Supply Chain Decisions, Facilities, Inventory, Transportation, Information, Sourcing ,Pricing. Designing Distribution Networks and Applications to Omni-Channel Retailing: Factors Affecting Distribution Network Design in the Supply Chain, Design Options for a Distribution Network, Online Sales and Omni-Channel Retailing. Network Design in the Supply Chain: The Role of Network Design in the Supply Chain , Factors Influencing Network Design Decisions , Framework for Network Design Decisions , Models for Designing a Regional Network Configuration , Models for Identifying Potential Sites in a Region , Models for Demand Allocation and Plant Location.Designing Global Supply Chain Networks: The Impact of Globalization on Supply Chain Networks , The Importance of Total Cost in Global Networks, Risk Management in Global Supply Chains , Evaluating Network Design Decisions using Decision Trees , To Onshore or To Offshore: The Value of

Flexibility in a Supply Chain Under Uncertainty.
Demand Forecasting in a Supply Chain: The Role of Forecasting in a Supply Chain , Components of a Forecast and Forecasting Methods, Time-Series Forecasting Methods , Measures of Forecast Error , Building Forecasting Models using Excel.
Aggregate Planning in Supply Chain: Aggregate Planning and its Role in a Supply Chain, The Basic Trade offs in Aggregate Planning, Aggregate Planning using Linear Programming , Aggregate Planning in Excel.
Sales and Operations Planning in a Supply Chain: Responding to Predictable Variability in the Supply Chain, Sales and Operations Planning at Red Tomato.
Coordination in a Supply Chain: Lack of Supply Chain Coordination and its Impact on Performance , Obstacles to Coordination in a Supply Chain ,Managerial Levers to Improve Coordination, Some Practical Approaches to Improve Supply Chain Coordination.
Managing Economies of Scale in a Supply Chain Cycle Inventory: The Role of Cycle Inventory in a Supply Chain, Economies of Scale to Exploit Fixed Costs ,Aggregating Multiple Products in a Single Order, Economies of Scale to Exploit Quantity Discounts , Why do Suppliers offer Quantity Discounts?, Short-Term Discounting: Trade Promotions, Managing Multiechelon Cycle Inventory, Managerial Levers to Reduce Cycle Inventory.
Sourcing Decisions in a Supply Chain: The Sourcing Decision in a Supply Chain, Total Cost of Ownership, Designing a Sourcing Portfolio: Tailored Sourcing, Sharing Risk and Reward in the Supply Chain.
Pricing and Revenue Management in a Supply Chain: The Sourcing Decision in a Supply Chain, Total Cost of Ownership, Designing a Sourcing Portfolio: Tailored Sourcing, Sharing Risk and Reward in the Supply Chain.
Information Technology in a Supply Chain: The Role of IT in a Supply Chain, The Supply Chain IT Framework, The Future of IT in the Supply Chain.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the structure of supply chains and the different ways through which supply chains can become competitive in the market
CLO2	Analyze the foundational role of logistics as it relates to transportation and warehousing.
CLO3	Develop an understanding of the importance of logistics in the formulation of the business strategy and the conduct of supply chain operations.
CLO4	Learn how to align the management of a supply chain with corporate goals and strategies.

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**

Course Code: BBA 3104 **Course Title:** Bank Management **Credits**: 3.00

Rationale of the Course:
This course aims at enabling the students to understand and to contribute to the strategic operational policies and practices of commercial bank management in a competitive environment. Throughout the course the student will observe the impact of various external and internal challenges on the banking industry and the strategies developed to deal with these threats.

Course Content:
Introduction: Meaning & Definition; Historical Development; Types of Banks. Functions of Commercial Banks. Modern Banking Systems; Banking Systems in Bangladesh: Evolution, Development and Challenges; Islamic Banking System in Bangladesh. Ethics in banking. Bank Administration: Organization Structure of Banks; Management STRATEGIEs; Management of Nationalized Commercial bank: Board of Directors; Responsibilities and Powers of Board of Directors; Audit Committee of the Board; Management of Private Banks: Bangladesh Bank Guidelines; Banks and Legal Environment. Bank Fund Management: Sources and Uses of Bank Funds - Functions as Collector of Bank Funds; Functions as User of Bank Funds; Performance Evaluation of Bank; Indicators of a Successful Bank; Performance Based Classification of Bank; Indicators of an Unsuccessful Bank. Commercial Banks' Deposit Management: Life Blood of Commercial Banks; Objectives of Bank Deposit; Classification of Deposits; Types of Deposit Accounts; Factors determining the level of Deposits; Special Types of Deposit Schemes; Types of Account Holders; Special Types of Account Holders. Bank Reserves and Liquidity Management: Concepts of Bank Reserves: Primary Reserve; Secondary Reserve; Working Reserve; Legal Reserve; Required Reserve; and Primary Reserve vis-a-vis Secondary Reserve. Concepts of Liquidity; Liquid Assets of Banks; Nature of Bank Liquidity; Type of Liquidity; Liquidity Vs Profitability; Liquidity Indicators; Liquidity Management Theories. Loan Management: Concepts of Loan; Loans Vs Investments; Characteristics; Functions and Classification of Bank Loans; Importance of Bank Loan; Methods of Loan pricing; Considerations of Loan pricing; Principles of Sound Lending. Bank Loan policy: Elements of Loan Policy; Structure of Loan Management; Steps followed in Loan Operations; Credit Analysis; Use of Financial ratios for Credit Analysis; Documentation, Supervision and Security of bank Loans; Loan Activities; Classification of Loans for Reporting Purposes; Guidelines for Bank Loan Classification in Bangladesh. Good vs Problems Loans; Indicators of Problems Loans; Causes of Problems Loans; Guidelines for Handling Problem Loans in Bangladesh. Foreign Exchange Management: Foreign Currency Derivatives; Foreign Exchange, Foreign Exchange Rate; Foreign Currency Transaction; Forward Contracts; Translation Methodologies. Electronic Banking: Concepts, Objectives, Developments, and Structure of Electronic Banking; Basic Components of Electronic Banking; Types of Electronic Banking, Internet Banking, Problems of Electronic Banking in Bangladesh, Suggestions for Improvement of Electronic Banking in Bangladesh..

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	Understand the Origin and the growth of the Banking System in Bangladesh.

CLO 2	Remember broad functions of banks, banking services and functions of the regulatory authority.
CLO 3	Analyze the functions of e-service of commercial banks in Modern Banking.
CLO 4	Classify the different types of Bank Accounts.
CLO 5	Understand the concept of loan management and foreign currency

Course Code: BBA 3105 **Course Title:** Advanced Financial Accounting **Credits**: 3.00

Rationale of the Course:

This course covers advanced financial reporting issues and accounting methods for company accounting. It introduces different types of inter-entity relationships and related accounting issues and accounting treatments. Students will learn how to prepare, read, analyze and evaluate the consolidated financial statements based on the guidelines provided under the relevant Accounting Standards.

Course Content:

Financial Accounting and Accounting Standards: Financial Statements and Financial Reporting; Objective of Financial Reporting; The Need to Develop Accounting Standards; Parties Involved in Standard-Setting Process: Securities and Exchange Commission (SEC); American Institute of Certified Public Accountants (AICPA); Financial Accounting Standards Board (FASB); Generally Accepted Accounting Principles; Issues in Financial Reporting; GAAP in a Political Environment; Financial Reporting Challenges; International Accounting Standards; Ethics in the Environment of Financial Accounting. Corporations: Organization and Capital Stock Transactions: The Corporate Form of Organization, Characteristics of a Corporation, Forming a Corporation; Stockholder Rights; Stock Issue Considerations; Corporate Capital; Accounting for Issues of Common Stock; Issuing Par Value Common Stock for Cash; Issuing No-Par Common Stock for Cash; Issuing Common Stock for Services or Noncash Assets; Accounting for Treasury Stock; Purchase of Treasury Stock; Disposal of Treasury Stock; Accounting for Preferred Stock; Dividend Preferences;

and Liquidation Preference. Income Statement and Related Information: Income Statement; Usefulness of the Income Statement; Limitations of the Income Statement; Quality of Earnings; Format of the Income Statement; Elements of the Income Statement; Intermediate Components of the Income Statement; Condensed Income Statements; Single-Step Income Statements; Reporting Various Income Items; Unusual Gains and Losses; Discontinued Operations; Extraordinary Items; Earnings per Share; Different Income Concepts; Other Reporting Issues; Accounting Changes and Errors; Retained Earnings Statement; and Comprehensive Income. Balance Sheet and Statement of Cash Flows: Balance Sheet: Usefulness of the Balance Sheet; Limitations of the Balance Sheet; Classification in the Balance Sheet; Balance Sheet Format; Evolving Issue: Balance Sheet Reporting: Gross or Net? Purpose of the Statement of Cash Flows: Content and Format of the Statement of Cash Flows; Overview of the Preparation of the Statement of Cash Flows; Usefulness of the Statement of Cash Flows; Additional Information; Supplemental Disclosures; Techniques of Disclosure. Preparation and presentation of Departmental Accounts and Branch Accounts. Intangible Assets: Identifiable and unidentifiable intangibles, acquired externally or developed internally, initial recognition and measurement, measurement after initial recognition, research and development cost (IAS-38), impairment of intangible assets. Accounting for Joint Venture: Jointly Controlled Operations, Jointly Controlled Assets, Accounting for Non-Trading Concerns: Definition, objectives, capital fund, sources of revenues, receipts and payments account, preparation of the financial statements.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	Explain the importance for International Financial Reporting Standards (IASs and IFRSs) and the process of their formulation and implementation.
CLO 2	Make accounting entries relating to issue of shares, forfeiture of shares and treasury stocks transactions and their treatments in the financial statements.
CLO 3	Prepare the Income Statement and Retained Earnings Statement, and calculate the Earnings Per Share (EPS) and show the items involved with Other Comprehensive Income.
CLO 4	Explain purposes of and prepare a Classified Balance Sheet, Statement of Cash Flows of companies in accordance with International Financial Reporting Standards (IASs and IFRSs).
CLO 5	Gain a practical knowledge and skill of preparing Departmental Accounts, Branch Accounts, Accounts of Banks and Insurance Companies including recording transactions related to Royalties, Hire Purchase and Installment Payment Systems.

Course Code: BBA 3106 **Course Title:** Insurance and Risk Management **Credits**: 3.00

Rationale of the Course:

This course introduces the concept of risk and techniques of identifying, measuring and managing it. In this context, insurance as a risk management tool is discussed with references to its role, functions and basic principles as applicable to different classes of insurance. The course aims to provide the students with a broad understanding of risk and insurance as a means to manage it. This forms the foundation to facilitate the students in their further studies on insurance.

Course Content:

Introduction of Insurance: Origin and History-Definition-Nature-Scope-Role-Social and Economic values of Insurance. Fundamental Principles-Insurance Contract; Life Assurance: Contract-Kinds of policies and annuities-Mortality Table-Claims and Settlement-Premium Plans-Computation of net premium-Calculations of reserve Surplus and its distribution; Marine Insurance: Contract-Types of Policies-Marine Losses-Claims and Settlement; Fire Insurance: Contract-Claims and Settlement-Reinsurance; Miscellaneous Insurance: Postal Life Insurance; Group Insurance; Accident Insurance; Automobile Insurance; Risk Management: Definition of Risk-Classification of Risk-Insurance as a Device for Handling Risk. Objectives of Risk Management. Fire Hazards, Physical and Moral Hazards, Approaches towards Risk Prevention, Peril; The Insurance Act, 2010: Nature of the Contracts of Insurance; basic principles of law of insurance; features of marine, fire and life insurance; liability of underwriter.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Demonstrate knowledge of common insurance policies and the industry operations.
CLO2	Reveal competency in assessing the types of risks facing financial institutions, corporations, organizations, and individuals and recommending insurance policy coverage accordingly
CLO3	Develop skills to facilitate insurance product cost and pricing, marketing, and distribution.
CLO4	Design a risk management program for a business organization.

Course Code: BBA 3201 **Course Title:** International Trade and Business **Credits**: 3.00

Rationale of the Course:
This course offers a global perspective and helps build a solid foundation and under-standing of the factors affecting the global marketplace and the mechanisms of shipping management. After pursuing the course students will learn the theories of international trade, different terminology used in international trade such foreign exchange, balance of payment, terms of trade with details explanation, documents used in export and import, marketing strategy and policy applied for exporting goods from Bangladesh, services and institutional facilities available in Bangladesh for increasing export, the overall foreign trade condition of Bangladesh and the global structure and conditions of shipping operations.

Course Content:

Introduction: Definition of International Trade, Difference between Domestic Trade and International Trade, Importance of International Trade in the World Economy, Classifications of International Trade, Procedures of Exporting Goods from and Importing Goods in Bangladesh; Limitations of planning; Principles of Planning. International Trade Theories: Economic Basis for International Trade, Mercantilism, Absolute Advantage, Comparative Advantage, Factor Endowment Theory, Heckscher–Ohlin Theory, International Product Life Cycle Theory, Porter's Diamond Model.
Protectionism and Free Trade: What Is Meant by Protectionism, Arguments for and Against Protectionism, Instruments of Protectionism, What Is Meant by Free Trade? Arguments for and Against Free Trade, Methods of Removing Barriers to Free Trade. Modes of Entry into Foreign Nations: Characteristics of Multinational Enterprises, Why Firms Become Multinational Enterprise, The Internationalization Process, Modes of Entry (Licensing, Franchising, Export, Joint Venture, Strategic Alliance, Merger, Local Packaging and Assembly, FDI), Waterfall Approach, Sprinkle Approach.
International Politics and Culture: Political Ideologies and Economic System, Economic Integration, What is Culture?, Home Country vs. Host Country's Culture, Key Dimensions of Culture (Hofstede's Dimensions of Culture, Trompenaars' Seven Dimensions of Culture, The *GLOBE* Project's Nine Dimensions of Culture), Applying the National Culture Framework, Cross-Cultural Management. Balance of Payment: Concepts of Balance of Payment and Balance of Trade, Elements/Components of Balance of Payments, Factors Affecting Balance of Trade and Payment, Equilibrium in the Balance of Payment, Causes of Disequilibrium in Balance of Payment, Measures for Correcting Adverse Balance of Payment.

Foreign Exchange Rate: Nature and Importance of Foreign Exchange Rate, Equilibrium Exchange Rates, Determinants of Foreign Exchange Rate, Types of Exchange Rates, Nominal vs. Real Exchange Rates, Appreciation and Depreciation of Currencies. World Financial Environment: Gold Standards, The Bretton Woods System, The International Monetary Fund, The World Bank, World Trade Organizations, Asian Development Bank, Islamic Development Bank, G8, G77.
Bangladesh and International Trade: Bangladesh's Position in the Developing Countries, Trade Intensity and Terms of Trade of Bangladesh with the SAARC Countries, Trends and Composition of Export and Import of Bangladesh, Export Processing Zone in Bangladesh. Modes of International Financing: L/C, Bonded Warehousing, off-shore Financing, and others.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Remember the international business terminologies, strategies, and entry modes used by MNCs.
CLO2	Understand the international trade theories, the concept of balance of payment, and foreign exchange rate.
CLO3	Analyze various economic, financial, political, and cultural systems and how they affect international business decisions.
CLO4	Evaluate the arguments for and against free trade & protectionism.
CLO5	Investigate the facts on international organizations like the IMF and World Bank and how they work and how their policies affect Bangladesh.

Course Code: BBA 3202 **Course Title:** Human Resource Management **Credits**: 3.00

Rationale of the Course:

This course provides a prologue to the concept of Introduction to Human Resource Management, Job Analysis, HR planning, Recruitment, Selection and Testing, Interview, Training and Development, Performance Management and Appraisal, Remuneration policies, Linking HRM with Leadership, Linking g HRM with Motivation, Human Resource Information System.

Course Content:

Introduction: Definition-importance-evolution of HRM, HRM Model, How external influences affect HRM, Staffing function, HRM in an entrepreneurial enterprise, HRM in a global village, HR and corporate ethics, contemporary challenges in HRM, Environment of Human Resource Management; Manpower Planning: Aims and Objectives, Demand and Supply Forecasting Method, Labor Turnover and Its Measuring Procedures, Manpower Productivity and Cost, Manpower Control, Human resource Information Systems, Role of Manpower Agencies in Bangladesh; Job Analysis and Job Designs: Job Analysis: Advantages, Process, Methods of Collecting Job Data, Potential problems. Job Designs: Affecting factors, Approaches of Job design, Differences between Job analysis and Job design; Manpower Recruitment and Selection: Definition, Nature, Differences between Recruitment and selection, Recruitment and Selection Process, Interviewing and testing, Reliability and Validity, Placement and Orientation; Socialization, Orientation, Training and Development: meaning, Objectives, Methods of Employees Training, Determination of Training Needs, Concept of Management Development, Process and Techniques of Management Development, Evaluation of Development Programs, Why training fails-Improving effectiveness of training; Employee Remuneration, Benefits, Merit rating and Services: Remuneration Systems; Incentive plans-Fringe benefits, Employees benefits, Wages System, Promotion, Transfer & discharge, Job Security, Job Satisfaction, Pay Administration, Pay System, Safe and Healthy Work Environment, Merit rating; Performance Appraisal: Purpose of Performance Appraisal, Approaches of Performance Measurement, Factors affecting the Measurement of Performance; Employee Morale & Productivity: Measuring & improving morale-Trade Union-Collective Bargaining-Handling employee grievance-Developing employee co-operation, Personnel research-Evaluation-Improving performance.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the basic concepts of human resource (HR) management, job analysis, recruitment and selection, training and development, performance management, and appraisal.
CLO2	Focus on the practical applications so as to know how to deal with HR related responsibilities.
CLO3	Evaluate the role of HR managers in determining suitable compensation packages for the employees
CLO4	Formulate HR plans to improve employee morals to achieve organizational goals.

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**

Course Code: BBA 3203 **Course Title:** Fundamentals of Management Information System **Credits**: 3.00

Rationale of the Course:

This course provides students with an understanding of how to use and manage information systems in order to revitalize business processes, improve business decision-making, and gain a competitive advantage.

Course Content:

Information Systems in Global Business Today: How Information Systems are Transforming Business ,What's New in Management Information Systems, Globalization Challenges and Opportunities: A Flattened World, The Emerging Digital Firm , Strategic Business Objectives of Information Systems, Perspectives on Information Systems ,What Is an Information System? Dimensions of Information Systems, A Business Perspective on Information Systems, Contemporary Approaches to Information Systems, Technical Approach, Behavioral Approach.

Global E-Business and Collaboration: Business Processes and Information Systems Business Processes ,How Information Technology Improves Business Processes ,Types of Information Systems ,Systems for Different Management Groups, Systems for Linking the Enterprise, E-Business, E-Commerce, and E-Government, Systems for Collaboration and Social Business, Building a Collaborative Culture and Business Processes , Tools and Technologies for Collaboration and Social Business, The Information Systems Function in Business, The Information Systems Department, Organizing the Information Systems Function.

Information Systems, Organizations, and Strategy: Organizations and Information Systems, How Information Systems Impact Organizations and Business Firms, Economic Impacts ,Organizational and Behavioral Impacts ,The Internet and Organizations ,Implications for the Design and Understanding of Information Systems, Using Information Systems to Achieve Competitive Advantage ,Porter's Competitive Forces Model, Information System Strategies for Dealing with Competitive Forces ,The Internet's Impact on Competitive Advantage, The Business Value Chain Model, Synergies, Core Competencies, and Network-Based Strategies, Using Systems for Competitive Advantage: Management Issues, Sustaining Competitive Advantage, Aligning IT with Business Objectives, Managing Strategic Transitions.

IT Infrastructure and Emerging Technologies: Defining IT Infrastructure, Evolution of IT Infrastructure, Technology Drivers of Computer Hardware Platforms ,Operating System Platforms ,Enterprise Software Applications Data Management and Storage, Networking/Telecommunications Platforms ,Internet Platforms ,Consulting and System Integration Services.

Foundations of Business Intelligence: Databases and Information Management: Organizing Data in a Traditional File Environment, File Organization Terms and Concepts, Problems with the Traditional, File Environment, The Database Approach to Data Management Database Management Systems, Capabilities of Database Management Systems, Designing Databases, Using Databases to Improve Business Performance and Decision Making.

Achieving Operational Excellence and Customer Intimacy: Enterprise Applications: Enterprise System, What Are Enterprise Systems, Enterprise Software, Business Value of Enterprise Systems ,Supply Chain Management Systems The Supply Chain, Information Systems and Supply Chain Management, Supply Chain Management Software Supply Chains and the Internet, Business Value of Supply Chain Management Systems, Customer Relationship Management Systems What Is Customer Relationship Management? Customer Relationship Management Software, Operational and Analytical CRM, Business Value of Customer Relationship Management Systems.

Managing Knowledge: The Knowledge Management Landscape, Important Dimensions of Knowledge ,The Knowledge Management Value Chain ,Types of Knowledge Management Systems, Enterprise-Wide Knowledge Management Systems ,Enterprise Content Management Systems ,Knowledge Network Systems, Collaboration And Social Tools and Learning Management Systems.

E-Commerce: Digital Markets, Digital Goods: Commerce and the Internet, Key Concepts in Ecommerce: Digital Markets and Digital Goods in a Global Marketplace, E-commerce: Business and Technology ,Types of E-Commerce ,E-Commerce Business Models ,E-Commerce Revenue Models , Social Networking and The Wisdom of Crowds ,ECommerce Marketing, B2B E-commerce: New Efficiencies and Relationships, The Mobile Digital Platform and Mobile E-commerce.

Securing Information Systems: System Vulnerability and Abuse, Why Systems Are Vulnerable, Malicious Software: Viruses, Worms, Trojan Horses, and Spyware, Hackers and Computer Crime ,Internal Threats: Employees Software Vulnerability, Business Value of Security and Control, Legal and Regulatory Requirements for Electronic Records Management, Electronic Evidence and Computer Forensics ,Establishing a Framework for Security and Control ,Information Systems Controls.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand IT infrastructure and emerging information systems and technologies in global business today
CLO2	Enable students to understand the use of information systems to gain a competitive advantage with the management of information as an organizational resource.
CLO3	Identify the role of IT in the acquisition, production, and distribution of goods and services.
CLO4	Understand Foundations of Business Intelligence: Databases and Information Management
CLO5	Provide students with tools and techniques of securing information systems.

Course Code: BBA 3204 **Course Title:** Auditing and Taxation **Credits**: 3.00

Rationale of the Course:

This course helps the student to understand what is taxable and deductible under NBR. They will be able to perform simple tax research exercises and complete a moderately complex Bangladesh Individual Income Tax return. They will be aware of audit terminology, have

knowledge about audit planning and execution, learn and link between auditing, accounting and financial statement analysis.

Course Content:

Audit

Introduction: Definitional Assessment of Auditing; Audit Types; Economic and Social Functions of Auditing; Differentiation between Accounting and Auditing; Assurance Framework; Applications of the Assurance Function; Structure of Assurance Standards and Pronouncements; the Personal Qualities of an Assurance Provider.

The Elements of Auditing: Auditing Procedures; Evidential Matter and its Relationship to Procedures; Financial Statement Assertions and Audit Objectives; Overview of the Audit Risk Model; Types of Audit Tests; Types of Tests of Control; Types of Substantive Tests; the Function of Working Papers; the Contents and Requirements of Working Papers; Legal Aspects of Working Papers; Mechanics of Working Paper Preparation.

The Conduct of the Audit: Accounting systems; Internal controls; Audit testing; Sampling and analysis review techniques; Working papers; Reports to directors; Errors and frauds.

The Auditors' Report: Auditors' report, qualified reports, Subsequent events (post balance sheet events), Going concern.

Taxation

Introduction to Bangladesh Income Tax: Definition of tax; characteristics, Tax system of Bangladesh; types of tax; objectives of tax; Role of Tax in Economic Development of Bangladesh; Concept of Income; Different Rates of income Tax for different Assesses; Some Significant Issues of Income Tax (Assessment Year vs. Income Year; Different Classes of Assesses; Residential Status of an Assesse; Taxation Implication of Resident or Non-resident).

Administration and Tribunal: Income Tax Authorities; Administrative and Judicial authorities; Appointment, Subordination, Power and Functions; Alternative Dispute Resolution (ADR).

Heads of Income and Classification of Income: Statutory Heads of Income; Heads of Income under Income Tax Returns; Non-assessable Income; Tax-free Income; Unearned and Earned Incomes; Domestic and Foreign Incomes; Regular and Casual Incomes; Income Subject to Regular Tax Rate and Income Subject to Special Tax Rate. Charge of Surcharge.

Computation of Head Wise Income: Computation of Income under Statutory Heads: Salaries, Interest on Securities, Income from House Property, Agricultural Income, Income from Business or Profession, Capital Gains, and Income from Other Sources.

