Disclaimer

The information contained in this bulletin is intended to provide guidance to those who are concerned with undergraduate studies in Business Administration. No responsibility will be borne by the Department of Business Administration and/or the Bangladesh Army University of Science and Technology if any inconvenience or expenditure is caused because of the information of this bulletin. Also the information contained in it is subject to change at any time without any prior notification.

Preface

Bangladesh Army University of Science and Technology (BAUST) consists of four faculties and six undergraduate programs which are providing quality degrees for the students. Department of Business Administration (DBA) is one of the most flourishing and promising departments of the University which is offering Bachelor of Business Administration (BBA) degree. It is committed to provide modern and better education in business, preparing students as well-trained business professionals to meet the needs of the national and international business. This calendar has been written mainly for the students, student advisors as well as teachers who will find it valuable as a reference document. Also, anybody from any organization who wants to provide or seek any kind of service including consultancy will find this book useful.

Aim, objectives and location of the university, different aspects of the course system, such as rules and regulations relating to admission, grading system, performance evaluation, requirement for degrees, the course requirements, detailed course outline and courses offered in different terms have been provided by this calendar.

Bachelor of business administration (BBA) is a dynamic program that undoubtedly inspires the students to innovation and development. Students will develop their ability to understand necessary techniques for dealing with the economic, social and technological environment of the business organizations, especially quantitative techniques and communication skills. It also aims at developing students a wide appreciation of relevant subjects and of their importance in solving business problems. The undergraduate degree program maintains this extensive approach to business.

The revised curriculum as incorporated in this calendar was approved by the academic council, BAUST for the BBA undergraduate students from the 2015-2016 session. Some of