Assessment of Individuals: Definition of Individual; Computation of Total Income of an Individual Assesse; Procedure of Assessment; Assessment Order and Tax Clearance Certificate.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Describe and evaluate the accounting and internal control systems and identify and communicate control risks, potential consequences and recommendations there on.
CLO2	Explain and evaluate the sources of evidence, describe the nature, timing and extent of tests on class of transaction and account balances (including sampling and analytical procedures) and design program for audit and review assignments
CLO3	Define the Tax structure of Bangladesh, Importance of tax for national and economic development and tax provisions for resident and nonresident Bangladeshi.

CLO4	Explain about the income tax authorities, their responsibilities, power and functions.
CLO5	Understand various heads of taxable income of individuals and various organizations including partnership, corporation and non prof, it organizations.

Course Code: BBA 3205 **Course Title:** Entrepreneurship Development & SME Management **Credits**: 3.00

Rationale of the Course:

The main objective of this course is to introduce students to the fundamentals of Entrepreneurship Development. The purpose is to create awareness among students and motivate them to choose entrepreneurship as a career. Generating "self-employment'' and developing the spirit of self-reliance among the individuals with special reference to youths & rural masses. Another objective is creating awareness amongst youths of the country having Science & Technological Background to opt entrepreneurship as a career

Course Content:

Introduction: Evolution of Entrepreneurship; Myths of Entrepreneurship; Approaches to Entrepreneurship; Definition of Entrepreneur and Entrepreneurship, characteristics; Dark side of Entrepreneurship; Model of Entrepreneurial motivation; Entrepreneur and Entrepreneur; Women Entrepreneurship; High –Tech Entrepreneurship.

Theories of Entrepreneurship: Psychological theories; Socio-psychological theory; Cultural theories; Background Factor s Theories or General theories.

Analysis of business Environment and opportunities: Basic Structure of Environment; Business Environment: political, economic, legal and technical aspects of Environment; Environmental scanning procedure; SOWT analysis; techniques of environmental analysis.

Developing Entrepreneurship: Entrepreneurship Development factors; process of developing Entrepreneurship; Entrepreneurship Development cycle; EDP and need for EDP; Family Business; Business plan; Start-up and buy-ups.

Entrepreneurship and Small Business: Definition of Small business; large Vs Small business; Feature of Small business; Stages of Small business Development; Role of small business; Development Issues-legal Issues.

Small Business plan: Definition, Importance-Uses and Features of business plan; Elements of business plan; Step to develop a business plan; pitfalls to avoid in making business plan.
Progression: Production, Finance and Marketing by small firms: product Development and Renovation; Production flow process; Production Elements; Production control process; Production Plan, Marketing Research, Function, Marketing Mix, Promotional Strategy, Source of finance, equity and debt financing; Problems of financing small business.
Growth and Development of Entrepreneurial Ventures: Strategic planning for emerging venture; Joint venture, Franchising, Licensing, Stages of venture development; key factors during the growth stage, succession and continuity plan, Evaluation of financial performance; Exit Strategy'; Case Studies.
Entrepreneurship and small business development in Bangladesh: Entrepreneur ship development potentials; problems of developing entrepreneurship in Bangladesh; Governmental role and support services in developing small business in Bangladesh; Need for training and development

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand advance knowledge on how to assess business opportunities & threats
CLO2	Gain knowledge about key processes necessary to bring new products and services in the market
CLO3	Generate new ideas of business for the creation of new employment opportunity
CLO4	Engage in a continuing learning process through the interaction with peers in related topics, as individuals and as team members

Course Code: BBA 4101 **Course Title:** Cost and Management Accounting **Credits**: 3.00

Rationale of the Course:
This course is designed to discuss the theoretical foundation of cost accounting, the basic issues related to cost measurement in job costing systems and process costing systems and the problems of overhead application rates and other related arenas. Cost Accounting provides students with an idea about measurement, analysis, accumulation and control of various elements of cost and an elementary knowledge about preparation of cost sheet. Contents

include significance of cost accounting, cost concepts and classification, accounting for material, labor and overheads, and preparation of cost sheet.

Course Content:

Introduction to Cost and Management Accounting: Manufacturing Concerns; Definitions; Characteristics; Manufacturing Activity; Manufacturing vs. Non-Manufacturing Concerns; Producing Departments and Service Departments; Chart of Accounts; Financial Statements of a Manufacturing Concern; Cost Accounting as a Discipline: Definition and Objectives of Cost Accounting; Limitations of Financial Accounting; Importance of Cost Accounting; Cost Accounting vs. Financial Accounting vs. Management Accounting; Evolution of Cost Accounting; Methods and Techniques of Cost Accounting; Modern Trends in Cost Accounting; Cost Concepts, Classification and Preparation of Cost Sheets: Concepts of Asset, Cost, Expense, and Loss; Classification of Costs; Cost Centre and Cost Unit; Cost Object; Cost Accounting Cycle; Factory Cost Flow; Statement of Cost of Goods Manufactured and Sold; Income Statement.

Materials: Direct and Indirect Materials; Procurement of Materials; Storage of Materials; Materials Record; Bin cards, Stores ledger, Cost of Acquiring Materials, Methods of Valuing Materials, Issues, Planning Materials Requirements; Stock Levels: Economic Order Quantity, Safety Stock, Materials Control: Selective Control; ABC plan, VED Analysis Stock Valuation, Stock Verification and Adjustments.

Labor: Labor Cost Control, Recording of Time, Methods of Remuneration, Incentive Plans, Treatment of Idle Time, Over-time, Pension and Vacation Pay, Payment of Wages, Wages Abstract.

Overhead: Planning and Control of Factory Overhead; Predetermined Factory Overhead; Methods of determining Allocation Ratios; Applied Factory Overhead; Departmental Allocation of Factory Overhead; Actual Factory Overhead: Over or Under Applied Factory Overhead; Analysis of Variance, Administrative, Selling and Distribution Overhead: Applied and Actual, Accounting for Administrative, Selling and Distribution Overhead. ABC, Departmental rate: Plant-Wide rate.

Job Costing: Cost Measurement; Actual Costing, Normal Costing and Standard Costing; Nature and Procedure of Job costing, Nature and uses of Batch Costing, Determination of Economic Batch Quantity, System Design.

Contract costing: Nature and Procedure; Determination of Profits or Losses on Incomplete Contract.

Variable costing and segment reporting: Variable costing; absorption costing; preparation of income statement using different costing methods; traceable fixed cost; common fixed cost; segment margin; segment report for decision making.

Differential analysis: Cost concept for decision making; adding and dropping product lines and other segments; the make or buy decision; opportunity cost; special order; utilization of constrained resources.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	Identify and explain the different elements of costs associated with producing an item.
CLO 2	Define and determine direct materials cost including the things relevant to procurement, storage, issuance, valuation, planning materials requirements, stock levels etc.
CLO 3	Explain and determine the direct labor cost involved with producing a product or service under different methods of paying remuneration and incentive plans.
CLO 4	Describe the overhead expenses involved in production and calculate the relevant overhead including the methods of treating the under or over application of overheads in the books of account.

CLO 5	Define Job Costing and Batch costing and compute the total costs of producing a product or service under Job and Batch costing systems.
CLO 6	Describe the concepts relating to contract costing and determine the total cost and profit of a contract considering some technical aspects relevant to contracts.
CLO 7	Understand variable costing and segment reporting and also differential analysis for different decisions.

Course Code: BBA 4102 **Course Title:** Project Management **Credits**: 3.00

Rationale of the Course:

This course will make students understand the concepts of project management for planning to execution of projects, understand the feasibility analysis in project management and network analysis tools for cost and time estimation, them to comprehend the fundamentals of contract administration, Costing and Budgeting, make them capable to analyze, apply and appreciate contemporary project management tools and methodologies in Indian context.

Course Content:

Introduction: Definition of Project- Project Management - Importance of Project Management-Project manager responsibilities- Environmental forces and Project Management - Difficulties in Managing projects.

Project Cycle Analysis: Project formulation- Project identification- Capital Investments- Phases of Capital Budgeting- Facets of Project Analysis- Elementary Investment Options- Portfolio Planning.
Generation and Screening of Project Ideas: Monitoring the Environment Corporate Appraisal- Profit Potential of Industries- Porter Model- Scouting for Project Ideas- Project Rating Index.
Market and Demand Analysis: Conduct of Market Survey- Characterization of the Market- Demand Forecasting- Pricing and Product promotion Policy.
Technical Analysis: Manufacturing Process and Technology- Technical Arrangement- Structures and Civil works- Project Chats and Layouts- Project Implementation Schedule.
Financial Estimates & Projections: Cost of Project- Means of Financing- Syndicate Financing, Sales Estimate- Working Capital- Raw Material costing- Sensitivity Analysis- Financial Expense Calculation- Benefit Cost Ratio- Payback Ratio Profitability Analysis- Break Even Point- Financial Projection.
Investment Criteria: Capital Budgeting Techniques (NPV, IRR, ERR, PBP, BCR) & Capital Rationing: Techniques to measure the degree of risk.
Risk and Uncertainty Analysis of a project: Techniques to measure the degree of risk to overcome the same - Sensitivity Analysis.
Network Techniques for Project Management: Use of CPM and PERT techniques in cost and time management of projects- Gantt Chart- Crash and Normal time of the Project.
Social Cost Benefit Analysis (SCBA): Rationale of SCBA -UNIDO Approach SCBA in Bangladesh- Calculation of Net benefit from Private Angle- Net Benefit from Economic Angle.
Financing of Projects: Capital Structure- Equity Capital- Term Loans- Working Capital Advance- Raising Venture Capital. Project Implementation, Monitoring & Evaluation: Different stages of project implementation guidelines- Project monitoring guidelines- Methods of effective project evaluation.
Working Capital Financing: Definition of Working Capital- Features and Importance- Mathematics problems and solutions from Working Capital Financing.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	Recognize the Project Management knowledge areas with key inputs, tools and techniques and outputs.
CLO 2	Successfully utilize tools and techniques to demonstrate an effectively planned project.
CLO 3	Analyze project flow, resources, time lines and budget requirements.
CLO 4	Detail Analysis of Financial Aspect, Market Aspect, Technical Aspect, Working Capital and Economic Aspect of a Project.
CLO 5	Learn the networking techniques of a project, PERT and CPM methods.
CLO 6	Analyze the social cost and social benefit after implementation of Project.
CLO 6	Develop management skills in handling job related to Project Management.

Course Code: BBA 4103 **Course Title:** Strategic Management **Credits**: 3.00

Rationale of the Course:

This course provides a prologue to the concept of Strategic Management, Business Vision and Mission, External Assessment, Internal Assessment, Strategy Analysis and Choice, Strategy implementation, Strategy Review, Evaluation, and Control, Global and Issues, International Issues.

Course Content:

The concept of strategy- A Broad Overview- Level of strategy-Strategy of different MNCs', Strategy formulation, Strategy implementation and evaluation activities, Competitive advantage, Core competence, Competitive advantage of organizations Nature of Strategic Management -The strategic Management Process, analysis and intuition in strategic management, benefits of good strategic management. Business Vision and Mission-Nature and role of vision statements in strategic management, nature and role of mission statements in strategic management, process of developing a vision and mission statement, the characteristics of a good mission statement, how clear vision and mission statements can benefit other strategic-management activities; Internal Assessment -Nature and role of an internal assessment, nature and role of marketing, production/operations, finance and accounting, research and development (R&D), management information systems (MIS), Internal Factor Evaluation (IFE) Matrix External Assessment- Nature and purpose of an external assessment, 10 external forces that must be examined in formulating strategies, Porter's Five Forces Model, forecasting tools and techniques, External Factor Evaluation (EFE) Matrix. Strategy Analysis and Choice-Strategy analysis and choice process, three-stage strategy-formulation analytical framework, SWOT Matrix, Strategic Position and Action Evaluation (SPACE) Matrix, BCG Matrix, Internal-External (IE) Matrix, Grand Matrix, Quantitative Strategic Planning Matrix (QSPM), important political considerations in strategy analysis and choice Strategy Review, Evaluation, and Control-Strategy-evaluation process, criteria, and methods used, activities that comprise strategy evaluation, develop a Balanced Scorecard, nature and role of contingency planning in strategy evaluation, six characteristics of an effective strategy evaluation system, International Issues-Business culture found in Mexico, Japan, China, and India; explain why this is a strategic issue. Business climate in Africa, China, Indonesia, India, Japan, Mexico, and Vietnam; explain why this is a strategic issue.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Identify the forces impacting on corporate and business strategies
CLO2	Be critically aware of factors involved in strategy making
CLO3	Assess the resources and constraints for strategy making in a business context
CLO4	Explain the importance of social, cultural, economic, technological and political forces

Course Code: BBA 4104 **Course Title:** Business Research Methods **Credits**: 3.00

Rationale of the Course:

Research Methodology is a hands-on course designed to impart education in the foundational methods and techniques of academic research in social sciences and business management context. Research scholars would examine and be practically exposed to the main components of a research framework i.e., problem definition, research design, data collection, ethical issues in research, report writing, and presentation.

Course Content: The course is designed in such a way as to comprehend the students with practical knowledge on how to solve business problems through research. The course contains, Introduction, process, problems, design, sampling, data collection, data analysis, data management, hypothesis testing, analysis of business research. Finally, the course contains interpretation of research results for business decision making.

Course Learning Outcomes: at the end of the course, the students will be able to-

CLO1	Build the foundation of scientific thinking;
CLO2	Understand the framework of the business research process;
CLO3	Develop an understanding of research design and techniques
CLO4	Conduct basic qualitative and quantitative research, and
CLO5	Equip the students for scholarly writing and evaluate the report.

Course Code: BBA 4105 **Course Title:** E-Business **Credits**: 3.00

Rationale of the Course:

This course provides an overview of e-commerce from both technological and managerial perspectives. It introduces e-commerce frameworks, and technological foundations; and examines basic concepts such as strategic formulation for e-commerce enterprises, management of their capital structures and public policy. This course is designed to familiarize students with current and emerging electronic commerce technologies using the Internet, issues associated with electronic commerce, and business plans for technology ventures.

Course Content: Fundamentals of e-commerce including history, stages, types and contribution of e-commerce in modern age. E-commerce infrastructure: Support and contribution of technologies in the development of e-commerce, role of internet and supporting technologies for e-commerce. Web marketing: introduction of marketing through online channels, impact of web marketing through various online platforms. Revenue Model and its components, designing revenue model for e-commerce with considerable factors. Business model followed by e-commerce initiatives and the end result of each of the components taken under consideration while designing business model for e-commerce, finally how to solve modern business problems through e-procurement is discussed and

concluded with legal infrastructure of e-commerce. At the end the course entails planning for e-commerce initiatives.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Discuss modern computing infrastructures from the perspective of the internet and organizations
CLO2	Explain theoretical and practical issues of conducting business over the internet and the Web
CLO3	Reflect on general principles revealed through practical exploration of specific tools, techniques and methods in e-business

Course Code: BBA 4106 **Course Title:** Tourism and Hospitality Management **Credits**: 3.00

Rationale of the Course:
Hospitality and Tourism marketing is distinct in its application in relation to other products and services marketing. The positioning and programming of inter related products and services affects end to end marketing of products and services in this industry. Industry dynamics dictate that marketers be involved in a wider range of activities to adorn themselves of the information required to successfully market products effectively, efficiently and sustainably. To gain an understanding of these activities, various theoretical assumptions are made based on practical examples that amount to significant insights that marketers can apply into successful campaigns. The major objectives of the course are to provide the student with an understanding and appreciation of the scope and importance of marketing in the tourism and hospitality business, familiarize the student with marketing perspectives, concepts, approaches and tools and to help the student manage hospitality marketing more effectively.

Course Content:
Definition, Tourist Typologies- Different forms of Tourism- Economic impact of Tourism, Understanding Tourism, Tourism Management, its components, Approaches to the study of Tourism. Introduction, Great Empires, The Middle Ages, The Renaissance, The Industrial Revolution and Tourism Today. Introduction, International Organizations, Developmental Organizations, Regional International Organizations, National Organizations, Regional Organizations, State and Community Organizations, Effects of Tourism on Individual, Family, Society, and State- Mass Vs Moral Tourism- Reasons for Travel- Cultural Consideration in Tourism- Socio- Cultural-Political Barriers in Tourism. Introduction, Travel Agents, Internet, Consolidators, The Tour Wholesaler, Specialty Channelers. Different Transportation Methods, Supply components of a Tourist Area- Measuring and Forecasting Tourist Demand- Planning Process for Tourism- Goals for Tourism Development- Political Aspects of Tourism Development- Development of Tourist Potential. Natural Environmental Attractions, Manufactured Attractions, Marketing of Rural and Urban Tourism- Marketing of different Attractions like Natural, Environmental and Manufactured Attractions. Introduction, Accommodations (The

Lodging Industry), The Food Service Industry, Tourism Life Cycle, Destination Marketing, Contemporary Avenues in Tourism.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Analyze the investment trends and hospitality development patterns of international hospitality firms.
CLO2	Identify emerging overseas markets for tourism and hospitality development.
CLO3	Understand the socio-economic impact of developing tourism industry in developing countries.
CLO4	Explore matters of interest related to hotel management and administration in all its dimensions.

Major Area in Accounting

Course Code: ACT 4201 **Course Title:** Management Accounting **Credits**: 3.00

Rationale of the Course:
The objective of the course is to enhance the abilities of students to develop the concept of management accounting and its significance in the business, to enhance the abilities of learners to analyze the financial statements, to enable the learners to understand, develop and apply the techniques of management accounting in the financial decision making in the business corporates.

Course Content:
Managerial Accounting and the Business Environment: Globalization, Strategy, Organizational Structure, Process Management, Theory of Constraints (TOC), Six Sigma, Process Reengineering; Ethics in Business Management: Code of Conduct for Management Accountants, Company Codes of Conduct, Codes of Conduct on the International Level, Corporate Governance: The Sarbanes-Oxley Act of 2002, Enterprise Risk Management: Identifying and Controlling Business Risks, Corporate Social Responsibility, The Certified Management Accountant (CMA)

Managerial Accounting and Cost Concepts: The Work of Management and the Need for Managerial Accounting Information: Planning, Directing and Motivating, Controlling, The End Results of Managers' Activities, The Planning and Control Cycle; Comparison of Financial and Managerial Accounting.
General Cost Classifications: Manufacturing Costs, Direct Materials, Direct Labor, Manufacturing Overhead, Nonmanufacturing Costs, Product Costs versus Period Costs, Cost Classifications on Financial Statements: The Balance Sheet, The Income Statement, Schedule of Cost of Goods Manufactured, Product Cost Flows, Cost Classifications for Predicting Cost Behavior, Cost Classifications for Assigning Costs to Cost Objects, Cost Classifications for Decision Making, Cases Analysis
Cost Behavior: Analysis and Use: Types of Cost Behavior STRATEGYs, Variable Costs, Step-Variable Costs, Fixed Costs: Types of Fixed Costs, Fixed Costs and the Relevant Range, Mixed Costs, Analysis of Mixed Costs: Diagnosing Cost Behavior with a Scatter graph Plot, The High-Low Method, The Least-Squares Regression Method, Multiple Regression Analysis, The Contribution Format Income Statement: Importance of Contribution Format Income Statement Format, The Contribution Approach, Cases Analysis.
Budgeting and Profit Planning: Framework of Budgeting, Essentials and Advantages of Budgeting, Responsibility Accounting, Human Factors in Budgeting, The Budget Committee, Preparing the Master Budget: Sales Budget, Production Budget, Direct Labor Budget, Manufacturing Overhead Budget, Cash Budget, Budgeted Income Statement, Budgeted Balance Sheet.
Flexible budgeting: Basic concepts– Determination of activity levels and costs there to– Analysis of the behavior of cost– Methods of segregating semi-variable costs into fixed and variable– Application and preparation of flexible budget– Flexible budget allowance.
Budgetary Control Practices followed in Government Institutions and Public Enterprises in Bangladesh.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	Define managerial accounting and explain the various cost concepts and philosophies including their applications in making effective plans and budgets.
CLO 2	Appraise the use of making organizational budgets and prepare various operational budgets for cost control and profit planning.
CLO 3	Evaluate the budgetary control practices in government institutions and public enterprises of Bangladesh.

Course Code: ACT 4202 **Course Title:** Corporate Financial Reporting and Professional Issues **Credits**: 3.00

Rationale of the Course:

This course is intended for students who will be involved in the preparation or use of corporate financial reports whether as accountants, financial executives, auditors, financial analysts, actuaries or legal advisors.

Course Content:

Introduction to international financial reporting standards, IASB conceptual framework, regulations, and corporate ethics. Preparation and presentation of financial statements (IAS-1, IAS-7, and IFRS-1) Statement of Cash Flows (IAS 7)Financial Instruments: Disclosures (IAS-32, IAS-39/IFRS-9) Accounting policies, changes in accounting estimates and errors (IAS 8). Events after the reporting period (IAS-10, IFRS-8), interim financial reports (IAS-34 and IAS 24). Procedures for information disclosures and regulation. Revenue and construction contract (IFRS 15)

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	Understand the international accounting standards, its development, and ethical issues;
CLO 2	Accustom with accounting policies, changes in accounting estimates and errors
CLO 3	Comprehend the preparation and presentation of financial statements and their contents in the ever-changing corporate environment;
CLO 4	Recognize the events after the reporting period and preparation of interim financial reports;
CLO 5	Appreciate the preparation of revenue statement and accounting for construction contract as well as assessing employee benefits;
CLO 6	Familiar with employee benefits and the related party disclosures.

Course Code: ACT 4203 **Course Title:** Accounting Information Systems **Credits**: 3.00

Rationale of the Course:
This course aims to provide students with an overall knowledge and understanding of accounting information systems and implications of their use in modern business. The course examines the application of accounting information systems in business particularly in supporting strategic and operational decision-making and operations. The course also covers information systems documentation techniques and how AIS are used to record and enable business processes and transaction processing. The course includes critical evaluation of internal controls, fraud, cybercrime and information system controls in a business. Contemporary issues including cyber security, big data and information management are also covered. Students also get hands-on experience on using cloud based accounting software, XERO and a relational database – Ms. Access.

Course Content:
Introduction to AIS, AIS development strategies
Integrated Accounting and Enterprise Information Systems
Introduction to Databases, AIS Business Processes, Systems documentation techniques
Payroll cycle, Revenue cycle, and Expenditure cycle & Controls
Introduction to Internal Control Systems; Computer Controls for AIS' and Organizations
Use of big data, data analytics and cloud solutions in accounting profession
Fraud, Ethics & Cybercrime; Technology concepts

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	Examine how AIS adds value to an organization, and its role in company strategy and decision making.
CLO 2	Apply the principles that support the design, implementation, and maintenance processes of an accounting information system to typical situations faced by practicing accountants.
CLO 3	Develop and use data flow diagrams and flowcharts to understand, evaluate, and document information systems.
CLO 4	Identify the business activities and information processing operations in the revenue, expenditure, production and human resources management (HRM)/payroll cycles, and general ledger
CLO 5	Identify the security and internal controls, fraud, cybercrime and information system particularly with the Internet and e-commerce environments.
CLO 6	Use cloud accounting system (XERO) and visual analytics software (SAS VA)

Course Code: ACT 4204 **Course Title:** Strategic Management Accounting **Credits**: 3.00

Rationale of the Course:

The main aims of the course are to raise participants' awareness to the best practices and latest developments in performance management accounting and to illustrate real-life uses of the changing nature of accountancy in the organization. Participants will be provided with an understanding of the strengths and limitations of accounting for performance, considering the behavioral and ethical aspects of management systems**.**

Course Content:

Strategic management information the changing business landscape in the 21st century the need for strategic management information and its uses Beyond the numbers: managing for value and strategic alignment. Analyzing performance in organizations: variances and their use and limitation, Decision making and value creation, Responsibility Center. Strategy, Activity Based Costing and Activity Based Management, Target costing: decisions and considerations. Balanced Scorecard and Strategic Profitability Analysis. Pricing, The Value Chain and its implications for organizational effectiveness, Lifecycle costing and customer profitability, Inventory Management, Just in Time, and Simplified Costing Methods, EOQ, Segment reporting.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Develop an understanding of the role of strategic management accounting in helping a firm pursue its strategic objectives and decision making.
CLO2	Develop skill in technical analysis of strategic management accounting issues.
CLO3	Understand the nature and different levels of business strategy and the important role played by management accounting in supporting each level.

CLO4	Apply strategy mapping and balanced scorecard in an organization's strategic management system
CLO 5	Explain how to integrate conventional and contemporary management accounting techniques into a strategic management accounting framework.

Course Code: ACT 4205 **Course Title:** Governmental Accounting **Credits**: 3.00

Rationale of the Course:
In this course students learn about accounting and reporting requirements used by government entities. The class focuses on the categorization of the major government fund types and the terminology associated with Governmental Accounting Standards Board (GASB) and Generally Accepted Accounting Principles (GAAP).

Course Content:
Fund Accounting, Accrual Basis in Governmental Accounting, Budgeting, Budgetary Control and Budgetary Reporting. Accounting for General Funds, Special Revenue Funds and Classification of revenue and expenses, Accounting for Enterprise Funds, Internal Service Funds, Trust and Agency Funds. Budgeting Procedure, Role of Public Accounts Committee (PAC). Accounting for Debt Servicing of the Government of Bangladesh and of Public Sector (PS) Corporations, Nationalization Order and Creation of PS firms in 1972, by 36 Corporations like BTMC, BCIC, BSEC etc. PS companies like Sonali Bank Ltd, NWPGCL, APSCL etc. Reporting Systems of PS firms. Accounting Systems and Process of Not-for-profit Organizations: Dhaka Municipal Corporation, Dhaka University and Other Non-Profit organizations

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	Understand and explain the concepts used in Governmental Accounting

CLO 2	Interpret the financial report as well as design and operate the accounting systems of governmental units and other non-profit entities, apply the GAAP in fund accounting.
CLO 3	Develop and design a good control over governmental expenditure.

Major Area in Finance

Course Code: FIN 4201 **Course Title:** Capital Investment Decision **Credits**: 3.00

Rationale of the Course:

The objective of the course is to provide students with necessary information about making Capital Investment Decision on different projects. After completing the course the student will be able to make different decisions based on investment analysis.

Course Content:

Introduction to Capital Investment Decision: Concept of Capital Investment Decision, significance of capital investment, elements capital investment analysis.

Capital Budgeting: Concept of Cash Flow, components cash flow, determination of cash flow, Capital budgeting and cash flow principles, capital budgeting techniques, incremental cash flows, NPV profile, problems of IRR.

Risk Management: Risk, Risk Uncertainty, Types of Risk, components of risk, definition of return, types of return, SML, CML, CAPM, APT.

Cost of Capital and Capital Structure: Definition of Cost of Capital, some concept to castoff capital, components cost capital, the weighted marginal cost of capital, investment opportunities schedule, Introduction To Capital Structure, Financial Structure, optimal capital structure, Assumptions And Definitions Modigliani-Miller (M-M) model.

Lease Financing: elements lease financing, types of lease financing, tax effect on lease financing.

Corporate Restructuring: Overview of Merger and Acquisition, Merger and Acquisition, Strategy Development, Developing Takeover, Strategies and the Impact on Corporate

Governance, Accounting for Mergers and Acquisitions and Financial Analysis, Alternative Approaches to Valuation.
Working with Financial Statements: Financial ratios to assess performance, performance evaluation, performance comparison, preparing pro forma financial statements.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Providing-in-depth view of the processing capital investment decision of the firm.
CLO2	Develop knowledge on allocation, management and funding of financial resources.
CLO3	Improving students understanding the capital budgeting, cost of capital concept and the risk and uncertainties of managers in current competitive business scenarios.
CLO4	Enhancing student's ability in dealing short-term with day-to-day working capital decisions; and also longer-term dealing, which involves major Capital Investment Decision and raising long-term finance.

Course Code: FIN 4202 **Course Title:** Financial Institutions and Market **Credits**: 3.00

Rationale of the Course:
We all know that financial markets finance much of the expenditures by corporations, governments, and individuals. Moreover financial institutions are the key intermediaries in financial markets because they transfer funds from savers to the individuals, firms, or government agencies that need funds. So after completing the course the student will be able to know different financial securities operating in different countries, Overall interest rate structure, Term structure, Valuation of different securities, Derivatives markets etc.

Course Content:
Financial institutions, how it works, Types of financial institution, Financial intermediaries Financial instruments and it's types, Importance of Financial institution, Financial assets and liabilities, Role of financial institutions in an economy Overview of Financial System of Bangladesh, Regulator of Financial Systems, Financial market, Classification of financial markets, Instruments, Role of government in financial markets, Fin- Tech. Mechanics of monetary policy, Trade off in monetary policy, Interest rate determination, Factors that affect interest rate, Forecasting interest rate, Introduction to the concept of banking, origin of banks, Importance of banks in an economy, Features and objectives of a bank, Bank management, Types of banks, Recent banking trends and overview of Bangladesh banking industry, Bankruptcy and financial distress: what is bankruptcy, indicators of a distressed bank, prediction of bank failure? Loanable fund theory, Aggregate demand of loanable fund Household demand for loanable fund Government demand for loanable fund, Foreign demand for loanable fund Insurance Companies, Investment Companies and Exchange-Traded Funds Capital and

asses requirement of insurance companies and Banks, Properties and Pricing of Financial Assets Financial asset versus physical asset.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Achieve knowledge and professional skills to develop a career in financial sectors in Bangladesh.
CLO2	Understand and analyze the overall knowledge of the Financial Market, Financial Institution and its' working procedure
CLO3	Equipped with knowledge of different financial securities operating in financial market like share, bond, derivatives, and securities.
CLO4	Know the valuation of different securities so that they can take financial decision
CLO 5	Research and analyze specific problems or issues related to financial markets and institutions.

Course Code: FIN 4203 **Course Title:** Corporate Finance **Credits**: 3.00

Rationale of the Course:

This course presents the foundations of finance with an emphasis on applications vital for corporate managers. We discuss most of the major financial decisions made by corporate managers both within the firm and in their interactions with investors. Essential in most of

these decisions is the process of valuation, which will be emphasized throughout the course. Topics include criteria for making investment decisions, valuation of financial assets and liabilities, relationships between risk and return, capital structure choice, payout policy, the effective use and valuation of derivative securities (futures, options, and convertible securities), and risk management.

Course Content:

Introduction: Review of financial tools Valuation basics Time value of money Inflation Cash flows Effects of accrual accounting Free cash flow

Cash flows: Examples Capital budgeting Incremental project cash flows Net present value and others

Cost of Capital: WACC; without and with taxes, Divisional WACC Capital structure I: Perfect market Proposition I: WACC Proposition II: Cost of equity Business and financial risk unlevered beta

Capital structure: Imperfect market WACC with taxes WACC with bankruptcy costs incorporating changes in leverage Value of levered firm. Capital structure puzzle

Raising Capital: IPOs Private equity market Rights Corporate bonds

Mergers and acquisitions: Forms of acquisitions Synergy and coinsurance effects financing acquisitions Empirical evidence.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the basic concept underlying related essentials of corporate financial structure and its management.
CLO2	Understand how investment and financing decisions impact the value of a firm.
CLO3	Apply various corporate financial theory related to corporate restructuring and reengineering.
CLO4	Analyze a firm's financial statements and value the firm. Analyze business problems and identify the ethical aspects, provide a solution and defend it.
CLO5	Evaluate corporate projects and make decisions based on financial data, Evaluate alternative solutions to business problems in various settings.

Course Code: FIN 4204 **Course Title:** Portfolio Management **Credits**: 3.00

Rationale of the Course:

This course will make the students understand the concept of Portfolio Management and will enable students make understand about efficient frontier. This course also provides understanding about the

overall investment process. The course also covers the wide area of stock market investment procedures and enables students to construct efficient frontier.

Course Content:

Investment Defined, Investment Risks; Measures of Return and Risk, Determinants of Required Rate of Return, Relationship between Risk and Return, Business Investment and Financial Investment. Financial Markets, Difference Between Primary and Secondary Markets, Organized Exchanges for Common Stock and Bonds Organized Exchanges for Options, Organized Exchanges for Future Contracts, Over-the-Counter Market, Types of Orders, Sources of Investment Information. Alternative Efficient Market Hypothesis - Weak Form; Semi- strong Form and Strong Form Efficient Market Hypothesis, Efficient Capital Market vs. Perfect Capital Market. Valuation of Securities, Theories of Share Valuation - Fundamental Theory; Technical Theory, Random Walk Theory, Bond Valuation and Preferred Stock Valuation. Valuation of Complex Securities: Options, Factors Determining the Option Value, Valuing Options Using the Black - Scholes Framework, Valuation of Warrant, Valuation of Compulsory Convertible (Partly or Fully) Debentures, Valuation of Optionally Convertible Debentures. Valuation of Warrant, Valuation of Compulsory Convertible (Partly or Fully) Debentures, Valuation of Optionally Convertible Debentures. Portfolio Management: Virility Theory: Attitude toward risk; Portfolio; Efficient Seer and Efficient Portfolio, Markowitz Diversification, Portfolio Return and Risk - 2-assets case and n-assets case The Efficient Frontier and Investors' Virility, Single Index and Multi-Index Models for Variance Measurement of Portfolio, Portfolio Management and its Objectives. Wealth Maximization Model. Total, Systematic and Unsystematic Risk, Capital Marker Line, Capital Asset Pricing Model Alternative pricing model: Arbitrage Pricing Model. Portfolio Performance Measures, Trainer Measure; Sharp Measure; Jensen Measure, Application of Performance Measures, Reliability of Measurement. The Portfolio Management Problem -Individual Limitations, Investment Companies - an Alternative Solution; Open-End vs. Closed-End Funds, Types of Investment Companies Based on Portfolio Makeup, Performance of Investment Companies.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO 1	Understand the overall investment procedure, risk and returns associated with it.
CLO 2	Understand the instrument of different types of investment and markets.
CLO 3	Analyze the method of designing Portfolio.
CLO 4	Identify the optimal portfolio and construct Efficient Frontier.
CLO 5	Select and revise the portfolio alongside measuring performance of the portfolio.

Course Code: FIN 4205 **Course Title:** International Finance and Banking **Credits**: 3.00

Rationale of the Course:

This course offers a structured and integrated approach to studying international finance and banking beginning with a comprehensive understanding of the economic and business environment in which finance professionals operate, through to the application of technical and strategic concepts and frameworks. It provides an introduction to the theory of financial markets with an emphasis on corporate governance and financial regulation.

Course Contents:

Multinational Financial Management: Goal and organizational structure of the MNC, the key theories that justify international business, common methods used to conduct international business, valuation of MNCs and uncertainty of MNCs. International Flow of Funds: BOP and its components, growth in international trade activity over time, international trade flows and influential factors. international capital flows and country characteristics. International Financial Markets: foreign exchange market, international money market, international bond market, international stock markets. Exchange Rate Determination: Exchange rate, its measurement, movement of exchange rate, explain how the equilibrium exchange rate is determined, factors that affect the equilibrium exchange rate. Government Influence on Exchange rates: Exchange rate systems, government intervention in the foreign exchange market can affect economic conditions. Measuring Exposure to Exchange Rate Fluctuations: Relevance of an MNC's exposure to exchange rate risk; measuring economic exposure, transaction exposure and steps of reducing risk

Course Learning Outcomes and mapping of CLOs with Program Learning Outcome (PLOs)-

CLO1	Identify the management goal of international financial operation and explain the common methods used to conduct international finance and banking.
CLO2	Explain the growth in international trade and banking activity over time and evaluate how international capital flows are influenced by economic factors and other factors.
CLO3	Analyze foreign exchange and international money market, examine how the equilibrium exchange rate is determined.
CLO4	Evaluation the impact of government's intervention on foreign exchange market and exchange rate.
CLO5	Understand the relationships among inflation, interest rates, and exchange rates and applying the acquired knowledge regarding the exchange rate fluctuation

Major Area in Management

Course Code: MGT 4201 **Course Title:** Industrial Relations **Credits**: 3.00

The rationale of the Course:

This course offers a multidisciplinary, theoretical and practical introduction to some key concepts, processes, practices and debates associated with employment relationships in organization. By the end of the course, Students should have an understanding of the key participants in any industrial relations system – workers, employers, trade unions, employer organizations and the state – and how they interact, sometimes cooperatively and sometimes in conflict. Adopting a robust and critical approach will always seek to assess how this wider context affects the perennial concerns of managers and employees in their day-to-day activities in the workplace.

Course Content:

Objective, Scopes, principles of industrial relations: Definition, Objectives and Scopes of Industrial Relations- Significance of Industrial Relations- Causes of Poor Industrial Relations- Objectives of Industrial Relations- Approaches to Industrial Relations- Principle and Role of Industrial Relations

Role of trade unions in maintaining Industrial Relations: Principles of Good Industrial Relations- Role of state in industrial relations- Role of management in industrial relations- Role of trade unions in maintaining industrial relations- The labor management synergy- Planning Industrial Relations: Tasks Ahead

Trade Unionism: Meaning of Trade Union, Organized Labor and Labor movement- Difference between Labor Movement and Trade Union Movement- Need for Trade Union- Functions of Trade Unions- Functions relating to trade union members

Trade Union Functions: Functions of Trade Unions - Functions relating to industrial organization- Functions relating to trade unions organization- Functions relating to society- Problems of Trade Union Multiplicity of trade unions- Financial weakness- Problems of recognition of trade unions- Politicization of the unions

Government, Labor Union, and International Trade Union: Recommendations of Government on Labor for Strengthening Trade Unions- Improvement of financial condition- World Federation of Trade Unions (WFTU)- International Confederation of Free Trade Unions (ICFTU)- International Labor Organization (ILO)

Industrial Disputes: Concept of Industrial Disputes- Causes and Forms of disputes- Voluntary Methods for solving industrial dispute- Types of Strikes: Lockout, Gherao, Hartal, Blockade; Code of discipline.
Dispute solving through Workers' participation: Collective bargaining- Works committees- Conciliation- Voluntary arbitration- Court of enquiry- Adjudication
Grievances Handling: Areas of Grievances- Methods of Identifying Grievances- Principles or Guidelines for Grievance Handling- Steps in handling grievances- Grievance handling procedures.
Employee Discipline: Employee Discipline- Aims and objectives of Employee Discipline- Causes for indiscipline in organizations- Principles of Effective Discipline- Approaches to Discipline Enforcement- Code of Discipline.
Collective Bargaining: Concept of Collective bargaining- Collective bargaining as a process of social change- Principles of Collective bargaining- Importance of Collective bargaining- Forms of Collective Bargaining- The Contents of Collective Bargaining Agreements- Process of Collective Bargaining.
Workers' Participation in Management: Workers' Participation in Management- Objectives of Workers' Participation in Management- Levels of Workers' Participation in Management- Forms of Workers' Participation in Management- Workers' Participation in Management in Bangladesh.
Wage Administration and Industrial Relation: Provision of minimum wages in sweated industries- Wage Regulation Machinery- Evaluation of wage boards.
Employee Communication: Methods of Communication- Forms of Organizational Communication- Barriers in communication- Solutions for the barriers of communications
Employee Safety, Security training, education and Accidents: Industrial Safety Inspections- Investigation of accidents- Measurement of industrial safety- Employee Counseling for safety and safeguard, Compliance, Ensuring compliance.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the objective, scope, principles, and role of industrial relations
CLO2	Analyzing trade unionism, trade union functions, industrial disputes
CLO3	Know about conflict management strategies: grievance handling, employee discipline, industrial collective bargaining, Workers' Participation in Management
CLO4	Developing the concepts of wage administration, Employee Communication, employee health, security, safety, training, and education

Course Code: MGT 4202 **Course Title:** Comparative Management **Credits**: 3.00

Rationale of the Course:

This course will help students to gain insights regarding economic, cultural, political, managerial similarities and differences among different nations around the world. Students will learn about Asian management, Japanese Management, American Management, Western European Management, English Management and compare all managerial perspectives with Bangladeshi Management.

Course Content:

Introduction to Comparative Management: Definition of Comparative management- nature of comparative management- difference between comparative management and international management- reasons for studying comparative management, nature of comparative management- objectives of comparative management- management and administration- difference between management and administration- similarities of management and administration- comparative management is the study and analysis of management in different environment- universality of management- are management function universally applied among countries

Culture in Management: Definition of culture- features of culture- components of culture- Hofstede's cultural dimension- societal culture and management- cross cultural management- cross cultural management skills- dimensions of cross cultural variation- high versus low context culture- global environmental STRATEGYs and trends- 21st century workplace- Management is cultured bound- organization versus national culture- influence of national culture on organizational culture- cultural divergence and convergence. Managing cultural diversity- ethnocentric- polycentric and geocentric management design and their differences.

Asian Management: Chinese (sintic) cultural tendencies- political and legal setting in Chinese and Korean management- features of east Asian (Tiwan, Singapore- Hong kong and south korea) culture, economic STRATEGY and trends and political environment- sixteen principle of good business in a yang and yin management- Confucian philosophy in management- manager in Confucian zone.

US Management: Political and legal environment of US- US economic system- sociocultural tendencies of US- characteristics of contemporary US CEO- Profiles of US CEO (Family and professional), managerial tendencies- distinctive features of US managerial culture- Theory Z- similarities in Japanese and US leadership style.

Japanese Management: Japanese political system- legal system, economic system- prevalent Japanese sociocultural STRATEGY and tendencies- salient features of Japanese management style- organizing and directing system of Japanese management- career paths and pay policy of Japanese senior managerial position- difference between south Korean chaebol and Japanese keiretsu- planning and control process of Japanese manufacturing firms- motivation policy of Japanese manager- comparison between Japan and Bangladesh- Japanese management system- implication of Japanese motivation and leadership practices in Bangladesh.

Western European Management: Distinctive features of western European macro environment (demographic, political, economic, socio-cultural, education), management of western EU- Models of Western European management (region socio market system), Employer and employee relation of western Europe- difference between western need hierarchy and Chinese need hierarchy- western European manager- distinctive management function of western Europe- high context and low context culture of western Europe.

English Management: Management system in England, Characteristics of English management, resource utilization in England, English versus Bangladeshi management, exchange.
German management: Economy of Germany- politics and policies in Germany- Culture of Germany- codetermination and Germany: gradual evolution, structural codetermination. Features of codetermination, methods transmission.
Bangladeshi Culture & Management: Management system of Bangladesh, features of Bangladeshi management- Ethnocentric- Polycentric and Geocentric in respect of organizational design- organizational system in third world countries- comparison of Bangladeshi and Indian management- difference between management system of Bangladesh and UK management culture of Bangladesh.
Comparative study of various theories: Comparative study of various motivation theories of management-Comparative study of various leadership theories of management.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the concept of Comparative Management, culture in Management
CLO2	Analyzing Asian, American, Japanese, Western European, English, German culture, economy, management system and practices
CLO3	Know about Bangladeshi culture, economy, Management system and Practices
CLO4	Developing the Comparative study of various motivation and leadership theories of management

CLO1	Understand the concept of Comparative Management, culture in Management
CLO2	Analyzing Asian, American, Japanese, Western European, English, German culture, economy, management system and practices
CLO3	Know about Bangladeshi culture, economy, Management system and Practices

CLO4	Developing the Comparative study of various motivation and leadership theories of management

Rationale of the Course: Students will learn how to identify organizational problems, to design effective interventions to solve these problems. This course also helps them to bring required changes in the organizational structure, strategy and system to ensure overall development of an organization.

Course Content:

Introduction: Organization-Management-Organization and Management Development Defined - Short History of Organization Development- Future of Organization Development.

Nature of Planned Change in Organization: Theories of Planned Change-General Model of Planned Change-Positive Model of Planned change-Action Research Model of Planned Change-Curt Lewin's Model of Planned change-Different Types of Planned Change-Critique of Planned Change.

OD Practitioners: Who is the OD practitioner?-Competencies of an Effective OD Practitioner-The Professional OD Practitioner-Professional Values-Professional Ethics-Internal VS External OD Practitioner-Required Skills of an OD practitioners- Costs of Hiring OD Practitioners-Advantages and Disadvantages of Internal OD Practitioners- Advantage and Disadvantage of External OD Practitioners

The Process of Organization & Management Development: Entering and Contracting-Steps of entering and Contracting- Diagnosing- Collecting-Tools of Collecting Data for Diagnosing Analyzing-Quantitative Methods of Analyzing Data-Qualitative Methods of Analyzing Data- Feeding

Course Code: MGT 4203 **Course Title:** Organization and Management Development **Credits**: 3.00

Back Diagnostic Information-Characteristics of an Effective Feedback -Designing Interventions-Contingent Factors That Can Affect Intervention Success-Situational Factors That Can Affect Intervention Success- Managing Change- Evaluating and Institutionalizing Organization Development Interventions- Cases.

Human Process Interventions: Key targets of OD Interventions-Process Consultation-Third Party Intervention-Team Building- Schein proposes Ten Principles to Guide the Process Consultant's Actions-Interpersonal and Group Process Approaches-Process Intervention-Content Intervention-Structural Intervention- Organization Process Approaches- Intergroup Relation-Large Group Interventions-Organization confrontation meeting - Career Planning and Development Interventions.

Techno Structural Interventions: Restructuring Organization-Designing Structure-Contingencies Influencing structural Designing-Downsizing-Structural Designs- Employee Involvement- Work Design- Employee involvement- Types of employee involvement intervention-Functional Structure-Divisional Structure-Matrix Structure-Process Structure-Customer Centric Structure-Network Structure-Formation of Various Organizational Structures-Similarities among Different Structures-Differences among Organizational Structures-Criteria to Choose a Suitable Structure for a Particular Organization.

Human Resource Management Interventions: Performance Management- Talent Management-Workforce Diversity and Wellness- Coaching and Mentoring-Application Stage of Coaching-Results of Coaching and Mentoring- Employee Stress and Wellness Interventions- Management and Leadership Development Interventions-Career Planning and Development Interventions-Goals-Stages of Career Planning and Development- Workforce Diversity Intervention.

Strategic Change Interventions: Transformational Change-self Designing Organization-Learning Organization- Continuous Change- Integrated strategic Change- organization Change-Culture Change-Trans organizational change-strategic alliance Intervention-Network Intervention.

Evaluating and Institutionalizing Organization Development Interventions: Evaluating Organization Development Interventions-Institutionalizing Organizational Changes.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the key concepts, theories, short history and future of organization and management development

CLO2	Analyze the theories of planned change to solve identified problems and to boost managerial performance
CLO3	Evaluate the roles of OD practitioners to get concrete idea of internal and external consultants
CLO4	Analyze the key steps of organization and management development to implement and stabilize the change in the organization
CLO5	Understand the key dimensions of techno-structural, human process and human resource intervention to bring and stabilize planned change
CLO6	Evaluating the institutionalized changes in the different organizational levels and phenomena to increase financial and managerial performance of an organization

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**

CLO6	Lecture, Analysis of academic texts, cases, and examples, Group Discussion	Test

Course Code: MGT 4204 **Course Title:** Management Thought **Credits**: 3.00

Rationale of the Course: Students will be equipped with different schools of management along with their application in diversified organizational situations. These courses educate students how to make better decisions in a variety of scenarios, whether proactive or reactive. They will learn how to make decisions in the right way.

Course Content:

Origin and Development of Management: Industrial Revolution and Management-Management as a profession-Scientific Method and Management Science-Management as a science-Management as a an Art-Manager VS Leader- Management VS Administration-Effectiveness VS Efficiency-Levels of Management-Required Skills of a Manager-Differences Between Manager and Non-Manager-Characteristics of a Successful Manager-Roles of a Manager In an Organization- Management in 21st century-Challenges of a Manger in 21st Century.

Contribution of Henri Fayol to Management: Functions of Management- Activities of a Company-Qualities of a Successful Manager-14 principles of a Management-General Principles of Management- Administrative Management-Scientific Management.

Contribution of F.W. Taylor in the Field of Management: Understanding Taylorism and Early Management Theory-Historical Perspective of Scientific Management-Four Principles of Scientific Management-Critiques of Taylorism- Differential Wage Rate System- Piece Rate system-Time rate System-Time Study-Motion Study-Limitations Of Scientific Management.

Contribution of Behavioral Scientists: Hawthorne Studies Experiment-Illumination Experiment-Relay assembly Test Room Experiment-Massive Interviewing Program Experiment-Bank Wiring Observation Room Experiment-Outcomes Hawthorne Studies-Criticism of Hawthorne Studies-Need's Hierarchy Theory- Theory X,Y- Equity Theory-Two Factor Theory-Theory Z-Introduction to the works of Argyris-McGregor-Likert-Equity Theory-Acquired Needs Theory-ERG Theory-Expectancy Theory-Application of Various Motivation Theories-Criticism of Various Motivational Theories.

Contribution of Systems scientists: Noteworthy Contribution of System Scientist-management as a System-Management as an Open System-Business manager and public administration-Models-Formal and informal organization.

Different Schools of Management: The Management Process School-The Empirical School-The Human Behavior School-The Social System School-The Decision Theory School-The Mathematical School-The System Management School-The Contingency School-Scientific Management School-Organizational School-Behavioral School-Quantitative School-Integration School-Contemporary School-Bureaucracy School of Management-Management Theory Jungles-Problem Semantics.

Management in Developing countries: Management in developing countries with special reference to Bangladesh in the light of different schools of management thought-Effects of colonialism-Planned economic development and management-socio cultural influence.

Management in Bangladesh: Management development institutions in Bangladesh- Management Practices in Public sectors of Bangladesh-Management Practices in Private Sectors in Bangladesh-Limitations of Management Practice In Bangladesh.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the evolution and development of management theories and principles.
CLO2	Analyzing the contribution of different management scholars.
CLO3	Evaluate the contribution of behavioral and systems scientists in the evolution of management.
CLO4	Understand and Apply management theories and schools to solve contemporary problems of an organization that uplift the managerial and financial performance of an organization.
CLO5	Create new management framework on the basis of their entire understanding on management thoughts to enrich managerial decision making process and business performance.

Course Code: MGT 4205 **Course Title:** Total Quality Management **Credits**: 3.00

Rationale of the Course:
This course helps identify skills deficiencies in employees, along with the necessary training, education or mentoring to address those deficiencies and to boost quality of product by confirming customer satisfaction and employee involvement. With a focus on teamwork, TQM leads to the creation of cross-functional teams and knowledge sharing.

Course Content:
Introduction: Definitions- Basic Concepts- TQM Framework- Evolution of TQM and Contributions of Quality Gurus – Total Quality and Traditional Management Practices- Traditional Organizational Culture vs. TQM Culture- Suggested Ways of Transforming Organizational Culture Into TQM Culture- Benefits of TQM- Obstacles to TQM; Top Management Commitment and Leadership: Top Management Commitment: Concept, Indicators-Organizational Leadership: Concepts, Nature-Characteristics of Quality Leaders-Leadership Styles and Leadership Style in a Total Quality Setting-The 7 Habits of Highly Effective People- Total Quality and Ethics- The Deming Management Philosophy-The Juran Philosophy- The Crosby Philosophy- Quality Council- Core Values, Concepts and Framework- Organizational Structures for TQM - Quality Statements- Strategic Management: Planning and Execution- Communications- Decision Making and Problem Solving; Customer Satisfaction: Introduction- Who is the Customer- Customer Perception of Quality- Feedback- Using Customer Complaints- Service Quality; Employee Involvement: Motivation- Employee Surveys-Empowerment- Teams-Suggestion System- Recognition and Reward- Gainsharing- Performance Appraisal- Unions and Employee Involvement- Benefits of Employee Involvement; Continuous Process Improvement: Concept-Process- The Juran Triology- Improvement Strategies-Types of Problems-The PDSA Cycle- Problem-Solving Methods- Reengineering, Six-Sigma: A Quality Management Tool for Process Improvement; Supplier Relationship: Concept- Principles of Customer/Supplier Relations- Partnering- Sourcing- Supplier Selection – Supplier Certification-Supplier Rating - Relationship Development; Performance Measures: Basic Concepts- Strategy-Quality Costs- Malcolm Baldrige National Quality Award; TQM Tools and Techniques: Benchmarking: Definition, Reasons, Process-Information Technology: Concepts, Techniques,

Information Quality Issues- Statistical Process Control: Introduction, Pareto Diagram, Process Flow Diagram, Cause-and-Effect Diagram, Check Sheets, Histogram, Statistical Fundamentals- Control Charts, Scatter Diagrams-Quality Management System/Quality Certification Systems and Environmental Management System (EMS): International Organization for Standardization (ISO), Emergence of ISO, Membership of ISO, Benefits of ISO Standards, ISO 9000 Standards, ISO 9000:2000 Standards, ISO 9001 Requirements, ISO 14000 Series of Standards, Concepts of ISO 14001, Requirements of ISO 14001, Integrating ISO 14000 with ISO 9000, Benefits of EMS, Implementation, Documentation, ISO Certification Procedure in Bangladesh, Limitations of BSTI on ISO in Bangladesh-Quality Function Deployment: Concept-Characteristics, Benefits, Process.-Quality by Design: Concept, Rationale for Implementation, Benefits-Tools- Brainstorming and some other Management Tools-Internal Politics and Total Quality; Implementation of TQM: Requirements for TQM Implementation, Implementation Phases to be considered.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the concepts, frameworks, gurus, benefits and culture of TQM
CLO2	Analyze the top management commitment to institutionalize the designed framework to keep control on product quality
CLO3	Evaluate pros and cons of customer satisfaction and employee involvement to get supports from these two major stakeholders of a firm
CLO4	Understand the key concepts of continuous process improvement, supplier relationship and measurement techniques to boost product's quality by minimizing cost
CLO5	Apply the tools, frameworks and globally recognized techniques of TQM to improve product quality by ensuring customer satisfaction and employee involvement

Major Area in Marketing

Course Code: MKT 4201 **Course Title:** Marketing Research **Credits**: 3.00

Rationale of the Course:
This course is designed to introduce students to the research methods that can be used in most marketing research to solve problems related to strategic marketing, services marketing, branding, promotion management, and consumer behavior. The areas that will be covered include, introduction to the research process, type of research, research design, measurement, sampling, data collection, analysis, interpretation, and report writing.

Course Content:
Definition of Marketing Research, Classification of Marketing Research, Marketing Research Process, Role of Marketing Research in MIS and DSS. The Tasks Involved in Defining Problem, Management Decision Problem and Marketing Research problem, Broad Statement, Specific component of the Problem, Developing an Approach to the Problem. Definition and Classification of Research Design, Classification of Research Design, Exploratory, Descriptive, and Causal Research. Classification of Marketing Research Data, Qualitative vs. Quantitative Data, Focus Group Interviews, Depth Interviews, and Projective Techniques. A Classification of Survey Methods, Observation Methods: Observation Methods Classified by Mode of Administration, A Comparative Evaluation of Observation Methods, A Comparison of Survey and Observation Methods. Experimentation Concept of Causality, Conditions for Causality, Validity in Experimentation, Extraneous Variables, A Classification of Experimental Design, Limitations of Experimentation. Primary Scales of Measurement, Comparative Scaling Techniques, Non-comparative Scaling Techniques, Reliability and Validity; Relationship between Reliability and Validity. Questionnaire Design Process: Overcoming Inability to Answer, Overcoming Unwillingness to Answer, Choosing Question Structure, Choosing Question Wording, Determining the Order of Questions; Form and Layout, Reproduction of the Questionnaire, Pretesting; And Observational Forms. The Sampling Design Process, A Classification of Sampling Techniques, Determining Sample Size. Statistics Associated with Frequency Distribution, A General Procedure for Hypothesis Testing, and Cross-Tabulation in Practice. Overview of One-Way ANOVA, Statistics Associated with ANOVA, ANOVA in SPSS. Correlation in SPSS, Regression in SPSS. Importance of the Report and Presentation, Report Format and Report Writing.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Provide a comprehensive theoretical knowledge of marketing problems and research.
CLO2	Understand the framework of the business research process.
CLO3	Develop an understanding of research design and techniques.
CLO4	Conduct basic qualitative and quantitative research.
CLO5	Equip the students for scholarly writing and evaluate the report.

Course Code: MKT 4202 **Course Title:** International Marketing **Credits**: 3.00

Rationale of the Course:

International marketing is important as the world becomes increasingly globalized. In an international context, marketing managers plan and conduct transactions across borders to create exchanges that satisfy the objectives of individuals and organizations. The fact that a transaction takes place "across national borders" highlights the difference between domestic and international marketing. The course considers the basic concepts of international marketing, the various activities necessary for international marketing planning, the beginning of international marketing activities to be conducted by a domestic firm, and relevant issues on strategy and marketing management relevant to expanded global operations.

Course Content:

Concept of international Marketing Definition of international marketing. Distinguish between international marketing and domestic marketing, the importance of international marketing, International Marketing Environment. International Social & culture Environment, the political legal environment and regulatory environment of international marketing. Technological Environment.

Assessing global market opportunities. Scope of international marketing research, international marketing research process, problems of international marketing research. Developing global market strategies. International theory: absolute cost advantage theory, opportunity cost theory

Comparative or relative cost theory, difference between classical theory and modern theory.

International Marketing channel, pricing , communication

International pricing: pricing objectives, parallel imports, approaches to international pricing.. International marketing channels, distribution structures, some of the factors influencing channel decisions in international market, challenges in managing an international distribution strategies, management of physical distribution of goods:

Implementing global Marketing strategies. Negotiating with international customers, partners, and regulators, the dangers of stereotypes, the pervasive impact of culture on negotiation behavior, differences in language and nonverbal behaviors.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Gain a solid understanding of the theoretical and conceptual principles of global marketing
CLO2	Provide the knowledge and skills necessary in managing organizational resources in developing a global marketing strategy
CLO3	Identify and discuss different cultures and the implication this has for marketers
CLO4	Understand how to develop and manage a strategic international perspective

Mapping of Course Outcomes to Program Outcomes-

Course Code: MKT 4203 **Course Title:** Strategic Marketing and Consumer Behavior **Credits**: 3.00

Rationale of the Course:

This module will give the basic concept of marketing and consumer behavioral arenas in the organization. From this module, students will be able to understand the several marketing and consumer behavioral aspects of today's world so that they can utilize this in future endeavors.

Course Content:

Introduction: Definition of Strategic Marketing, Market Driven Strategy, Characteristics of Market Driven Strategy, Difference between Market Driven and Market Driving Organization, The Scope of Marketing

Marketing Concepts and Demand Management: Core Marketing Concepts, Various States of Demand and Marketing Strategies Applicable at Each State, Marketing Management Orientations, Marketing 4.0

Corporate and Marketing Strategy: Definition of Corporate Strategy, Components of Corporate Strategy, Definition of Marketing Strategy, Marketing Strategy Process, BCG Matrix, Ansoff Matrix, Porter's Generic Strategies, Marketing Plan

Strategic Market Segmentation, Market Targeting & Strategic Positioning: Criteria and Bases of Segmentation, Market Targeting Strategies, The Positioning Process, Determining Positioning Effectiveness

Blue Ocean Strategy & Red Ocean Strategy: Red Ocean Strategy, Porter's Five Forces Model, Blue Ocean Strategy, Unique Characteristics of Blue Ocean Strategy, Six Principles of Blue Ocean Strategy, ERRC Framework

Market Driven Programs: 4P, 4C, 7P, Product Strategy, Pricing Strategy, Communication Strategy and Value Chain

Consumer Markets and Consumer Buyer Behavior: Definition of Consumer Behavior, Customer Versus Consumer, Characteristics affecting Consumer Behavior, Types of Buying Decision Behavior, The Buyer Decision Process, Individual differences in New Product Adoption

Consumer Motivation: Definition of Motivation, Motivation Process, needs (Innate Need & Acquired Need), Goals (Generic & Product Specific), Positive & Negative Motivation, Rational versus Emotional Motive, Maslow Need Hierarchy Theory, Substitute Goals, Frustration, Defense Mechanism, Arousal

Consumer Personality: Definition of Personality, Freudian Theory, Non-Freudian Theory, Trait Theory, Consumer Innovativeness, Dogmatism, Social Character, need for Uniqueness, Sensation Seeking, Variety Seeking, and Brand Personality

Perception & Attitude: Concept of perception, elements of perception, perceptual Selection, Selective Perception & Perceptual organization, Perceptual Interpretation, The attitude and attitude object, structural model of attitude

Learning and Experience: Behaviorist Versus Cognitive Learning Theory- Behavior Modification in Psychology and Marketing- Retention and Advertising Messages- Habit Formation and Brand Loyalty.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Explain and apply the key terms, definitions, and concepts used in the study of strategic marketing and consumer behavior.
CLO2	Critically and strategically evaluate the effectiveness of various advertisements and promotions and their attempts to influence the behaviors of individuals along with the marketing issues and provide recommendations to take effective decisions.
CLO3	Complete a project that demonstrates both their working knowledge and analytical skills in assessing the consumer decision-making process.
CLO4	Analyze the trends in consumer behavior, and apply them to the strategic marketing of an actual product or service to get competitive advantage.
CLO5	Prepare a professional logical and coherent report in the form of a strategic marketing plan.

Course Code: MKT 4204 **Course Title:** Service Marketing **Credits**: 3.00

Rationale of the Course:
Services' marketing introduces students to state-of-the-art research and practice in services marketing. This course emphasizes discussion of the field's most current services marketing concepts, principles, and theories. Application of services marketing concepts to actual business situations is through case analysis and outside projects.

Course Content:
What are Services? Why Service Marketing? But "Service Stinks", Service and Technology, Global Feature: The Migration of Service Jobs, The Paradoxes and Dark Side of Technology and Service, Characteristics of Services, Service Marketing Mix. The Gaps Model of Service Quality - The Customer Gap, The Provider Gaps, Listening Gap, Service Design and Standards Gap, Service Performance Gap, Communication Gap, Closing the Gaps. Service Expectations, Types of Expectations, What Are Customers' Expectations? The Zone of Tolerance, Factors that Influence Customer Expectations of Service, Issues Involving Customers' Service Expectations. Customer Perceptions– Customer Satisfaction– Service Quality– Service Encounters– Strategies for Influencing Customer Perceptions. Relationship Marketing– Relationship Value of Customers– Foundations for Relationship Strategies– The Customer is not Always Right– Customer Profitability Segments– Levels of Relationship Strategies. The Impact of Service Failure and Recovery, How Customers Respond to Service Failures, Why People Do (and Do Not) Complain, Types of Customer Complaint Actions, Types of Complainers, Service Recovery Strategies: Fixing the Customer, Service Recovery Strategies: Fixing the Problem, Service Guarantees, Characteristics of Effective Guarantees, Types of Service Guarantees, Benefits of Service Guarantees, When to Use (or Not Use) a Guarantee. Challenges of Service Innovation and Design, Important Considerations for Service Innovation, Types of Service Innovation, Stages in Service Innovation and Development. Factors Necessary for Appropriate Service Standards, Types of Customer-Defined Service Standards, Development of Customer-Defined Service Standards. Physical Evidence, Types of Services capes, Strategic Roles of the Services cape, Framework for Understanding Services cape Effects on Behavior, Guidelines for Physical Evidence Strategy. Service Culture, The Critical Role of Service Employees, Boundary-Spanning Roles. The Underlying Issue: Lack of Inventory Capability, Capacity Constraints, Demand STRATEGYs, Strategies for Matching Capacity and Demand. Three Key Ways that Service Prices are Different for Customers, Approaches to Pricing Services, Pricing Strategies That Link to the Four Value Definitions.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand and explain the nature and scope of services marketing and present about this in a professional and engaging manner
CLO2	Provide a theoretical and practical basis for assessing service performance using company examples and report on this in a professional, logical and coherent way
CLO3	Identify and discuss characteristics and challenges of managing service firms in the modern world including cultural implications;
CLO4	Application of services marketing concepts to actual business situations is through case analysis and outside projects.

Course Code: MKT 4205 **Course Title:** Strategic Brand Management **Credits**: 3.00

Rationale of the Course:

The course will focus on providing students with the skills and knowledge required to develop and execute a successful brand strategy by understanding how to build, measure, and manage brand equity. What are brands, how are they created and managed, and how they add value to consumers and business firms are important aspects of understanding brand management. Students will learn how to leverage the marketing-mix to build a strong brand platform with a strong customer focus, analytical orientation and interactive approach.

Course Content:

Introduction to Services - What are Services? Why Service Marketing? But "Service Stinks", Service and Technology, Global Feature: The Migration of Service Jobs, The Paradoxes and Dark Side of Technology and Service, Characteristics of Services, Service Marketing Mix.

Conceptual Framework of the Book: The Gaps Model of Service Quality - The Customer Gap, The Provider Gaps, Listening Gap, Service Design and Standards Gap, Service Performance Gap, Communication Gap, Closing the Gaps.

Customer Expectations of Service - Service Expectations, Types of Expectations, What Are Customers' Expectations? The Zone of Tolerance, Factors that Influence Customer Expectations of Service, Issues Involving Customers' Service Expectations.

Customer Perceptions of Service: Customer Perceptions– Customer Satisfaction– Service Quality– Service Encounters– Strategies for Influencing Customer Perceptions.

Building Customer Relationships: Relationship Marketing– Relationship Value of Customers– Foundations for Relationship Strategies– The Customer is not Always Right– Customer Profitability Segments– Levels of Relationship Strategies.

Service Recovery - The Impact of Service Failure and Recovery, How Customers Respond to Service Failures, Why People Do (and Do Not) Complain, Types of Customer Complaint Actions, Types of Complainers, Service Recovery Strategies: Fixing the Customer, Service Recovery Strategies: Fixing the Problem, Service Guarantees, Characteristics of Effective Guarantees, Types of Service Guarantees, Benefits of Service Guarantees, When to Use (or Not Use) a Guarantee.

Service Innovation and Design - Challenges of Service Innovation and Design, Important Considerations for Service Innovation, Types of Service Innovation, Stages in Service Innovation and Development.

Customer-Defined Service Standards - Factors Necessary for Appropriate Service Standards, Types of Customer-Defined Service Standards, Development of Customer-Defined Service Standards.

Physical Evidence and the Services cape - Physical Evidence, Types of Services capes, Strategic Roles of the Services cape, Framework for Understanding Services cape Effects on Behavior, Guidelines for Physical Evidence Strategy.

Employees' Roles in Service - Service Culture, The Critical Role of Service Employees, Boundary-Spanning Roles.

Managing Demand and Capacity - The Underlying Issue: Lack of Inventory Capability, Capacity Constraints, Demand STRATEGYs, Strategies for Matching Capacity and Demand.

Pricing of Services - Three Key Ways that Service Prices are Different for Customers, Approaches to Pricing Services, Pricing Strategies That Link to the Four Value Definitions.

Mapping of Course Learning Outcomes (CLOs) with the Program Learning Outcomes (PLOs):

CLO1	Understand the role of brands, concepts of brand equity and the advantages of creating strong brands;
CLO2	Learn the three main ways to build brand equity by properly choosing brand elements and analyzing brand positioning and values.
CLO3	Develop knowledge of different approaches of measuring brand equity and implementing them
CLO4	Analyze alternative branding strategies and how to devise brand portfolios.

Course Code: BBA 4207 **Course Title:** **Report and Defense of Internship/Thesis** **Credits**: 4.5

i. Report Preparation: 03
ii. Defense : 1.5

Rationale of the Course:

The internship is a part of the BBA degree requirement. The internship constitutes a practical work experience and is a preparatory step towards placement. The primary goal of internship is to provide on the job exposure to the students and an opportunity for translation of theoretical concepts in to real life situation. During internship students will be placed in enterprises, organizations, research institutes as well as development projects. The program covers a period of 8 (eight) weeks of organizational attachment and 4 (four) weeks of report finalization work.

Course Learning Outcomes: at the end of the course, the students will be able to-

CLO1	To better understand the theories, ideas, and practices of specific discipline or major by actively engaging in a "hands-on," work-based, learning experience.

CLO2	To learn and improve skills such as writing, verbal communication, research, technology, teamwork, and leadership etc.
CLO3	To develop self-confidence, assertiveness, and basic work habits in practical work life.
CLO4	To learn about career positions and occupations along with the qualities and training required to obtain those positions in business organization.
CLO5	To understand the workplace, operating procedures, the department/company and its products or service, and other organizational concepts.

Part D

PERFORMANCE EVALUATION

The Grading System and Grading

The Letter Grade The total performance of a student in a given course is based on a scheme of continuous assessment and a term final examination, for theory courses this continuous assessment is made through a set of class tests, assignments, class performance, a midterm examination. The assessment in sessional courses is made by evaluating performance of the student at work during the class, conduct of lab tests, report writing, a midterm evaluation, quiz, viva-voce and a final evaluation. Each sessional course has a certain credit (0.75/1.00/1.50), which describes its corresponding weightages. A letter grade with a specified number of grade points is awarded in each course for which a student is registered. A student's performance is measured by the number of credits completed satisfactorily and by the weighted average of the grade points earned. A minimum grade point average (GPA) is essential for satisfactory progress. Total credits specified in syllabus of each department have to be acquired in order to qualify for the respective degree. Letter grades and corresponding grade points shall be awarded according to the provisions shown below:

Letter Grade	**Grade Point**	**Numerical Markings**
A+	4.00	80% or Above
A	3.75	75% to below 80%
A-	3.50	70% to below 75%

B+	3.25	65% to below 70%
B	3.00	60% to below 65%
B-	2.75	55% to below 60%
C+	2.50	50% to below 55%
C	2.25	45% to below 50%
D	2.00	40% to below 45%
F	0.00	Less than 40%
I		Incomplete
W		Withdrawal
X		Continuation (for project/ thesis)

Subject (s) in which a student gets 'F' grade shall not be counted towards the credit hours' requirements and for the calculation of Grade Point Average (GPA)

Calculation of GPA and CGPA

Grade point average (GPA) is the weighted average of the grade points obtained in all the courses passed/completed by a student in a Term. 'F' grades will not be counted for GPA calculation. GPA of a Term will be calculated as follows:

$$GPA = \sum_{i=1}^{n} C_i G_i \Big/ \sum_{i=1}^{n} C_i$$

Where n is the total number of courses passed by the student, Ci is the number of credits allotted to a particular course i and Gi is the grade point corresponding to the grade awarded for i-th course.

Cumulative Grade Point Average (CGPA) gives the cumulative performance of the student from first Term up to any other Term to which it refers and is computed by dividing the total weighted grade points $\sum_{i=1}^{n} Ci * Gi$ / $\sum_{i=1}^{n} Ci$ accumulated up to the date by the total credit hours. Both GPA and CGPA will rounded off to the second place of decimal for reporting,

Withdrawal from a Term

If a student is unable to attend the Term Final Examination due to illness, accident or any other valid reason, he/ she may apply in prescribed form to the Registrar through his/ her Head of the Department for total withdrawal from the Term minimum 7 (seven) working days before start of the Term final examination. However, he/ she may choose not to withdraw any laboratory/ sessional/ design course if the grade obtained in such a course is 'D' or better and that he/ she has to indicate clearly in his/ her withdrawal application. In case of illness the withdrawal application must be supported by a medical certificate from CMH/Medical Officer of BAUST. The Academic Council shall take the final decision about such an application.

Incomplete (I) Courses

If a student fails to attend 60% of the classes of any registered course in a Term whatever be the reasons, the registration shall be cancelled for that course and the course will be treated as Incomplete (I) course.

Distribution of marks

Theory Courses: Forty percent (40%) of marks of a theoretical course shall be allotted for continuous assessment, i.e., class tests/ assignments/ presentations, class evaluation, class participation and midterm examination. The rest sixty percent (60%) marks shall be allotted to the three-hour duration term final examination. Distribution of marks for a given theory course is as follows:

Criteria	Marks (%)
Class Performance	05%
Class tests/ Assignments/Presentations	20%
Midterm Examinations	15%
Final Examination	60%
Total	100%

The number of class tests/ assignments/ presentations of a course shall be 'n', where 'n' is the number of credits of the course. Evaluation of performance in class tests/ assignments/ presentations shall be on the basis of the best '(n-1)' class tests/ assignments/ presentations. The mode of continuous assessment for a particular course shall be included in the course outline plan which will be provided to the students by the course teacher within the first week of the start of each term

Notes:

a. Course teacher of a particular course has to inform the department whether he/she wants to assess mid-term through exam or project within first two weeks of beginning of a term. The duration of mid-term examination should not be more than 60 minutes. If mid-term assessment is done through project, then there should be project report and presentation.

b. All class test will carry 20 marks each. Exam software system will finally convert these achieved marks into total class test marks as per credit hour.

c. The weightage of class performance can be assessed through class attendance, effective class participation and discipline.

d. Irrespective of the result of the continuous assessment (class performance, class test, mid-term examination), a student has to appear in the final examination (where applicable) for qualifying/ passing the concern course/ subject.

Attendance

All students are expected to attend classes regularly. The university believes that attendance is necessary for effective learning. The first responsibility of a student is to attend classes regularly. One is required to attend at least 80% of all classes held in any course. Students having attendance from 60% up to 79% shall have to pay a certain fine to attend the final examination. Students having attendance less than 60% shall not be allowed to attend the final examination.

Promotion to the next higher term/ level

In each term there shall be 4/5/6 theory courses. A student has to pass at least 2 out of 4, 3 out of 5 and 4 out of 6 theory courses in the final examination for promotion to next higher Term/ Level with a maximum of 2 (two) failed theory courses.

Annexure (Course Outline in OBE)

(Outcome Based Education)

BBA 1101, Introduction to Business

Part A

1. Course Code : BBA 1101
2. Course Title : Introduction to Business
3. Course Type : Core Course
4. Level/Term : 1-I
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Zaber Hossain
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

    i. Understand business, different forms of businesses, industries, and services
    ii. Describe business ownership and the general methods of financing.
    iii. Analyze the characteristics of business and its environment.
    iv. Appraise global awareness for appropriate international trade decisions.
    v. Formulate government policies regulating business and various institutions for furtherance of trade and commerce.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand business, different forms of businesses, industries, and services.
CLO2	Describe business ownership and the general methods of financing.
CLO3	Analyze the characteristics of business and its environment.
CLO4	Appraise global awareness for appropriate international trade decisions.
CLO5	Formulate government policies regulating business and various institutions for furtherance of trade and commerce.

	PLO 1	**PLO 2**	**PLO 3**	**PLO 4**	**PLO 5**	**PLO 6**	**PLO 7**

BBA 1102, Business Mathematics

Part A

1. Course Code : BBA 1102

2. Course Title : Business Mathematics

3. Course Type : Core Course

4. Level/Term : 1-I

5. Academic Session : Summer 2022

6. Course Teacher(s) : Md. Mizanur Rahman

7. Pre-requisite : N/A

8. Credit Value : 3.00

9. Contact Hours : 42

10. Total Marks : 300

11. Rationale of the Course : Required Course

12. Course Objectives :

i. This course is designed for undergraduate students of Business Administration, which will be helpful to acquire knowledge about Business Mathematics.
ii. This course acts as a bridge between the student's further studies in the Department of Business Administration.
iii. This knowledge will be essential for students to become a professional Business Graduate.

13. Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO1	Demonstrate actual knowledge including the mathematical notation and terminology used in this course.
CLO2	Describe the fundamental principles arising from the mathematical ideas associated to business applications.
CLO3	Recall, Understand and Evaluating the matrix and determinate.
CLO4	Solve problems regarding permutation counting, apply permutations and combinations to business problems.
CLO5	Describe the concept of Arithmetic and Geometric progression.

	PLO1	PLO2	PLO3	PLO4	PLO5	PLO6	PLO7

12	Formation of Bangladesh by Mujb Nagar Government and Proclamation of Independence, The Spontaneous Early Resistance and Subsequent Organized Resistance (Mukti Force, Mukti Bahini, Guerillas and the Frontal War force.	-do-	Class Test Final Exam Participation	CLO1, CLO2
13	Publicity Campaign in the war of Liberation (Shadhin Bangla Betar Kendra, The Campaigns Abroad and Formation of Public Opinion), The Rule of Super Powers in the Liberation	-do-	Class Test Final Exam Participation	CLO2
14	War The Anti-Liberation Activities of the Peace Committee, Al-Badar, Al-Shams, Rajakar Bahini and Killing of the Intellectuals, Formation of Joint Command and Victory December 16 on 1971, The Surrender of Pakistani Forces and the Rise of Independent Sovereign Bangladesh, Bangabondhu's Return home.	-do-	Class Test Final Exam Participation	CLO2

Part C

15. Assessment and Evaluation

1) Assessment Strategy

CLOs	Teaching-Learning Strategy	Assessment Strategy
CLO1	Lecture, Open Discussion	Test
CLO2	Lecture, Group work	Test/Class Performance
CLO3	Lecture, Viva-Voce	Test/Assignment

2) Marks distribution:

Assessment and Evaluation Factor		Marks
a. Continuous Assessment (40%)	Class Test	15%
	Assignment/Homework	05%
	Class Performance	05%
	Mid Term	15%
b. Final Examination		60%
Total Marks		100%

3) Make-up Procedures

- Missed Class Tests, Assignment, Class performance and Midterm: There will be no make-up exam if anyone intentionally misses class test or midterm exam without any valid and legitimate reason. Absence in the exams will be regarded as absent and Zero (0) marks will be applied. Notifying the instructor before the exam is a must if a student misses any exam for reasons beyond his/her control. In extreme circumstances, if the student cannot inform earlier, he/she must inform the instructor within three (3) days of the exam.
- RIB (Referred, Improvement and Backlog) exams will be conducted according to the Examination Policy for Undergraduate Programs of BAUST.

Part D

16. Learning Materials

1) Recommended Reading:

স্বাধীন বাংলাদেশের অভ্যুদয়ের ইতিহাস- মুনতাসির মামুন, মোঃ মাহবুবর রহমান

2) Supplementary Readings:

স্বাধীন বাংলাদেশের অভ্যুদয়ের ইতিহাস	ড. আবু মোঃ দেলোয়ার হোসেন
বাংলাদেশের ইতিহাস, ১৯৪৭-১৯৭১	ড. মোঃ মাহবুবর রহমান
বাংলাদেশের ইতিহাস, ১৯০৫-১৯৭১	ড. আবু মোঃ দেলোয়ার হোসেন
History of Ancient Bengal	R.C.Majumder
Bangladesh Emergence of a Nation	Muhit, A.M.A.
Dynastic History of Bengal	A.M.- Chowdhury
The Unfinished Memories	Sheikh Mujibur Rahman

HUM 1111, বাংলা ভাষা ও সাহিত্য

Part A

1.	Course Code	:	HUM 1111
2.	Course Title	:	বাংলা ভাষা ও সাহিত্য
3.	Course Type	:	GED Course
4.	Level/Term	:	1-I
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Rakibul Hasan
7.	Pre-requisite	:	None
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the Course	:	Required Course

12. Course Objectives :

i. যোগাযোগের মাধ্যম হিসেবে বাংলা ভাষার গুরুত্বকে উপলব্ধি করা এবং সেইসাথে জ্ঞানকান্ডের বিভিন্ন শাখার সাথে সংযোগ তৈরির উপায় হিসেবে ভাষা সম্পর্কিত জ্ঞান লাভ করা।

ii. সাহিত্য ব্যক্তির কল্পনা ও অনুভূতি নিয়ে কাজ করে ফলে আদর্শ মানুষ হয়ে গড়ে ওঠার পেছনে সাহিত্য গুরুত্বপূর্ণ ভূমিকা পালন করে।

iii. সাহিত্য পাঠের মাধ্যমে বোধ জাগ্রত হয় ফলে অন্যের প্রতি সহানুভূতিশীল এবং মানবিক বোধসম্পন্ন চিন্তা-চেতনা গড়ে ওঠে।

iv. যুক্তিবোধ তৈরি করে এবং সৃষ্টিশীল পৃথিবী গড়তে সহায়ক ভূমিকা পালন করে।

v. তথ্য- প্রযুক্তির উৎকর্ষ ও জ্ঞান-বিজ্ঞানের বিভিন্ন শাখার সাথে আন্তঃসম্পর্ক গঠনে গুরুত্বপূর্ণ ভূমিকা পালন করে।

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO No.	Course Learning Outcomes (CLO) Statements
CLO 1	শুদ্ধভাবে ভাষা বিষয়ক জ্ঞান অর্জন করা , নিজের অস্তিত্ব ও শেকড়ের অনুসন্ধানে চেতনাকে প্রবাহিত করা।
CLO 2	ভাষা বিষয়ক জ্ঞান অর্জন, বোধের বিকাশ এবং তা বাস্তব জীবনে প্রয়েগে উৎসাহিত করা।
CLO 3	সাহিত্য সংস্কৃতির মাধ্যমে নিজ দেশ ও জাতিকে জানা। জাতির ইতিহাস ও ঐতিহ্য অনুসন্ধানের পাশাপাশি ধারাবাহিক চর্চায় অনুপ্রাণিত করা এবং বাস্তব জীবনে তা প্রয়োগ করা।

BBA 1201, Principles of Marketing

Part A

1. Course Code : BBA 1201
2. Course Title : Principles of Marketing
3. Course Type : Core Course
4. Level/Term : 1-II
5. Academic Session : Summer 2022
6. Course Teacher(s) : Goutam Saha, Samiya Bint Halim
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :
    i. Understand the basic principles, theories, concepts and dynamics of Marketing.
    ii. Apply these principles and tools in case analysis and to practical business decision making situations.
    iii. Integrate the concepts/techniques learned through application in the preparation of a comprehensive marketing plan.
    iv. Appreciate and learn more about Marketing as a career.
13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Define marketing and the marketing process.
CLO2	Understand the marketing environment and consumers to provide better solutions to their problems.
CLO3	Apply a customer-driven marketing strategy.
CLO4	Analyze how to create value with product and pricing decisions.
CLO5	Formulate a plan to communicate and deliver value to the customers.

BBA 1202, Microeconomics

Part A

1. Course Code : BBA 1202
2. Course Title : Microeconomics
3. Course Type : Core Course
4. Level/Term : 1-II
5. Academic Session : Summer 2022
6. Course Teacher(s) : Mehedi Hasan
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

After pursuing this course student will be able to understand the basic microeconomics principles and their applications. It informs how economy performs and expands its scope in micro level according to the demand of society. It will help the student to know the working of a capitalist economy where individual units are free to take their own decision. It describes how, in a free enterprise economy, individual units attain equilibrium position. It also helps the government in formulating correct price policies. As a business student they will be able to realize in which economy which business will be suitable for them.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand the fundamentals of microeconomics

CLO2	Learn about different economic systems and the basic problems of economics in order to solve them.
CLO3	Apply the concept of demand and supply in managerial decision making
CLO4	Analyze the consumer behavior to make large sales revenue.
CLO5	Decide about the cost items in the firm for minimizing production cost.

	PLO 1	**PLO 2**	**PLO 3**	**PLO 4**	**PLO 5**	**PLO 6**	**PLO 7**

An Introduction to Microeconomics-P. Wonnacott & R. Wonnacott, McGraw-Hill Education.

BBA 1203, Principles of Finance

Part A

1.	Course Code	:	BBA 1203
2.	Course Title	:	Principles of Finance
3.	Course Type	:	Core Course
4.	Level/Term	:	1-II
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Shamima Islam
7.	Pre-requisite	:	N/A
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the Course	:	Required Course
12.	Course Objectives	:	

Upon successful completion of this course, students will be able to:

i. Understand basic corporate finance topics and tools for decision making

ii. Compute Future and Present Values, including FV and PF of annuities

iii. Compute Discounted Cash Flow (using Time Value of Money)

iv. Understand the basics of risk and return relationship

v. Compute standard deviation and utilize the outcome for decision-making

vi. Understand the concept of Beta and use it for decision-making

vii. Compute the Net-Present Value (for project analysis)

viii. Understand the basic techniques for cash management

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand the concept of maximization of shareholders wealth by applying financial techniques
CLO2	Application of evaluation criteria like Payback period, NPV, IRR, PI etc. in decision-making.
CLO3	Analyze risk return characteristics of different alternative capital structures through leverage and EBIT-EPS Analysis.
CLO4	Evaluation and selection of dividend decisions that maximizes shareholders wealth.
CLO5	Examine and formulate tradeoffs between Liquidity and profitability for optimum utilization of fixed assets.

Part A

1. Course Code : CSE 1204
2. Course Title : Computer Application in Business Sessional
3. Course Type : Sessional Course
4. Level/Term : 1-II
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Muktar Hossain
7. Pre-requisite : N/A
8. Credit Value : 1.5
9. Contact Hours : 21
10. Total Marks : 150
11. Rationale of the Course : Required Course
12. Course Objectives :
    i. To know basic ideas of computer hardware and software.
    ii. To learn how to use software to complete any project.
    iii. To develop problem-solving skills.
13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand the basic working principle of computer components and their organization inside a working computer.
CLO2	Using knowledge of computer components to identify and solve computer issues.
CLO3	Prepare article, presentation, and present on the topics of the computer.

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	1		3			1	1
CLO2	1	1	3	3	1		1
CLO3	1	1	2	3	1	1	1

Part B
14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	**Topic**	**Teaching-Learning Strategy**	**Assessment Strategy**	**Corresponding CLOs**
1	Computer Organization	Lecture notes, ppt, Reference books	Lecture and	CLO1 CLO2

2	Processor, types and how it works	-do-	Discussion, Co-operative and Collaborative Method, Problem Based Method	
3	Ram and the how it holds program for processor to use.	-do-		
4	Motherboard, PSU	-do-		
5	Display devices and I/O devices	-do-		
6	Other peripherals and System Integration	-do-		
7	Microsoft Word	-do-		
MID Term				CLO1 CLO2
8	Advanced Word Processing	-do-	Lecture and Discussion, Co-operative and Collaborative Method, Problem Based Method	CLO2 CLO3
9	PowerPoint basics, PowerPoint animation	-do-		
10	Microsoft Excel	-do-		
11	Excel functions and programming	-do-		
12	Web Basics	-do-		
13	Preparation and presentation of learned topics	-do-		
14	Preparation and presentation of learned topics (continued)	-do-		

Part C

15. Assessment and Evaluation

1) Assessment Strategy

CLOs	Teaching-Learning Strategy	Assessment Strategy
CLO1	Lecture, Tutorials, Discussion	Presentation/Mid Term
CLO2	Lecture, Tutorials, Discussion	Presentation/Mid Term/Final
CLO3	Lecture, Tutorials, Group Work	Presentation/Mid Term/Final

a. Continuous Assessment (40%)	Class Test	15%
	Assignment/Presentation	05%

	Class Performance	05%
	Mid Term	15%
b. Final Examination		60%
Total Marks		100%

3) Make-up Procedures

- Missed Class Tests, Assignment, Class performance and Midterm: There will be no make-up exam if anyone intentionally misses class test or midterm exam without any valid and legitimate reason. Absence in the exams will be regarded as absent and Zero (0) marks will be applied. Notifying the instructor before the exam is a must if a student misses any exam for reasons beyond his/her control. In extreme circumstances, if the student cannot inform earlier, he/she must inform the instructor within three (3) days of the exam.
- RIB (Referred, Improvement and Backlog) exams will be conducted according to the Examination Policy for Undergraduate Programs of BAUST.

PART-D

18. Learning Materials

1) Recommended Readings:

Computer Fundamentals by Dr. M. Lutfar Rahman & Dr. M. Alamgir Hossain

2) Supplementary Readings:

Introduction to Computer by Peter Norton

HUM 1205, Bangladesh Studies

Part A

1. Course Code : HUM 1205
2. Course Title : Bangladesh Studies
3. Course Type : GED Course
4. Level/Term : 1-II
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Mahbub Rahman
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :
    i. Introduce students with rich history, culture and heritage of Bangladesh.
    ii. Providing them in-depth knowledge on the major political events that shaped Bangladesh as an independent sovereign state.
    iii. Improve their understanding on political, economic and social development of Bangladesh.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand the culture, manners, customs and likings of the Bangladeshi consumers.
CLO2	Appraise the evolution of Bangladesh in this part of the world since 1971.
CLO3	Acquire knowledge regarding constitution, business laws and policies identified by the Government of Bangladesh.
CLO4	Analyze the industry, economic trend of Bangladesh
CLO5	Apply the knowledge of economic planning, population policy in the field of business.

11	Multiple-step Statement, Single-step Statement, Horizontal and Vertical Arrangement,	-do-	Class Test Final Exam Participation	CLO4
12	The Accounting Cycle, Reversing Entries with special referee to Presentations of Financial Statements.	-do-	Class Test Final Exam Participation	CLO4
13	**Bank Reconciliation Statement:** Meaning, Need, Specific Steps in Preparing a Bank Reconciliation Statement: Different methods,	-do-	Class Test Final Exam Participation	CLO5
14	Reconciliation of the Bank Balance to the Book Balance; Reconciliation of Bank and Book Balances to a Corrected Balance and Four Column Reconciliation.	-do-	Class Test Final Exam Participation	CLO5

Part C

15. Assessment and Evaluation

1) **Assessment Strategy**

CLOs	Teaching-Learning Strategy	Assessment Strategy
CLO1	Lecture, Open Discussion	Test
CLO2	Lecture, Group work	Test/Class Participation
CLO3	Lecture, Open Discussion	Test
CLO4	Lecture, Group work	Test/Class Participation
CLO5	Viva-Voce Lecture, Analysis of academic texts, cases, and examples	Test/Assignment

2) Marks distribution:

Assessment and Evaluation Factor		Marks
a) Continuous Assessment (40%)	Class Test	15%
	Assignment/Homework	05%
	Class Performance	05%
	Mid Term	15%
b) Final Examination		60%
Total Marks		100%

3) Make-up Procedures

- Missed Class Tests, Assignment, Class performance and Midterm: There will be no make-up exam if anyone intentionally misses class test or midterm exam without any valid and legitimate reason. Absence in the exams will be regarded as absent and Zero (0) marks will be applied. Notifying the instructor before the exam is a must if a student misses any exam for reasons beyond his/her control. In extreme circumstances, if the student cannot inform earlier, he/she must inform the instructor within three (3) days of the exam.
- RIB (Referred, Improvement and Backlog) exams will be conducted according to the Examination Policy for Undergraduate Programs of BAUST;

PART-D

16. Learning Materials

1) Recommended Readings:

- Financial Accounting- Meigs, Williams, Haka and Beltner, McGraw Hill Inc.

2) Supplementary Readings:

- Accounting: Tools for Business Decision Making by Paul Kimmel, Jerry Weygandt, and Donald Kies, Wiley.
- Principles of Accounting- Needles and Power

BBA 2104, Business Statistics I

Part A

1.	Course Code	:	BBA 2104
2.	Course Title	:	Business Statistics I
3.	Course Type	:	Core Course
4.	Level/Term	:	2-I
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Mehedi Hasan
7.	Pre-requisite	:	N/A
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the Course	:	Required Course
12.	Course Objectives	:	

This course has been designed as an advanced course on the use of quantitative tools in Business decision- making. It includes Data Collection and Presentation, Measures of Central Tendency, Measures of Dispersion/Variation, Skewness, Moments and Kurtosis, correlation, regression, sampling and various statistical tests. The learners will also be taught about the use of computer in quantitative business analysis. Understanding of the course will develop the required skills of using quantitative tools and techniques in analyzing business situation and making appropriate decisions for the organizations. The course will also equip the students for using statistical tools and techniques in business research.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Illustrate classification, tabulation, frequency distribution and graphical presentation of the data.
CLO2	Classify different types of measures of central tendency and demonstrate the uses of different kinds of measures of central tendency in business
CLO3	Demonstrate measure of skewness and kurtosis and their uses in business
CLO4	Explain correlation measures- Scatter Diagram Method- Karl Pearson's coefficient of Correlation- Rank Correlation Co-efficient Multiple correlation- Partial correlation.
CLO5	Analyze Simple regression lines- Regression Equation- Regression Co-efficient, and their uses in business.

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	3	2	3	3			2
CLO2	3	2	2	3			2
CLO3	3	2	2	3			
CLO4	3	2	3	3	2		2
CLO5	3	2	3	3	2		2

Part B

14. **Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.**

Week	**Topic**	**Teaching-Learning Strategy**	**Assessment Strategy**	**Corresponding CLOs**
1	Introduction: Definition- Concepts- Nature- Scope- Nature of statistical Data- Collection-	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1
2	Classification- Tabulation- Frequency Distribution- Graphical Presentation of Data.	-do-	Class Test Final Exam Participation	CLO1
3	Measures of Central Tendency : Introduction- Arithmetic Mean- Geometric Mean- Harmonic Mean- Weighted Arithmetic Mean- Mode- Median- Quartiles- Deciles- Percentiles- Properties of a Good Average- Empirical Relation among the Averages.	-do-	Class Test Final Exam Participation	CLO2
4	Quartiles- Deciles- Percentiles- Properties of a Good Average- Empirical Relation among the Averages.	-do-	Class Test Final Exam Participation	CLO2
5	Measures of Dispersion: Significance of Measuring Dispersion- Properties of a Good	-do-	Class Test Final Exam Participation	CLO3
6	Measures of Dispersion- Range- Inter- Quartile Range and quartile Deviation- Mean Deviation- standard Deviation- Co-efficient of variations and their uses	-do-	Class Test Final Exam Participation	CLO3
	Mid Term			**CLO1, CLO 2,**

				CLO 3
7	Moments, Skewness and Kurtosis: Moments From Arbitrary Value- Moments from mean- Relation between Moments- Measures of Skewness and its uses- Measures of Kurtosis and its Uses.	-do-	Class Test Final Exam Participation	CLO3
8	Moments from mean- Relation between Moments- Measures of Skewness and its uses- Measures of Kurtosis and its Uses.	-do-	Class Test Final Exam Participation	CLO3
9	Correlation Analysis : Significance of the study of correlation and Causation-	-do-	Class Test Final Exam Participation	CLO4
10	Types of Correlation- Scatter Diagram Method- Karl Pearson's coefficient of Correlation-	-do-	Class Test Final Exam Participation	CLO4
11	Rank Correlation Co-efficient Multiple correlation- Partial correlation.	-do-	Class Test Final Exam Participation	CLO4
12	Regression Analysis: Difference between Correlation and Regression Analysis- Simple regression lines- Regression Equation- Regression Co-efficient.	-do-	Class Test Final Exam Participation	CLO5
13	Simple regression lines- Regression Equation- Regression Co-efficient.	-do-	Class Test Final Exam Participation	CLO5
14	Simple regression lines- Regression Equation- Regression Co-efficient.	-do-	Class Test Final Exam Participation	CLO5

Part C

15. Assessment and Evaluation

1) Assessment Strategy

CLOs	Teaching-Learning Strategy	Assessment Strategy
CLO1	Lecture, Open Discussion	Test
CLO2	Lecture, Group work	Test/Class Performance
CLO3	Lecture, Viva-Voce	Test/Assignment
CLO4	Lecture, Consultations	Test
CLO5	Lecture, Analysis of academic texts, cases, and examples	Test

2) Marks distribution:

Assessment and Evaluation Factor		Marks
a) Continuous Assessment (40%)	Class Test	15%
	Assignment/Homework	05%
	Class Performance	05%
	Mid Term	15%
b) Final Examination		60%
Total Marks		100%

3) Make-up Procedures

- Missed Class Tests, Assignment, Class performance and Midterm: There will be no make-up exam if anyone intentionally misses class test or midterm exam without any valid and legitimate reason. Absence in the exams will be regarded as absent and Zero (0) marks will be applied. Notifying the instructor before the exam is a must if a student misses any exam for reasons beyond his/her control. In extreme circumstances, if the student cannot inform earlier, he/she must inform the instructor within three (3) days of the exam.
- RIB (Referred, Improvement and Backlog) exams will be conducted according to the Examination Policy for Undergraduate Programs of BAUST.

PART-D
16. Learning Materials

1) Recommended Readings:

- Basic Business Statistics-Mark L. Berenson, Prentice-Hall International
- INTRODUCTORY STATISTICS, PREM S. MANN and CHRISTOPHER JAY LACKE, Eighth Edition
- Business Statistics, S.P GUPTA & M.P GUPTA

2) Supplementary Reading:

Statistics for Management and Economics-Gerald Keller, Thomson

BBA 2105, Marketing Management

Part A

1. Course Code : BBA 2105
2. Course Title : Marketing Management
3. Course Type : Core Course
4. Level/Term : 2-I
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Zaber Hossain
7. Pre-requisite : N/A
8. Credit Value : 3.00

9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

i. Understand the basic principles, theories, concepts and dynamics of Marketing.

ii. Apply these principles and tools in case analysis and to practical business decision making situations.

iii. Integrate the concepts/techniques learned through application in the preparation of a comprehensive marketing plan.

iv. Appreciate and learn more about Marketing as a career.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand the strategic planning and marketing management process
CLO2	Analyzing marketing opportunities
CLO3	Know marketing decision support systems and marketing research.
CLO4	Developing marketing Strategy and planning, implementing and controlling marketing tactics

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	3	2	2		3	2	2
CLO2	2		1	2	1	1	3
CLO3	2	1	2	3	1	1	1
CLO4	2	3	3	3	2	2	1

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	**Topic**	**Teaching-Learning Strategy**	**Assessment Strategy**	**Corresponding CLOs**
1	Defining Marketing for the 21st Century: The Importance of Marketing, The Scope of Marketing, Company Orientations Toward the Market place.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1
2	Fundamental Marketing Concepts, Trends, and Tasks	-do-	Class Test Final Exam Participation	CLO2
3	Developing Marketing Strategies and Plans: Marketing and Customer Value– Corporate and Division Strategic Planning. Business Unit Strategic Planning– Product Planning: The Nature and Contents of a Marketing Plan.	-do-	Class Test Final Exam Participation	CLO1 CLO2
4	Identifying Markets Segments and Targets: Level of Markets Segmentation– Segmenting Consumer Markets.	-do-	Class Test Final Exam Participation	CLO1 CLO2
5	Bases for Segmenting Business	-do-	Class Test	CLO2

	Markets– Market Targeting.		Final Exam Participation	
6	Dealing with Competition: Competitive Forces– Analyzing Competitors– Commutative Strategies for Market Leaders.	-do-	Class Test Final Exam Participation	CLO1
7	Other Competitive Strategies– Balancing Customer and Competitor Orientations.	-do-	Class Test Final Exam Participation	CLO2
Mid Term				**CLO1, CLO2**
8	Crafting the Brand Positioning: Developing and Communicating a Positioning Strategy– Differentiation Strategies.	-do-	Class Test Final Exam Participation	CLO3
9	Product Life-cycle Marketing Strategies– Market Evolution.	-do-	Class Test Final Exam Participation	CLO3 CLO4
10	Creating Brand Equity: What is Brand Equity?-Building Brand Equity– Managing Brand Equity– Devising a Branding Strategy.	-do-	Class Test Final Exam Participation	CLO4
11	Managing marketing channels and Sales force: Channel design decisions- Management decisions- integrated marketing communication.	-do-	Class Test Final Exam Participation	CLO3 CLO4
12	Designing sales force- Recruiting, Training, Motivating and evaluating sales representatives. Marketing Communication; - Designing integrated marketing communication, mass marketing communication, marketing digital communication, direct marketing.	-do-	Class Test Final Exam Participation	CLO3
13	Nature and characteristics of a service, Marketing Strategy for services firms. Managing a holistic marketing organization for the long run, Trends in marketing practice, socially responsible marketing.	-do-	Class Test Final Exam Participation	CLO4
14	Organizing, Implementing and Controlling Marketing programs: Analyzing Marketing Performance-Marketing Control-Annual plan control-profitability control – Efficiency control- Marketing audit.	-do-	Class Test Final Exam Participation	CLO3

Part C

15. Assessment and Evaluation

1) Assessment Strategy

CLOs	**Teaching-Learning Strategy**	**Assessment Strategy**
CLO1	Lecture, Open Discussion	Test

CLO2	Lecture, Group work, Case Solution	Test/Class Participation

In extreme circumstances, if the student cannot inform earlier, he/she must inform the instructor within three (3) days of the exam.
- RIB (Referred, Improvement and Backlog) exams will be conducted according to the Examination Policy for Undergraduate Programs of BAUST.

PART-D

16. Learning Materials

1) Recommended Reading:

Marketing Management: Millennium Edition Book by Philip Kotler

2) Supplementary Readings:

Marketing Management, Kenneth R. Davis,
Marketing Management, Martin Zober

BBA 2106, Corporate Governance, Ethics and Society

Part A

1. Course Code : BBA 2106
2. Course Title : Corporate Governance, Ethics and Society
3. Course Type : Core Course
4. Level/Term : 2/I
5. Academic Session : Summer 2022
6. Course Teacher(s) : Most. Mukta Khatun
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course

12. Course Objectives :

i. demonstrate critical thinking
ii. select, organize, develop and synthesize complex material;
iii. demonstrate problem solving ability;
iv. plan, work and study independently; communicate effectively to a variety of audiences and/or using a variety of methods
v. conduct in-depth research into issues on corporate governance and business ethics;

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand to connect between the corporate, ethics and society.
CLO2	Decide about the appropriateness of various business structures and laws.
CLO3	Understand the need and importance of corporate governance with reference to Environment protection
CLO4	Analyze the essence of business and how business could be mutually beneficial to the businessman and the society.
CLO5	Make the students understand the fact that a "Business can survive only with the support of the society".

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	1	3	1		3		2
CLO2	2	3	1	2	3		3
CLO3	1	2	2	2	3	1	3
CLO4	2	3	1	3	3	1	3
CLO5	2	3	2		3		3

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	**Topic**	**Teaching-Learning Strategy**	**Assessment Strategy**	**Corresponding CLOs**
1	**An introduction to Business, Government, and Society:** The Connect between Business, Government, and Society, BGS filed Importance of BGS relationship in management,	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1
2	models of BGS relationships-Market capitalism model, dominance model, countervailing forcer's model and stakeholder model. **Business structures**: Meaning and nature of business structures, types, nature, advantages, limitations and	-do-	Class Test Final Exam Participation	CLO1, CLO2

3	applicability of - single ownership, partnerships, private limited companies, public limited companies, co- 9 operative societies	-do-	Class Test Final Exam Participation	CLO1 CLO3
4	**Corporate governance:** The concept of corporate, the concept of governance, need and importance of corporate governance, benefits of good corporate governance	-do-	Class Test Final Exam Participation	CLO1 CLO4
5	OECD (Organization for economic co-operation and development) on corporate governance, Theoretical basis for corporate governance, environmental Concerns and Corporations, Sample OBE Curriculum 41 environmental preservation-role of stakeholders,	-do-	Class Test Final Exam Participation	CLO3
6	sustainable development, industrial pollution, role of corporate in environmental management, waste management, pollution control and environmental audit	-do-	Class Test Final Exam Participation	CLO1
7	**Business Ethics and Corporate Social Responsibility:** Meaning of business ethics, need and purpose, importance, approaches to business ethics	-do-	Class Test Final Exam Participation	CLO2
Mid Term				**CLO 1, CLO2**
8	Roots of unethical behavior, ethical decision making some unethical issues, benefits from managing ethics at workplace.	-do-	Class Test Final Exam Participation	CLO1
9	Nature of CSR, arguments for and against CSR, models of CSR, best practices of CSR-Indian examples	-do-	Class Test Final Exam Participation	CLO2
10	**Business Laws:** A .Law of Contract, 1872: meaning of contract, agreement, essential elements of a valid contract. Meaning of Agency, Bailment and Pledge.	-do-	Class Test Final Exam Participation	CLO3
11	The companies Act, 2013, provisions related to governance, management, compliance and enforcement,	-do-	Class Test Final Exam Participation	CLO5, CLO4

	disclosure norms, auditors and mergers & acquisitions.			
12	Environment Protection Act, 1986: Introduction, objectives, scope, powers of the central government, offences and penalties. Laws relating to Intellectual property	-do-	Class Test Final Exam Participation	CLO2
13	The Patents Act, 1970, The Copyright Act, 1957, 3.	-do-	Class Test Final Exam Participation	CLO3
14	The Trade mark Act, 1999) Meaning, scope and objectives of intellectual property law, law relating to patents, copyrights, and trade mark	-do-	Class Test Final Exam Participation	CLO4, CLO5

Part C

15. Assessment and Evaluation

1) Assessment Strategy

CLOs	**Teaching-Learning Strategy**	**Assessment Strategy**

exam for reasons beyond his/her control. In extreme circumstances, if the student cannot inform earlier, he/she must inform the instructor within three (3) days of the exam.

- RIB (Referred, Improvement and Backlog) exams will be conducted according to the Examination Policy for Undergraduate Programs of BAUST.

PART-D

16. Learning Materials:

Recommended Reading:

Corporate Governance: Principles, policies and Practices by Fernando A.c. Pub: Pearson, 2014.

Supplementary Readings:

Business Government and Society: A Managerial Perspective, Text and cases by John F. Steiner Pub: Tata Mc-Grahill, 2014.

Business Ethics and Corporate governance by Ghosh B.N, Pub: Tata McGrahill, 2013.

Business and Society: Lawrance and Weber, 12/e, TMH, 2013 4) Business Law and Management by N. D. Kapoor and DinkarPagare, Pub: Sultan Chand and Sons, 2013.

BBA 2201, Business Statistics II

Part A

1.	Course Code	:	BBA 2201
2.	Course Title	:	Business Statistics II
3.	Course Type	:	Core Course
4.	Level/Term	:	2-II
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Mehedi Hasan
7.	Pre-requisite	:	N/A
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the Course	:	Required Course
12.	Course Objectives	:	

To expose to the students, the basics of quantitative methods in management. To discuss the basic concepts of statistics such as descriptive statistics, probability, probability distributions, sampling and sampling distributions. To expose to the students, the excel software and use it for data analysis, so the students become familiar with the nature of the software output. To expose to the students, the estimation, hypothesis testing (one and two population), variance, chi-square, correlation and regression analysis.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand time series analysis, components of time series, methods of forecasting, and others
CLO2	Apply discrete and continuous probability distributions to various business problems
CLO3	Evaluate Procedure of Testing Hypothesis- Null Hypothesis- Alternative Hypothesis
CLO4	Learn nonparametric test such as the Chi-Square test for Independence as well as goodness of fit.
CLO5	Compute and interpret the results of Bivariate Regression and Multiple regression

	PLO1	PLO2	PLO3	PLO4	PLO5	PLO6	PLO7
CLO1	3	2	3	3			2
CLO2	3	2	2	3			2

CLO5	3	2	3	3	2		2

Part B

14. **Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.**

Week	Topic	Teaching-Learning Strategy	Assessment Strategy	Corresponding CLOs
1	Business Forecasting and Time series Analysis: Steps in Forecasting- Methods of Forecasting-.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1
2	Time series Analysis- Components of Time series- Measures of Trend- Graphic Method- Method of Semi Averages least squares and moving average Measurement of seasonal variations- Method of Simple Averages Ratio to Trend Method- Ratio to Moving Average Method- Link Relative Method- Seasonal Index-	-do-	Class Test Final Exam Participation	CLO1
3	Measurement of Cyclical variations- Interpolation and Extrapolation: Newton's Forward and Backward Formula for Interpolation and Extrapolation Method- Its limitations and Uses	-do-	Class Test Final Exam Participation	CLO1
4	Probability: Meaning of Probability, Elements of set theory- Sample Space- Events- Theorems of Total and compound probability- Conditional Probability and statistical Independence- Bayer's law.	-do-	Class Test Final Exam Participation	CLO2
5	Probability Distribution: Probability Function- Binomial Distribution Poisson Distribution Normal Distribution Area under the normal curve.	-do-	Class Test Final Exam Participation	CLO2
6	Test of Hypothesis: Procedure of Testing Hypothesis- Null Hypothesis- Alternative Hypothesis- Type I and Type II Errors-	-do-	Class Test Final Exam Participation	CLO3

7	Level of significance- Degree of Freedom- One Tailed and Two Tailed Tests- Power of Test- Tests About Mean- Test about the Difference between Two means- Tests about the Difference between Two means with dependent samples-	-do-	Class Test Final Exam Participation	CLO3
	Mid Term			**CLO1, CLO 2, CLO 3**
8	Tests about the correlation co-efficient-tests of Equality of Two Variances- Tests for proportion- Test of Independence- Test of Goodness of Fit	-do-	Class Test Final Exam Participation	CLO3
9	Chi- Square Test: Test of independence Test of goodness of fit- Test of homogeneity and Test of specific value of variance.	-do-	Class Test Final Exam Participation	CLO4
10	Chi- Square Test: Test of independence Test of goodness of fit- Test of homogeneity and Test of specific value of variance.	-do-	Class Test Final Exam Participation	CLO4
11	Analysis of Variance: Assumption in Analysis of variance- Computation of Analysis of variance- One way and two way classification.	-do-	Class Test Final Exam Participation	CLO4
12	One way and two-way classification.	-do-	Class Test Final Exam Participation	CLO4
13	Simple and Multiple Regression: Dependent and Independent variable, Correlation, Coefficient of determination, standard error, confidence intervals, regression coefficients.	-do-	Class Test Final Exam Participation	CLO5
14	standard error, confidence intervals, regression coefficients.	-do-	Class Test Final Exam Participation	CLO5

BBA 2202, Intermediate Accounting

Part A

1. Course Code : BBA 2202
2. Course Title : Intermediate Accounting
3. Course Type : Core Course
4. Level/Term : 2-II
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Azmir Sharif
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

    i. Identify issues related to the conceptual framework for financial reporting.

    ii. Develop skills useful for analyzing financial statements.

    iii. Evaluate the relationship between financial statements and the needs of financial statement users.

    iv. Develop the ability to express information and concepts with conciseness and clarity when writing and speaking.

    v. Develop the ability to select appropriate media for dissemination or accumulation of information.

    vi. Develop the use interpersonal skills to facilitate effective interaction over time.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Describe the meaning and usefulness of a conceptual framework of accounting and financial reporting indicating the qualitative characteristics of accounting information and the basic elements of financial statements.
CLO2	Define receivables and explain the issues related to its recognition and recording in the books of accounts.
CLO3	Describe and apply the revenue recognition principle in recording business transactions.
CLO4	Describe the nature, type, and valuation method of current liabilities and their presentation and analysis.
CLO5	Recognize intangible assets including their origination and be able to measure their values.
CLO6	Identify the nature of consignment, joint venture, non-trading concerns and partnership firms and prepare financial statements for those organizations.

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	Topic	Teaching-Learning Strategy	Assessment Strategy	Corresponding CLOs
1	Conceptual framework of accounting and financial reporting; objectives of General Purpose Financial Statements; Users and their Information Needs;	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1
2	Underlying Assumptions; Qualitative Characteristics of Accounting Information; Elements of Financial Statements; Recognition and Measurement of Elements.	-do-	Class Test Final Exam Participation	CLO1
3	Definition of Receivables; types of receivables; how companies recognize accounts receivable; methods used to value accounts receivable;	-do-	Class Test Final Exam Participation	CLO2 CLO3
4	Measurement of bad debt expense and entries to record the disposition of accounts receivable; computing the maturity date of and interest on notes receivable;	-do-	Class Test Final Exam Participation	CLO1
5	Recognition, valuation and entries to record the disposition of notes receivable; statement presentation and analysis of receivables.	-do-	Class Test Final Exam Participation	CLO3
6	Revenue (IAS-18): recognition principle, the sale of goods, the reddening services-revenue generated on entity assets, measurement and disclosure.	-do-	Class Test Final Exam Participation	CLO3
7	Current Liabilities and Contingencies: Nature of current liabilities, accounts payable, notes payable, short-term obligations, liabilities from advance collections;	-do-	Class Test Final Exam Participation	CLO2
Mid Term				CLO 1,2,3,
8	Valuation of current liabilities; disclosure of current liabilities in the financial statements; provisions, contingent liabilities	-do-	Class Test Final Exam Participation	CLO1

	and contingent assets, (IAS-37).			
9	Intangible Assets: Identifiable and unidentifiable intangibles, acquired externally or developed internally, initial recognition and measurement.	-do-	Class Test Final Exam Participation	CLO5
10	Measurement after initial recognition, research and development cost (IAS-38), impairment of intangible assets.	-do-	Class Test Final Exam Participation	CLO5
11	Accounting for Joint Venture: Jointly Controlled Operations, Jointly Controlled Assets, Jointly Controlled Entities, (IAS-31).	-do-	Class Test Final Exam Participation	CLO2 CLO4
12	Accounting for Non-Trading Concerns: Definition, objectives, capital fund, sources of revenues, receipts and payments account, preparation of the financial statements.	-do-	Class Test Final Exam Participation	CLO1
13	Accounting for Partnership Firms: Characteristics and formation of a partnership firm; admission of a partner, bonus to old partners, bonus to new partners.	-do-	Class Test Final Exam Participation	CLO6
14	Withdrawal/ retirement of a partner, bonus to retiring partner, bonus to remaining partners, death of a partner, liquidation of a partnership: no capital deficiency- capital deficiency	-do-	Class Test Final Exam Participation	CLO6

Part C

15. Assessment and Evaluation

1) Assessment Strategy

CLOs	**Teaching-Learning Strategy**	**Assessment Strategy**
CLO1	Lecture, Open Discussion	Test
CLO2	Lecture, Group work	Test/Class Performance
CLO3	Lecture, Viva-Voce	Test/Assignment

CLO4	Lecture, Consultations	Test
CLO5	Lecture, Analysis of academic texts, cases, and examples	Test
CLO6	Lecture, Consultations	Test

2) Marks distribution:

Assessment and Evaluation Factor		Marks
a) Continuous Assessment (40%)	Class Test	15%
	Assignment/Homework	05%
	Class Performance	05%
	Mid Term	15%
b) Final Examination		60%
Total Marks		100%

3) Make-up Procedures

- Missed Class Tests, Assignment, Class performance and Midterm: There will be no make-up exam if anyone intentionally misses class test or midterm exam without any valid and legitimate reason. Absence in the exams will be regarded as absent and Zero (0) marks will be applied. Notifying the instructor before the exam is a must if a student misses any exam for reasons beyond his/her control. In extreme circumstances, if the student cannot inform earlier, he/she must inform the instructor within three (3) days of the exam.
- RIB (Referred, Improvement and Backlog) exams will be conducted according to the Examination Policy for Undergraduate Programs of BAUST

BBA 2203, Organizational Behavior

Part A

1. Course Code : BBA 2203
2. Course Title : Organizational Behavior
3. Course Type : Core Course
4. Level/Term : 2-II
5. Academic Session : Summer 2022

6. Course Teacher(s) : Md. Shahadat Hossain
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

i. Understand individual behavior in organizations, including diversity, attitudes, job satisfaction, emotions, moods, personality, values, perception, decision making, and motivational theories.

ii. Understand group behavior in organizations, including communication, leadership, power and politics, conflict, and negotiations.

iii. Understand the organizational system, including organizational structures, culture, human resources, and change.

13. Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO1	Analyze individual and group behavior, and understand the implications of organizational behavior on the process of management.
CLO2	Identify different motivational theories and evaluate motivational Strategy used in a variety of organizational settings.
CLO3	Evaluate the appropriateness of various leadership styles and conflict management strategies used in organizations.
CLO4	Describe and assess the basic design elements of organizational structure and evaluate their impact on employees.
CLO5	explain how organizational change and culture affect working relationships within organizations

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	2	2		1	2	2	1

BBA 2204, Labor Law

Part A

1. Course Code : BBA 2204
2. Course Title : Labor Law
3. Course Type : Core Course
4. Level/Term : 2-II
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Zaber Hossain
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

i. To provide students on the importance of labour law and exposed them to the various concept of organizational structures.

ii. enable the students to understand the relationship between the employer, the worker and the union

iii. it will also make the student to understand how the industrial court perform their duties in case there is disputes between union, employer and the worker.

13. Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO 1	Describe the working conditions and appointment procedure of employees in the organization.
CLO 2	Know about the financial benefits of workers in an organization.
CLO 3	Describe the relationship of Employers and employees as well as the influence of the International Labor Organization (ILO).

Mapping of Course Outcomes to Program Outcomes-

	PLO 1	PLO 2	PLO 3	PLO 4	PLO 5	PLO 6	PLO 7

BBA 2205, Financial Management

Part-A

1.	Course Code	:	BBA 2205
2.	Course Title	:	Financial Management
3.	Course Type	:	Core Course
4.	Level/Term	:	2-II
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Md. Anowar Hossain
7.	Pre-requisite	:	BBA 1203
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the Course	:	Required Course

12. Course Objectives:

i) To understand the required skills for financial management of a firm.
ii) To understand the significance of various key decisions of a financial manager.
iii) To understand and apply issues related to corporate valuation.
iv) To understand and apply basic critical issues related to corporate restructuring, mergers-acquisitions.
v) To understand and apply basic critical issues related to corporate restructuring, mergers-acquisitions and dividend decisions.

13. Course Learning Outcomes (CLOs) and the mapping of CLOs with Program Learning Outcomes (PLOs):

CLO 1	Integrate ethical, compliance, and governance obligations of managers in organizations to contextualize managerial roles and responsibilities.
CLO 2	Investigate the nature and application of the four principal financial statements (i.e. the Income Statement, Statement of Financial Position, Statement of Cash Flows, and Statement of Changes in Equity) to inform managerial decision making.
CLO 3	Interpret quantitative and qualitative data to assess financial performance and position of an organization.
CLO 4	Prepare budgets to make decisions about planning, controlling, and directing activities.
CLO 5	Apply recognized evaluation methodologies to make Capital Investment Decisions.

Mapping of Course Outcomes to Program Outcomes-

BBA 3102, Production and Operations Management

Part A

1. Course Code : BBA 3102
2. Course Title : Production and Operations Management
3. Course Type : Core Course
4. Level/Term : 3-I
5. Academic Session : Summer 2022

6. Course Teacher(s) : Md. Rabiul Awal
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

i. To understand the linkages between process and operations design, business strategy and globalization.

ii. To understand the different elements of operations and how to analyze an operational environment in terms of these elements.

iii. To understand and address the challenges facing the operations manager by applying theoretical concepts to exploit innovative practices (e.g. lean system, location, layout, SPC, new technologies and the growing social agendas, such as CSR).

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand the basic concept of production, operations and other related issues.
CLO2	Analyze product design, operations strategy and focus on competitive priorities.
CLO3	Understand and apply statistical process control techniques, location and layout designing procedure with the goal of maximizing firm's productivity
CLO4	Analyze constraints and inventory management to ensure optimum utilization of firm's resources for creating utility
CLO5	Evaluate factors of lean systems of manufacturing that minimizes the wastage of production and supply chain process
CLO6	Evaluate comparative approaches to operations management in a global context.

Operations Management: Strategy and Analysis - Lee J. Krajewski and Larry P. Ritzman.

2) Supplementary Reading:

Restoring Our Competitive Edge: Competing through Manufacturing- Hayes and Wheelwright.

BBA 3103, Supply Chain Management

Part A

1.	Course Code	:	BBA 3103
2.	Course Title	:	Supply Chain Management
3.	Course Type	:	Core Course
4.	Level/Term	:	3-I
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Lima Nasrin Eni
7.	Pre-requisite	:	N/A
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the Course	:	Required Course
12.	Course Objectives	:	The objective of this course is to introduce students to the key concepts and techniques that will allow them to analyse, manage and improve supply chain processes for different industries and markets. With this text, students gain a deeper understanding of supply chains and a firm grasp on the practical managerial levers that can improve supply chain performance.

13. Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO1	Understand the structure of supply chains and the different ways through which supply chains can become competitive in the market
CLO2	Analyze the foundational role of logistics as it relates to transportation and warehousing.
CLO3	Develop an understanding of the importance of logistics in the formulation of the business strategy and the conduct of supply chain operations.
CLO4	Learn how to align the management of a supply chain with corporate goals and strategies.

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	3	2	3	3	3	3	2
CLO2	2	3	2	3	3	2	3
CLO3	3	3	2	3	2	2	2
CLO4	3	2	2	3	2	3	3

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	Topic	Teaching-Learning Strategy	Assessment Strategy	Corresponding CLOs
1	Understanding the Supply Chain: Definition of Supply Chain, The Objective of a Supply Chain, Decision Phases in a Supply Chain, Process Views of a Supply Chain.	Lecture notes, ppt, Textbooks, Reference books	Class Test Final Exam Participation	CLO1

2	Achieving Strategic Fit in a Supply Chain: Competitive and Supply Chain Strategies, how is Strategic Fit Achieved? Supply Chain Levers to Deal with Uncertainty, Expanding Strategic Scope.	-do-	Class Test Final Exam Participation	CLO3 CLO4
3	Supply Chain Drivers and Metrics: Financial Measures of Performance, A Framework for Supply Chain Decisions, Facilities, Inventory, Transportation, Information, Sourcing, Pricing.	-do-	Class Test Final Exam Participation	CLO2
4	Designing Distribution Networks and Applications to Omni-Channel Retailing: Factors Affecting Distribution Network Design in the Supply Chain, Design Options for a Distribution Network, Online Sales and Omni-Channel Retailing.	-do-	Class Test Final Exam Participation	CLO2
5	Network Design in the Supply Chain: The Role of Network Design in the Supply Chain, Factors Influencing Network Design Decisions, Framework for Network Design Decisions , Models for Designing a Regional Network Configuration , Models for Identifying Potential Sites in a Region , Models for Demand Allocation and Plant Location.	-do-	Class Test Final Exam Participation	CLO2
6	Designing Global Supply Chain Networks: The Impact of Globalization on Supply Chain Networks , The Importance of Total Cost in Global Networks, Risk Management in Global Supply Chains , Evaluating Network Design Decisions using Decision Trees , To Onshore or To Offshore: The Value of Flexibility in a Supply Chain Under Uncertainty	-do-	Class Test Final Exam Participation	CLO2
7	Demand Forecasting in a Supply Chain: The Role of Forecasting in a Supply Chain , Components of a Forecast and Forecasting Methods, Time-Series Forecasting Methods , Measures of Forecast Error , Building Forecasting Models using Excel.	-do-	Class Test Final Exam Participation	CLO4
	Mid Term			CLO4
8	Aggregate Planning in Supply Chain: Aggregate Planning and its Role in a Supply Chain, The Basic Trade-offs in Aggregate Planning, Aggregate Planning using Linear Programming , Aggregate Planning	-do-	Class Test Final Exam Participation	CLO4

	in Excel.			
9	Sales and Operations Planning in a Supply Chain: Responding to Predictable Variability in the Supply Chain, Sales and Operations Planning at Red Tomato.	-do-	Class Test Final Exam Participation	CLO1
10	Coordination in a Supply Chain: Lack of Supply Chain Coordination and its Impact on Performance , Obstacles to Coordination in a Supply Chain ,Managerial Levers to Improve Coordination, Some Practical Approaches to Improve Supply Chain Coordination.	-do-	Class Test Final Exam Participation	CLO4
11	Managing Economies of Scale in a Supply Chain Cycle Inventory: The Role of Cycle Inventory in a Supply Chain , Economies of Scale to Exploit Fixed Costs ,Aggregating Multiple Products in a Single Order, Economies of Scale to Exploit Quantity Discounts , Why do Suppliers offer Quantity Discounts?, Short-Term Discounting: Trade Promotions, Managing Multiechelon Cycle Inventory, Managerial Levers to Reduce Cycle Inventory.	-do-	Class Test Final Exam Participation	CLO2
12	Sourcing Decisions in a Supply Chain: The Sourcing Decision in a Supply Chain, Total Cost of Ownership, Designing a Sourcing Portfolio: Tailored Sourcing, Sharing Risk and Reward in the Supply Chain.	-do-	Class Test Final Exam Participation	CLO1
13	Pricing and Revenue Management in a Supply Chain: The Sourcing Decision in a Supply Chain, Total Cost of Ownership, Designing a Sourcing Portfolio: Tailored Sourcing, Sharing Risk and Reward in the Supply Chain.	-do-	Class Test Final Exam Participation	CLO4
14	Information Technology in a Supply Chain: The Role of IT in a Supply Chain, The Supply Chain IT Framework, The Future of IT in the Supply Chain.	-do-	Class Test Final Exam Participation	CLO1 CLO4

Part C

1) Recommended Reading:

Supply Chain Management: Strategy, Planning and Operation, Sunil Chopra, Peter Meindl & D. V. Kalra, 4th Edition, Pearson Education

2) Supplementary Readings:

Essentials of Supply Chain Management – **M.** Hugos- *Wiley*
Principles of Supply Chain Management- R. Crandall, W. Crandall, and C. Chen.

BBA 3104, Bank Management

Part A

1. Course Code : BBA 3104
2. Course Title : Bank Management
3. Course Type : Core Course
4. Level/Term : 3-I
5. Academic Session : Summer 2022
6. Course Teacher(s) : Shamima Islam and Nazmun Nahar Shova
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course

Course Objectives :

After completion of this course, students will be able to:

i. Describe the functions of commercial and thrift banking institutions as well as other financial service providers such as investment banking firms, security brokers and dealers, insurance companies and other non-depository organizations.

ii. Explain the evolution of banking, the organizational structure of banks, and how banking and other financially related legislation and regulation have impacted the operation of today's financial companies.

iii. Explain how commercial banks operate. Describe the importance of risk management in their operations, including how they compete in the market place with other financial service providers.

iv. Analyze financial institutions in terms of risk identification, risk measurement and control and the effect of risk on profitability and growth.

v. Understand why a balance must be achieved among liquidity, risk assumption, and profitability.

12. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO 1	Understand the Origin and the growth of the Banking System in Bangladesh.
CLO 2	Remember broad functions of banks, banking services and functions of the regulatory authority.
CLO 3	Analyze the functions of e-service of commercial banks in Modern Banking.
CLO 4	Classify the different types of Bank Accounts.
CLO 5	Understand the concept of loan management and foreign currency

BBA 3202, Human Resource Management

Part A

1. Course Code : BBA 3202
2. Course Title : Human Resource Management
3. Course Type : Core Course
4. Level/Term : 3-II
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Shahadat Hossain
7. Pre-requisite : N/A
8. Credit Value : 3.00

9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

i. Demonstrate an understanding of key terms, theories/concepts and practices within the field of HRM.

ii. Demonstrate competence in development and problem-solving in the area of HR Management.

iii. Provide innovative solutions to problems in the fields of HRM.

iv. Be able to identify and appreciate the significance of the ethical issues in HR.

v. Be able to evaluate HRM related social, cultural, ethical and environmental responsibilities and issues in a global context.

13. Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO1	Understand the basic concepts of human resource (HR) management, job analysis, recruitment and selection, training and development, performance management, and appraisal.
CLO2	Focus on the practical applications so as to know how to deal with HR related responsibilities.
CLO3	Evaluate the role of HR managers in determining suitable compensation packages for the employees
CLO4	Formulate HR plans to improve employee morals to achieve organizational goals.

BBA 3203, Fundamentals of Management Information System

Part A

Course Code	:	BBA 3203
Course Title	:	Fundamentals of Management Information System
Course Type	:	Core Course
Level/Term	:	3-II
Academic Session	:	Summer 2022
Course Teacher(s)	:	Lima Nasrin Eni
Pre-requisite	:	N/A
Credit Value	:	3.00
Contact Hours	:	42
Total Marks	:	300
Rationale of the Course	:	Required Course
Course Objectives	:	At the end of the Management Information System course, the student should be able to

i. Define the key terms.
ii. Describe the use and function of information systems.
iii. Describe and evaluate information systems development processes and techniques.
iv. Identify and evaluate hardware and software requirements for information systems.

Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO1	Understand IT infrastructure and emerging information systems and technologies in global business today
CLO2	Enable students to understand the use of information systems to gain a competitive advantage with the management of information as an organizational resource.
CLO3	Identify the role of IT in the acquisition, production, and distribution of goods and services.
CLO4	Understand Foundations of Business Intelligence: Databases and Information Management
CLO5	Provide students with tools and techniques of securing information systems.

BBA 4101, Cost and Management Accounting

Part A

1. Course Code : BBA 4101
2. Course Title : Cost and Management Accounting
3. Course Type : Core Course
4. Level/Term : 4-I
5. Academic Session : Summer 2022
6. Course Teacher(s) : Most. Mukta Khatun
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

i. Identify and explain the different elements of costs associated with producing an item.

ii. Define and determine direct materials cost including the things relevant to procurement, storage, issuance, valuation, planning materials requirements, stock levels etc.

iii. Explain and determine the direct labor cost involved with producing a product or service under different methods of paying remuneration and incentive plans.

iv. Describe the overhead expenses involved in production and calculate the relevant overhead including the methods of treating the under or over application of overheads in the books of account.

v. Understand variable costing and segment reporting and also differential analysis for different decisions.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO 1	Identify and explain the different elements of costs associated with producing an item.
CLO 2	Define and determine direct materials cost including the things relevant to procurement, storage, issuance, valuation, planning materials requirements, stock levels etc.
CLO 3	Explain and determine the direct labor cost involved with producing a product or service under different methods of paying remuneration and incentive plans.
CLO 4	Describe the overhead expenses involved in production and calculate the relevant overhead including the methods of treating the under or over application of overheads in the books of account.
CLO 5	Define Job Costing and Batch costing and compute the total costs of producing a product or service under Job and Batch costing systems.
CLO 6	Describe the concepts relating to contract costing and determine the total cost and profit of a contract considering some technical aspects relevant to contracts.
CLO 7	Understand variable costing and segment reporting and also differential analysis for different decisions.

	PLO 1	**PLO 2**	**PLO 3**	**PLO 4**	**PLO 5**	**PLO 6**	**PLO 7**

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	**Topic**	**Teaching-Learning Strategy**	**Assessment Strategy**	**Corresponding CLOs**
1	Introduction to Cost and Management Accounting: Manufacturing Concerns;	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1

	Definitions; Characteristics; Manufacturing Activity; Manufacturing vs. Non-Manufacturing Concerns; Producing Departments and Service Departments; Chart of Accounts; Financial Statements of a Manufacturing Concern;			
2	Cost Accounting as a Discipline: Definition and Objectives of Cost Accounting; Limitations of Financial Accounting; Importance of Cost Accounting; Cost Accounting vs. Financial Accounting vs. Management Accounting; Evolution of Cost Accounting; Methods and Techniques of Cost Accounting; Modern Trends in Cost Accounting;	-do-	Class Test Final Exam Participation	CLO1
3	Cost Concepts, Classification and Preparation of Cost Sheets: Concepts of Asset, Cost, Expense, and Loss; Classification of Costs; Cost Centre and Cost Unit; Cost Object; Cost Accounting Cycle; Factory Cost Flow; Statement of Cost of Goods Manufactured and Sold; Income Statement	-do-	Class Test Final Exam Participation	CLO2
4	Materials: Direct and Indirect Materials; Procurement of Materials; Storage of Materials; Materials Record; Bin cards, Stores ledger, Cost of Acquiring Materials, Methods of Valuing Materials, Issues, Planning Materials Requirements; Stock Levels: Economic Order Quantity, Safety Stock, Materials Control: Selective Control; ABC plan, VED Analysis Stock Valuation, Stock Verification and Adjustments.	-do-	Class Test Final Exam Participation	CLO4
5	Labor: Labor Cost Control, Recording of Time, Methods of Remuneration, Incentive Plans, Treatment of Idle Time, Over-time, Pension and Vacation Pay, Payment of Wages, Wages Abstract.	-do-	Class Test Final Exam Participation	CLO3

6	Overhead: Planning and Control of Factory Overhead; Predetermined Factory Overhead;	-do-	Class Test Final Exam Participation	CLO4
7	Methods of determining Allocation Ratios; Applied Factory Overhead; Departmental Allocation of Factory Overhead; Actual Factory Overhead: Over or Under Applied Factory	-do-	Class Test Final Exam Participation	CLO4
	Midterm			**CLO1, CLO3**
8	Overhead; Analysis of Variance, Administrative, Selling and Distribution Overhead: Applied and Actual, Accounting for Administrative, Selling and Distribution Overhead. ABC, Departmental rate: Plant-Wide rate.	-do-	Class Test Final Exam Participation	CLO4
9	Job Costing: Cost Measurement; Actual Costing, Normal Costing and Standard Costing; Nature and Procedure of Job costing,	-do-	Class Test Final Exam Participation	CLO5
10	Nature and uses of Batch Costing, Determination of Economic Batch Quantity, System Design.	-do-	Class Test Final Exam Participation	CLO5
11	Contract costing: Nature and Procedure; Determination of Profits or Losses on Incomplete Contract.	-do-	Class Test Final Exam Participation	CLO6
12	Contract costing: Nature and Procedure; Determination of Profits or Losses on Incomplete Contract.	-do-	Class Test Final Exam Participation	CLO6
13	Variable costing and segment reporting: Variable costing; absorption costing; preparation of income statement using different costing methods; traceable fixed cost; common fixed cost; segment margin; segment report for decision making.	-do-	Class Test Final Exam Participation	CLO7
14	Differential analysis: Cost concept for decision making; adding and dropping product lines and other segments; the make or buy decision;	-do-	Class Test Final Exam Participation	CLO7

	opportunity cost; special order; utilization of constrained resources.			

Part C

15. Assessment and Evaluation

1) Assessment Strategy

CLOs	Teaching-Learning Strategy	Assessment Strategy
CLO1	Lecture, Open Discussion	Test
CLO2	Lecture, Group work	Test/Class Performance
CLO3	Lecture, Viva-Voce	Test/Assignment
CLO4	Lecture, Consultations	Test
CLO5	Lecture, Analysis of academic texts, cases, and examples	Test

2) Marks distribution:

Assessment and Evaluation Factor		Marks
a) Continuous Assessment (40%)	Class Test	15%
	Assignment/Homework	05%
	Class Performance	05%
	Mid Term	15%
b) Final Examination		60%
Total Marks		100%

3) Make-up Procedures

- Missed Class Tests, Assignment, Class performance and Midterm: There will be no make-up exam if anyone intentionally misses class test or midterm exam without any valid and legitimate reason. Absence in the exams will be regarded as absent and Zero (0) marks will be applied. Notifying the instructor before the exam is a must if a student misses any exam for reasons beyond his/her control. In extreme circumstances, if the student cannot inform earlier, he/she must inform the instructor within three (3) days of the exam.
- RIB (Referred, Improvement and Backlog) exams will be conducted according to the Examination Policy for Undergraduate Programs of BAUST.

BBA 4102, Project Management

Part A

1. Course Code : BBA 4102
2. Course Title : Project Management
3. Course Type : Core Course
4. Level/Term : 4-I
5. Academic Session : Summer 2022
6. Course Teacher(s) : Shamima Islam
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

i. The successful development and implementation of all project's procedures.

ii. Productive guidance, efficient communication and apt supervision of the project's team.

iii. The achievement of the project's main goal within the given constraints.

iv. Optimization of the allocated necessary inputs

13. Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO 1	Recognize the Project Management knowledge areas with key inputs, tools and techniques and outputs.
CLO 2	Successfully utilize tools and techniques to demonstrate an effectively planned project.
CLO 3	Analyze project flow, resources, time lines and budget requirements.
CLO 4	Detail Analysis of Financial Aspect, Market Aspect, Technical Aspect, Working Capital and Economic Aspect of a Project.
CLO 5	Learn the networking techniques of a project, PERT and CPM methods.

	PLO 1	**PLO 2**	**PLO 3**	**PLO 4**	**PLO 5**	**PLO 6**	**PLO 7**

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	**Topic**	**Teaching-Learning Strategy**	**Assessment Strategy**	**Corresponding CLOs**

1	Introduction: Definition of Project- Project Management - Importance of Project Management-Project manager responsibilities- Environmental forces and Project Management - Difficulties in Managing projects.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1
2	Project Cycle Analysis: Project formulation- Project identification- Capital Investments- Phases of Capital Budgeting- Facets of Project Analysis- Elementary Investment Options- Portfolio Planning.	-do-	Class Test Final Exam Participation	CLO1
3	Generation and Screening of Project Ideas: Monitoring the Environment Corporate Appraisal- Profit Potential of Industries- Porter Model- Scouting for Project Ideas- Project Rating Index.	-do-	Class Test Final Exam Participation	CLO1 CLO3
4	Market and Demand Analysis: Conduct of Market Survey- Characterization of the Market- Demand Forecasting- Pricing and Product promotion Policy.	-do-	Class Test Final Exam Participation	CLO1 CLO4
5	Technical Analysis: Manufacturing Process and Technology- Technical Arrangement- Structures and Civil works- Project Chats and Layouts- Project Implementation Schedule.	-do-	Class Test Final Exam Participation	CLO3
6	Financial Estimates & Projections: Cost of Project- Means of Financing- Syndicate Financing, Sales Estimate- Working Capital- Raw.	-do-	Class Test Final Exam Participation	CLO1
7	Material costing- Sensitivity Analysis- Financial Expense Calculation- Benefit Cost Ratio- Payback Ratio Profitability Analysis- Break Even Point-	-do-	Class Test Final Exam Participation	CLO2

	Financial Projection.			
Mid Term				**CLO1,CLO 2**
8	Investment Criteria: Capital Budgeting Techniques (NPV, IRR, ERR, PBP, BCR) & Capital Rationing: Techniques to measure the degree of risk.	-do-	Class Test Final Exam Participation	CLO1
9	Risk and Uncertainty Analysis of a project: Techniques to measure the degree of risk to overcome the same - Sensitivity Analysis.	-do-	Class Test Final Exam Participation	CLO1 CLO2
10	Network Techniques for Project Management: Use of CPM and PERT techniques in cost and time management of projects- Gantt Chart- Crash and Normal time of the Project.	-do-	Class Test Final Exam Participation	CLO1
11	Social Cost Benefit Analysis (SCBA): Rationale of SCBA - UNIDO Approach SCBA in Bangladesh- Calculation of Net benefit from Private Angle- Net Benefit from Economic Angle.	-do-	Class Test Final Exam Participation	CLO2 CLO3
12	Financing of Projects: Capital Structure- Equity Capital- Term Loans- Working Capital Advance- Raising Venture Capital.	-do-	Class Test Final Exam Participation	CLO4
13	Project Implementation, Monitoring & Evaluation: Different stages of project implementation guidelines- Project monitoring guidelines- Methods of effective project evaluation.	-do-	Class Test Final Exam Participation	CLO5
14	Working Capital Financing: Definition of Working Capital- Features and Importance- Mathematics problems and solutions from Working Capital Financing.	-do-	Class Test Final Exam Participation	CLO5

BBA 4103, Strategic Management

Part A

1. Course Code : BBA 4103
2. Course Title : Strategic Management
3. Course Type : Core Course
4. Level/Term : 4-I
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Shahadat Hossain
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42

10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

i. To identify and assess the impact of opportunities and threats in a company's environment, its industry, and its set of competitors.

ii. To identify and assess a company's strengths and weaknesses, and match them with its opportunities and threats to suggest four alternative strategies

iii. To identify, analyze, and synthesize data and information that supports company decision-making to improve customer satisfaction, and overall financial performance

iv. To describe the generic and business-specific factors that reflect a company's overall operational performance, and its performance in its business units and functional business areas including corporate ethical, and social responsibility.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Identify the forces impacting on corporate and business strategies
CLO2	Be critically aware of factors involved in strategy making
CLO3	Assess the resources and constraints for strategy making in a business context
CLO4	Explain the importance of social, cultural, economic, technological and political forces

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	3	3	1	3	3	2	3
CLO2	3	1	2	3	3	2	3
CLO3	2	3	3	2	3	3	2
CLO4	3	2	3	3	2	3	2

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	**Topic**	**Teaching-Learning Strategy**	**Assessment Strategy**	**Corresponding CLOs**
1	The concept of strategy – A Broad Overview- Level of strategy- Strategy of different MNCs'	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1
2	Strategy formulation, Strategy implementation and evaluation activities, Competitive advantage, Core competence, Competitive advantage of organizations	-do-	Class Test Final Exam Participation	CLO2
3	Nature of Strategic Management - The strategic Management Process, analysis and intuition in strategic management, benefits of good strategic management	-do-	Class Test Final Exam Participation	CLO1 CLO3
4	Business Vision and Mission- Nature and role of vision	-do-	Class Test Final Exam	CLO1 CLO3

	statements in strategic management, nature and role of mission statements in strategic management, process of developing a vision and mission statement		Participation	
5	The characteristics of a good mission statement, how clear vision and mission statements can benefit other strategic-management activities;	-do-	Class Test Final Exam Participation	CLO2
6	Internal Assessment -Nature and role of an internal assessment, nature and role of marketing, production/operations, finance and accounting, research and development (R&D), management information systems (MIS), Internal Factor Evaluation (IFE) Matrix	-do-	Class Test Final Exam Participation	CLO3
7	External Assessment- Nature and purpose of an external assessment, 10 external forces that must be examined in formulating strategies	-do-	Class Test Final Exam Participation	CLO2
	Mid Term			**CLO1, CLO3**
8	Porter's Five Forces Model, forecasting tools and techniques, External Factor Evaluation (EFE) Matrix	-do-	Class Test Final Exam Participation	CLO1
9	Strategy Analysis and Choice-Strategy analysis and choice process, three-stage strategy-formulation analytical framework	-do-	Class Test Final Exam Participation	CLO1 CLO2
10	SWOT Matrix, Strategic Position and Action Evaluation (SPACE) Matrix, BCG Matrix	-do-	Class Test Final Exam Participation	CLO1
11	Internal-External (IE) Matrix, Grand Matrix, Quantitative Strategic Planning Matrix (QSPM), important political considerations in strategy analysis and choice	-do-	Class Test Final Exam Participation	CLO2 CLO3
12	Strategy Review, Evaluation, and Control-Strategy-evaluation process, criteria, and methods used, activities that comprise strategy evaluation, develop a Balanced Scorecard	-do-	Class Test Final Exam Participation	CLO2
13	Nature and role of contingency planning in strategy evaluation, six characteristics of an effective strategy evaluation system	-do-	Class Test Final Exam Participation	CLO3
14	International Issues-Business culture found in Mexico, Japan, China, and India; explain why this is a strategic issue. Business climate in Africa, China, Indonesia, India, Japan, Mexico, and Vietnam; explain why this is a strategic issue	-do-	Class Test Final Exam Participation	CLO4

Part C

15. Assessment and Evaluation

1. Assessment Strategy:

BBA 4104, Business Research Methods

Part A

1. Course Code : BBA 4104
2. Course Title : Business Research Methods
3. Course Type : Core Course
4. Level/Term : 4-I
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Anowar Hossain
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required course
12. Course Objectives: The course is designed to;
    - i) Enable the students understanding the basic of research
    - ii) Make students confident in collection, analysis and interpretation of research data
    - iii) Equip students with Hands on problem solving research for business purposes.

13. Course Learning Outcomes: at the end of the course, the students will be able to-

CLO1	Build the foundation of scientific thinking;
CLO2	Understand the framework of the business research process;
CLO3	Develop an understanding of research design and techniques
CLO4	Conduct basic qualitative and quantitative research, and
CLO5	Equip the students for scholarly writing and evaluate the report.

Mapping of Course Learning Outcomes (CLOs) to Program Learning Outcomes (PLOs)-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	3	1		1	2	2	
CLO2	2		3	2		2	2

CLO4		2	2	1		2	
CLO5	1	2		2	2		2

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	**Topic**	**Teaching-Learning Strategy**	**Assessment Strategy**	**Corresponding CLOs**

1	Introduction to Research Methodology: Meaning, Objectives, and significance of Research in business. Types of Research, Research Approaches, Research Methods Vs. Research Methodology.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1
2	Research Process: Stages, Concept of Variables, Stages with Forward and Backward linkages, Hypothesis, Models, Ethical Issues in Research	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO2
3	Research Problem: Formulation of Research Problems, Selecting Research Problems, Necessity of Defining Research Problems, Induction and Deduction and Combining inductive and Deductive reasoning, Techniques involved in defining Research Problems.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO2
4	Research Design: Need for Research Design, Features of Good Research Design,	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO2 CLO3
5	Research Design: Important Concepts, Relevant to Research Design, Types of Research Design			CLO3
6	Formulating a Research Problem: Reviewing the literature, Defining a research problem, Identifying variables,	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO2
7	Formulating a Research Problem: Developing research questions, Constructing hypotheses.			CLO3
	Mid Term			**CLO2 CLO3**
8	Sampling Design: Concepts of Population and Sample, Parameter and Statistic, Implications of Sample Design, Steps involved in Sampling Design, Types of Sampling, Methods of Sampling, Criteria for selecting a Sampling Procedure" Concept of Standard Error, Point and Interval Estimation of Population Parameters (Mean and Variance), Sample Size	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO2 CL03

	Determination, Confidence Level.			
9	Data Collection Procedure: Methods of Collecting Primary and Secondary Data, Designing Questionnaire, Pilot Survey, Business Practice of case studies	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO3 CLO4
11	Data Measurement: Measurement in Research, Measurement Scales, Types of Scales, Sources of Errors in Measurement, Test of Sound Measurement, Techniques of Developing Measurement Tools, Scaling, Important Scaling Techniques, Scale Construction Techniques.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO4
12	Hypothesis Testing: Introduction to Hypothesis Testing, Null hypothesis and alternative hypothesis, level of significance, power of the test; A General Procedure for Hypothesis Testing, Hypothesis Testing Related to Differences, Parametric and Non-parametric Tests.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO4 CLO5
13	Analysis of Data: Multivariate Data Analysis: Multiple Correlation and Regression Analysis, Partial Correlation and Regression, Multicollinearity: Diagnosis and Remedy Processes, Example of Business Problems. Review of Testing Procedures of Parametric Hypotheses. Testing Nonparametric Hypotheses: Chi-Square Test, Sign Test, Rank Test, and Example of Business Problems. Analysis of Variance (ANOVA),	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO5
14	Interpretation and Report Writing: Meaning and Significance of Report Writing, Different Steps involved in Report Writing, Layout of the Research Report, Types of Reports, Oral Presentation Techniques of Reports, Footnoting, Bibliography, Referencing and Citation"	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO4, CLO5

Part C

15. Assessment and Evaluation

1) Assessment Strategy

CLOs	Teaching-Learning Strategy	Assessment Strategy

ii. Research in Education, 10th Ed., Best & Kahn

BBA 4105, E-Business

Part A

1. Course Code : BBA 4105
2. Course Title : E-Business
3. Course Type : Core Course
4. Level/Term : 4-I
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Anowar Hossain
7. Pre-requisite : N/A
8. Credit Value : 4.00
9. Contact Hours : 42
10. Total Marks : 400
11. Rationale of the Course : Required Course
12. Course Objectives **:**

i) Understand the contribution of electronic channel for business;

ii) Make a connection between theoretical knowledge and real world of business through online;

iii) Prepare, analyze and manage electronic business with competitive edge over intense competitive industry.

13. Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO1	Discuss modern computing infrastructures from the perspective of the internet and organizations
CLO2	Explain theoretical and practical issues of conducting business over the internet and the Web
CLO3	Reflect on general principles revealed through practical exploration of specific tools, techniques and methods in e-business

Mapping of Course Outcomes to Program Outcomes-

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	3	2	3	2	2	3	2
CLO2	3	3	2	3	1	2	1
CLO3	3	3	2	3	3	3	2

Part-B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	**Topic**	**Teaching Learning Strategy**	**Assessment Strategy**	**CLOs**
1-2	**Introduction to E-Business and E-**	Class Lecture	Class Test, Quiz Test	CLO1

	Commerce: E-Business opportunities, E-Business risks, Difference between E-Business and E-Commerce, significance of e-commerce investment adoption, Introduction the B2B and B2C Companies, Management response to e-commerce and e- business.	(Lecture Notes, ppt, Reference books)	Final Exam Participation	
3-4	**E-Commerce Fundamental:** The ecommerce environment, the e-commerce marketplace, Marketplace channel structure, Different types of online intermediary and the importance of Multi-Channel Marketplace Models. Focus on portals, importance of search engines, Commercial arrangement for transitions.	Class Lecture (Lecture Notes, ppt, Reference books)	Class Test, Quiz Test Final Exam Participation	CLO1 CLO2
5-7	**E-Business Infrastructure: T**he Internet, internet timeline, intranets and extranets, World Wide Web, Voice over IP (VoIP), Networking standard, The Http Protocol, Uniform resource locator(URL), Domain Names, Web Presentations and data exchange standard, Audio video standard, Focus on who control the internet, managing e-business infrastructure, the future of the internet infrastructure.	Class Lecture (Lecture Notes, ppt, Reference books)	Class Test, Quiz Test Final Exam Participation	CLO1 CLO2
	MID TERM EXAM		EXAM	CLO3
8-9	**E-Business Strategy**: The imperative for e-business strategy, E-channel strategy, strategy process model for e-business, Strategic analysis, Resource and process analysis, competitive environment analysis, assessing competitive threat, Competitor analysis, strategic objectives, defining vision and mission, how can e- business create business value, strategy definition, strategy implementation, Elements of IS strategy, investment arrival.	Class Lecture (Lecture Notes, ppt, Reference books)	Class Test, Quiz Test Final Exam Participation	CLO2
10-11	**E-Procurement:** What is E-Procurement? Understanding the e-procurement, types of e-procurement drivers of e-procurement, Focus on	Class Lecture (Lecture Notes, ppt, Reference books)	Class Test, Quiz Test Final Exam Participation	CLO2, CLO3

	estimating of e-procurement cost saving, Risks and impacts of e-procurement, implementing of e-procurement, the future of e-procurement.			
12-13	**E-Marketing:** What is e-marketing, marketing defined, e-marketing defined, distinguish between e-marketing, is a separate e-marketing plan required, situation analysis, demand analysis and other essential analysis. market and product positioning, target market strategies, Focus on characteristics of new media marketing communications, tactics, product, price, list, people process and physical evidence, focus on online branding, actions, control.	Class Lecture (Lecture Notes, ppt, Reference books)	Class Test, Quiz Test Final Exam Participation	CLO3
14	**Customer Relationship Management:** Introduction, marketing applications of CRM, what is e-CRM, Benefits of e-CRM, Permission marketing, customer profiling, conversation marketing, the online buying process, customer accusation management, customer retention management, online communities, customer extension, technologies solutions for CRM, types of CRM applications.	Class Lecture (Lecture Notes, ppt, Reference books)	Class Test, Quiz Test Final Exam Participation	CLO3

Part-C

15. Assessment and Evaluation:

1) Assessment Strategy:

CLOs	**Teaching-Learning Strategy**	**Assessment Strategy**
CLO1	Lecture/Exercise	Test
CLO2	Lecture/Exercise, Consultations	Test/Class Performance
CLO3	Presentation/Open Discussion/Debate/Written assignment/Group work/Individual work	Test/Assignment

2) Marks distribution:

BBA 4106, Tourism and Hospitality Management

Part A

1.	Course Code	:	BBA 4106
2.	Course Title	:	Tourism and Hospitality Management
3.	Course Type	:	Core Course
4.	Level/Term	:	4-I
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Goutam Saha
7.	Pre-requisite	:	N/A
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the	:	Required Course

12. Course Objectives :

i. Evaluate the organization and function of the tourism and hospitality industry at the end of the program.

ii. Assess leadership, supervisory and human relation skills within the tourism and hospitality industry.

iii. Implement effective sales techniques and procedures including marketing, public relations, and entrepreneurship within the tourism and hospitality industry.

iv. Analyze laws affecting the hospitality industry.

v. Implement safety and sanitation measures.

vi. Generate essential food production and cost control skills.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Analyze the investment trends and hospitality development patterns of international hospitality firms.
CLO2	Identify emerging overseas markets for tourism and hospitality development.
CLO3	Understand the socio-economic impact of developing tourism industry in developing countries.
CLO4	Explore matters of interest related to hotel management and administration in all its dimensions.

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	**Topic**	**Teaching-Learning Strategy**	**Assessment Strategy**	**Corresponding CLOs**
1	Basics of Tourism: Definition, Tourist Typologies- Different forms of Tourism- Economic impact of Tourism.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1
2	Understanding Tourism, Tourism Management, its components, Approaches to the study of Tourism.	-do-	Class Test Final Exam Participation	CLO1
3	Evolution of Tourism: Introduction, Great Empires, The Middle Ages.	-do-	Class Test Final Exam Participation	CLO2
4	The Renaissance, The Industrial Revolution and Tourism Today.	-do-	Class Test Final Exam Participation	CLO3

5	Organizations that facilitate tourism: Introduction, International Organizations, Developmental Organizations, Regional International Organizations.	-do-	Class Test Final Exam Participation	CLO2
6	National Organizations, Regional Organizations, State and Community Organizations, Effects of Tourism on Individual, Family, Society, and State- Mass Vs Moral Tourism.	-do-	Class Test Final Exam Participation	CLO1
7	Reasons for Travel- Cultural Consideration in Tourism- Socio-Cultural-Political Barriers in Tourism.	-do-	Class Test Final Exam Participation	CLO2
Mid Term				**CLO1, CLO2**
8	Tourism Distribution Process: Introduction, Travel Agents, Internet, Consolidators, The Tour Wholesaler, Specialty Channelers.	-do-	Class Test Final Exam Participation	CLO3
9	Passenger Transportation: Different Transportation Methods, Supply components of a Tourist Area- Measuring and Forecasting Tourist Demand- Planning Process for Tourism.	-do-	Class Test Final Exam Participation	CLO2 CLO3
10	Goals for Tourism Development- Political Aspects of Tourism Development- Development of Tourist Potential.	-do-	Class Test Final Exam Participation	CLO3
11	Attractions: Natural Environmental Attractions, Manufactured Attractions, Marketing of Rural and Urban Tourism.	-do-	Class Test Final Exam Participation	CLO3 CLO4
12	Marketing of different Attractions like Natural, Environmental and Manufactured Attractions.	-do-	Class Test Final Exam Participation	CLO3
13	Hospitality and Related Services: Introduction, Accommodations (The Lodging Industry).	-do-	Class Test Final Exam Participation	CLO4
14	The Food Service Industry, Tourism Life Cycle, Destination Marketing, Contemporary Avenues in Tourism	-do-	Class Test Final Exam Participation	CLO3

Part C

15. Assessment and Evaluation

1) Assessment Strategy

CLOs	**Teaching-Learning Strategy**	**Assessment Strategy**
CLO1	Lecture, Open Discussion	Test
CLO2	Lecture, Group work, Case Solution	Test/Class Participation

CLO3	Lecture, Viva-Voce, examples	Test/Assignment
CLO4	Lecture, Consultations, examples	Test

2) Marks Distribution

Assessment and Evaluation Factor		Marks
a) Continuous Assessment (40%)	Class Test	15%
	Assignment/Homework	05%
	Class Performance	05%
	Mid Term	15%
b) Final Examination		60%
Total Marks		100%

3) Makeup Procedures

- Missed Class Tests, Assignment, Class performance and Midterm: There will be no make-up exam if anyone intentionally misses class test or midterm exam without any valid and legitimate reason. Absence in the exams will be regarded as absent and Zero (0) marks will be applied. Notifying the instructor before the exam is a must if a student misses any exam for reasons beyond his/her control. In extreme circumstances, if the student cannot inform earlier, he/she must inform the instructor within three (3) days of the exam.
- RIB (Referred, Improvement and Backlog) exams will be conducted according to the Examination Policy for Undergraduate Programs of BAUST.

2) Supplementary Reading:

Marketing for Hospitality and Tourism Book by James C. Makens, John T. Bowen, and Philip Kotler

ACT 4201, Management Accounting

Part A

1. Course Code : ACT 4201
2. Course Title : Management Accounting
3. Course Type : Elective Course
4. Level/Term : 4-II
5. Academic Session : Summer 2022
6. Course Teacher(s) : Rakibul Islam
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course

12. Course Objectives :

i. To introduce the students to the emerging changes in the modern business environment

ii. To develop the analytical, technical and managerial skills of students in the various areas of Business Administration

iii. To empower to students with necessary skill to become effective future managers and leaders

iv. To develop Technical skills among the students for designing and developing effective Functional strategies for growth and sustainability of business

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO 1	Define managerial accounting and explain the various cost concepts and philosophies including their applications in making effective plans and budgets.
CLO 2	Appraise the use of making organizational budgets and prepare various operational budgets for cost control and profit planning.
CLO 3	Evaluate the budgetary control practices in government institutions and public enterprises of Bangladesh.

ACT 4202, Corporate Financial Reporting and Professional Issues

Part A

1.	Course Code	:	ACT 4202
2.	Course Title	:	Corporate Financial Reporting and Professional Issues
3.	Course Type	:	Elective Course
4.	Level/Term	:	4-II
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Most. Mukta Khatun
7.	Pre-requisite	:	Elective Course
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the Course	:	Required Course
12.	Course Objectives	:	

i) Demonstrate an understanding of the Australian external reporting environment and its challenges.

ii) Demonstrate a deep and broad understanding of the objectives and social and economic roles played by financial accounting and reporting.

iii) Analyse, evaluate and interpret various advanced measurement and disclosure issues and other specialised topics pertaining to an economic entity.

iv) Apply main features of a selection of Australian accounting standards.

v) Analyse complex issues, formulate well reasoned and coherent arguments and reach well considered conclusions.

13. Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO 1	Understand the international accounting standards, its development, and ethical issues;

CLO 2	Accustom with accounting policies, changes in accounting estimates and errors
CLO 3	Comprehend the preparation and presentation of financial statements and their contents in the ever-changing corporate environment ;
CLO 4	Understand Fair Value Measurement, Business Responsibility Reporting; Financial Instruments
CLO 5	Appreciate the preparation of revenue statement and accounting for construction contract as well as assessing employee benefits;
CLO 6	Familiar with Extended Business Reporting Language

4	Currency Derivatives Forward Market, How MNCs Use Forward Contracts, Currency Futures Market, Contract Specifications, Credit Risk of Currency Futures Contracts, How Firms Use Currency Futures, Speculation with Currency Futures,	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO3
5	Currency Derivatives Currency Options Market, Option Exchanges, Over-the-Counter Market, Currency Call Options, Factors Affecting Currency Call Option Premiums, Currency Put Options, Speculating with Currency Put Options, Contingency Graph for a Buyer of a Put Option, Contingency Graph for a Seller of a Put Option	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO3
6	International Financial Markets: foreign exchange market, international money market, bond market and stock markets	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO2 CLO3
7	Exchange Rate Determination: Exchange rate, movements of exchange rate, measurement of exchange rate movement, equilibrium exchange rate and determination, factors that affect the equilibrium exchange rate.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO3 CLO4
	Mid Term			**CLO3 CLO4**

8	Government Influence on Exchange rates: Exchange rate systems used by various governments; development and implications of a single European currency.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO4
9	Government Intervention: Governments intervention to influence exchange rates, government intervention in the foreign exchange market and its effect on economic conditions.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO4
10	Relationships among Inflation, Interest rates, and Exchange Rates: Purchasing power parity (PPP) theory and its implications for exchange rate changes; The international Fisher effect (IFE) theory and its implications for exchange rate changes.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO5
11	Implication of different theories: Compare the PPP theory, the IFE theory, and the theory of interest rate parity (IRP), which was introduced in the previous chapter.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO4
12	Measuring Exposure to Exchange Rate Fluctuations: Discuss the relevance of an MNC's exposure to exchange rate risk; explain how transaction exposure can be measured.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO5
13	Impact of Exposure to Exchange Rate Fluctuations: Explain how economic exposure can be measured; explain how translation exposure can be measured.	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO5
14	Forecasting Exchange Rates Why Firms Forecast Exchange Rates, Forecasting Techniques, Technical Forecasting, Fundamental Forecasting, Market-Based Forecasting, Forecast Bias, Comparison of Forecasting Methods, Forecasting	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO4

	under Market Efficiency			

Part C

15. Assessment and Evaluation

1) Assessment Strategy

CLOs	**Teaching-Learning Strategy**	**Assessment Strategy**
CLO1	Lecture, Open Discussion	Test
CLO2	Lecture, Group work	Test/Class Performance
CLO3	Lecture, Viva-Voce	Test/Assignment
CLO4	Lecture, Consultations	Test
CLO5	Lecture, Analysis of academic texts, cases, and examples	Test

2**) Marks distribution:**

Assessment and Evaluation Factor		Marks
a. Continuous Assessment (40%)	Class Test	15%
	Assignment/Homework	05%
	Class Performance	05%
	Mid Term	15%
b. Final Examination		60%
Total Marks		100%

3) Make-up Procedures

- Missed Class Tests, Assignment, Class performance and Midterm: There will be no make-up exam if anyone intentionally misses class test or midterm exam without any valid and legitimate reason. Absence in the exams will be regarded as absent and Zero (0) marks will be applied. Notifying the instructor before the exam is a must if a student misses any exam for reasons beyond his/her control. In extreme circumstances, if the student cannot inform earlier, he/she must inform the instructor within three (3) days of the exam.
- RIB (Referred, Improvement and Backlog) exams will be conducted according to the Examination Policy for Undergraduate Programs of BAUST.

PART-D

16. Learning Materials

1) Recommended Reading:

International Financial Management, Jeff Madura 11th Edition

2) Supplementary Readings:

i. The Economics of Money, Banking and Financial Markets (9/e), Miskin, F. S: The Addison-Wesley, 2010.
ii. International Finance and Banking- Dr. P. G. Gopalakrishnanan

MGT 4201, Industrial Relations

Part A

1.	Course Code	:	MGT 4201
2.	Course Title	:	Industrial Relations
3.	Course Type	:	Elective course
4.	Level/Term	:	4-II
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Lima Nasrin Eni
7.	Pre-requisite	:	N/A
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the Course	:	Required Course
12.	Course Objectives	:	The course helps the student understand and apply the concept of industrial relations and the system in which it operates. It plays a crucial role in the design of the major and as an elective. Its content gives students a broad overview and a critical appreciation of important contextual factors that affect each of the areas they may choose to study. It is also oriented towards discussing questions that have an immediate resonance in current public debates about the workplace to increase students ability to engage knowledgably with these discussions as a manager, employee and/or citizen

13. Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO1	Understand the objective, scope, principles, and role of industrial relations
CLO2	Analyzing trade unionism, trade union functions, industrial disputes
CLO3	Know about conflict management strategies: grievance handling, employee discipline, industrial collective bargaining, Workers' Participation in Management
CLO4	Develop the concepts of wage administration, Employee Communication, employee health, security, safety, training, and education

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	3	2	2	3	1	2	2
CLO2	2	2	2	2	2	2	3
CLO3	2	2	1	2	2	1	3
CLO4	2	2	1	3	3	2	2

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	Topic	Teaching-Learning Strategy	Assessment Strategy	Corresponding CLOs
1	Objective, Scopes, principles of industrial relations: Definition, Objectives and Scopes of Industrial Relations- Significance of Industrial Relations- Causes of Poor Industrial Relations- Objectives of Industrial Relations- Approaches to Industrial Relations- Principle and Role of Industrial Relations	Lecture notes, ppt, Textbooks, Reference books	Class Test Final Exam Participation	CLO1
2	Role of trade unions in maintaining Industrial Relations: Principles of Good Industrial Relations- Role of state in industrial relations- Role of management in industrial relations- Role of trade unions in maintaining industrial relations- The labor management synergy- Planning Industrial Relations: Tasks Ahead	-do-	Class Test Final Exam Participation	CLO1
3	Trade Unionism: Meaning of Trade Union, Organized Labor and Labor movement- Difference between Labor Movement and Trade Union Movement- Need for Trade Union- Functions of Trade Unions- Functions relating to trade union members	-do-	Class Test Final Exam Participation	CLO2
4	Trade Union Functions: Functions of Trade Unions - Functions relating to industrial organization- Functions relating to trade unions organization- Functions relating to society- Problems of Trade Union Multiplicity of trade unions- Financial weakness- Problems of recognition of trade unions- Politicization of the unions	-do-	Class Test Final Exam Participation	CLO2
5	Government, Labor Union, and International Trade Union: Recommendations of Government on Labor for Strengthening Trade Unions- Improvement of financial condition- World Federation of Trade Unions (WFTU)- International Confederation of Free Trade Unions (ICFTU)- International Labor Organization	-do-	Class Test Final Exam Participation	CLO2

	(ILO)			
6	Industrial Disputes: Concept of Industrial Disputes- Causes and Forms of disputes- Voluntary Methods for solving industrial dispute- Types of Strikes: Lockout, Gherao, Hartal, Blockade; Code of discipline	-do-	Class Test Final Exam Participation	CLO2
7	Dispute solving through Workers' participation Collective bargaining- Works committees- Conciliation- Voluntary arbitration- Court of enquiry- Adjudication	-do-	Class Test Final Exam Participation	CLO2
	Mid Term			**CLO3**
8	Grievances Handling: Areas of Grievances- Methods of Identifying Grievances- Principles or Guidelines for Grievance Handling- Steps in handling grievances- Grievance handling procedures	-do-	Class Test Final Exam Participation	CLO3
9	Employee Discipline: Employee Discipline- Aims and objectives of Employee Discipline- Causes for indiscipline in organizations- Principles of Effective Discipline- Approaches to Discipline Enforcement- Code of Discipline	-do-	Class Test Final Exam Participation	CLO3
10	Collective Bargaining: Concept of Collective bargaining- Collective bargaining as a process of social change- Principles of Collective bargaining- Importance of Collective bargaining- Forms of Collective Bargaining- The Contents of Collective Bargaining Agreements- Process of Collective Bargaining-	-do-	Class Test Final Exam Participation	CLO3
11	Workers' Participation in Management: Workers' Participation in Management- Objectives of Workers' Participation in Management- Levels of Workers' Participation in Management- Forms of Workers' Participation in Management- Workers' Participation in Management in Bangladesh	-do-	Class Test Final Exam Participation	CLO3
12	Wage Administration and Industrial Relation: Provision of minimum wages in sweated industries- Wage Regulation Machinery- Evaluation of wage boards	-do-	Class Test Final Exam Participation	CLO4
13	Employee Communication	-do-	Class Test	CLO4

	:Methods of Communication- Forms of Organizational Communication- Barriers in communication- Solutions for the barriers of communications		Final Exam Participation	
14	Employee Safety, Security training, education and Accidents: Industrial Safety Inspections- Investigation of accidents- Measurement of industrial safety- Employee Counseling for safety and safeguard, Compliance, Ensuring compliance	-do-	Class Test Final Exam Participation	CLO4

Part C

1) Recommended Readings:

- Tripathi P.C., "Personnel Management and Industrial Relations", Sultan Chand and Sons, New Delhi.
- Bhagoliwal T. N. "Personnel Management and Industrial Relatoin", SahityaBhawan, Agra.

2) Supplementary Readings:

- Mamoria C B &SathishMamoria, "Dynamics of Industrial Relations", Himalaya Publishing House, Mumbai.
- Daver R.S. "Personnel Management and Industrial Relations", Vikash Publications, New Delhi.
- Kapur S. K. & Punia B.K. "Personnel Management and Industrial Relations", S.K. Publishers, New Delhi.

MGT 4202, Comparative Management

Part A

1.	Course Code	:	MGT 4202
2.	Course Title	:	Comparative Management
3.	Course Type	:	Elective Course
4.	Level/Term	:	4-II
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Md. Rabiul Awal
7.	Pre-requisite	:	N/A
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the Course	:	Required Course
12.	Course Objectives	:	

i. To help students develop an awareness of the concepts of global culture and institutions and their pervasive and hidden influence on behavior in organizations, particularly with respect to management and management practices.

ii. To provide students with comprehensive knowledge of various management styles practiced by managers in different countries and different business contexts, with the aim of preparing them to manage different organizations successfully.

iii. To become students familiar with the types of situations and issues that managers confront when working internationally or in otherwise diverging contexts (e.g., functional areas, professions and industries) and to appreciate the impact of working in a different context on one's personal behavior.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand the concept of Comparative Management, culture in Management
CLO2	Analyzing Asian, American, Japanese, Western European, English, German culture, economy, management system and practices
CLO3	Know about Bangladeshi culture, economy, Management system and Practices
CLO4	Developing the Comparative study of various motivation and leadership theories of management

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**

MGT 4203, Organization and Management Development

Part A

1. Course Code : MGT 4203
2. Course Title : Organization and Management Development
3. Course Type : Elective Course
4. Level/Term : 4-II
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Rabiul Awal
7. Pre-requisite : N/A
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

i. To understand the basic theories upon which the field of OD is based.
ii. To have developed an understanding of the challenges of leading a planned change

initiative and methods to increase the likelihood of success.

iii. To have developed a working knowledge of all aspects of the OD intervention process including entering and contracting, data collection and diagnosis, intervention methodologies, implementation, and sustaining change.

iv. To understand the unique challenges of attempting an organization transformation.

v. To understand the roles that consultants, internal or external, can play in the OD process, and;

vi. To have improved their own facilitation skills through a team facilitation assignment.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Understand the key concepts, theories, short history and future of organization and management development
CLO2	Analyze the theories of planned change to solve identified problems and to boost managerial performance
CLO3	Evaluate the roles of OD practitioners to get concrete idea of internal and external consultants
CLO4	Analyze the key steps of organization and management development to implement and stabilize the change in the organization
CLO5	Understand the key dimensions of techno-structural, human process and human resource intervention to bring and stabilize planned change
CLO6	Evaluating the institutionalized changes in the different organizational levels and phenomena to increase financial and managerial performance of an organization

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**

MGT 4205, Total Quality Management

Part A

1. Course Code : MGT 4205
2. Course Title : Total Quality Management
3. Course Type : Elective Course
4. Level/Term : 4-II
5. Academic Session : Summer 2022
6. Course Teacher(s) : Md. Shahadat Hossain
7. Pre-requisite : Principles of Management
8. Credit Value : 3.00
9. Contact Hours : 42
10. Total Marks : 300
11. Rationale of the Course : Required Course
12. Course Objectives :

i. The overall purpose of the course is to provide an understanding of the process of

managing quality and managing services.

ii. The principles of Quality, Quality Assurance, and Total Quality Management will provide an insight into the concepts of Excellence and Best Value and the contribution of quality to strategic management.

iii. This course aims to show how all the fundamental disciplines of business are intrinsically linked with the concepts of service excellence and quality. Because these concepts are so interrelated, they can be shown to have a strategic importance to the culture and success of any organization.

iv. There are many tools and doctrines that can be used for assessing product/service quality and selection of these tools can help in the pursuit of excellence. This course is designed to provide a valuable perspective for future business managers.

13. Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):

CLO1	Understand the concepts, frameworks, gurus, benefits and culture of TQM
CLO2	Analyze the top management commitment to institutionalize the designed framework to keep control on product quality
CLO3	Evaluate pros and cons of customer satisfaction and employee involvement to get supports from these two major stakeholders of a firm
CLO4	Understand the key concepts of continuous process improvement, supplier relationship and measurement techniques to boost product's quality by minimizing cost
CLO5	Apply the tools, frameworks and globally recognized techniques of TQM to improve product quality by ensuring customer satisfaction and employee involvement

	PLO1	**PLO2**	**PLO3**	**PLO4**	**PLO5**	**PLO6**	**PLO7**
CLO1	3			3		1	
CLO2		3		2	2		3
CLO3		2			3		
CLO4	2		3		2	1	2
CLO5	2		2			1	1

Part B

14. Course plan specifying content, CLOs, co-curricular activities (if any), teaching learning and assessment strategy mapped with CLOs.

Week	**Topic**	**Teaching-Learning Strategy**	**Assessment Strategy**	**Corresponding CLOs**
1	Introduction: Definitions- Basic Concepts- TQM Framework- Evolution of TQM and Contributions of Quality Gurus	Lecture notes, ppt, Reference books	Class Test Final Exam Participation	CLO1
2	Total Quality and Traditional Management Practices- Traditional Organizational Culture vs. TQM Culture- Suggested Ways of Transforming Organizational Culture into TQM Culture- Benefits of TQM- Obstacles to TQM	-do-	Class Test Final Exam Participation	CLO2
3	Top Management Commitment and	-do-	Class Test	CLO1

	Leadership: Top Management Commitment: Concept, Indicators- Organizational Leadership: Concepts, Nature- Characteristics of Quality Leaders		Final Exam Participation	CLO2
4	Leadership Styles and Leadership Style in a Total Quality Setting- The 7 Habits of Highly Effective People- Total Quality and Ethics- The Deming Management Philosophy	-do-	Class Test Final Exam Participation	CLO1 CLO3
5	The Juran Philosophy- The Crosby Philosophy- Quality Council- Core Values, Concepts and Framework- Organizational Structures for TQM	-do-	Class Test Final Exam Participation	CLO2 CLO4
6	Quality Statements- Strategic Management: Planning and Execution- Communications- Decision Making and Problem Solving	-do-	Class Test Final Exam Participation	CLO2
7	Customer Satisfaction: Introduction- Who is the Customer- Customer Perception of Quality- Feedback- Using Customer Complaints- Service Quality	-do-	Class Test Final Exam Participation	CLO2
	Mid Term			**CLO1, CLO3**
8	Employee Involvement: Motivation- Employee Surveys- Empowerment- Teams-Suggestion System- Recognition and Reward- Gainsharing- Performance Appraisal- Unions and Employee Involvement- Benefits of Employee Involvement	-do-	Class Test Final Exam Participation	CLO1

MKT 4201, Marketing Research

Part A

1.	Course Code	:	MKT 4201
2.	Course Title	:	Marketing Research
3.	Course Type	:	Elective Course
4.	Level/Term	:	4-II
5.	Academic Session	:	Summer 2022
6.	Course Teacher(s)	:	Tauhid Ahmed
7.	Pre-requisite	:	N/A
8.	Credit Value	:	3.00
9.	Contact Hours	:	42
10.	Total Marks	:	300
11.	Rationale of the Course	:	Required Course
12.	Course Objectives	:	

i. Understand the basic principles, theories, concepts and dynamics of Marketing.

ii. Apply these principles and tools in case analysis and to practical business decision making situations.

iii. Integrate the concepts/techniques learned through application in the preparation of a comprehensive marketing plan.

iv. Appreciate and learn more about Marketing as a career.

13. **Course Learning Outcomes (CLOs) and Mapping of CLOs with Program Learning Outcomes (PLOs):**

CLO1	Provide a comprehensive theoretical knowledge of marketing problems and research.
CLO2	Understand the framework of the business research process.
CLO3	Develop an understanding of research design and techniques.
CLO4	Conduct basic qualitative and quantitative research.
CLO5	Equip the students for scholarly writing and evaluate the report.
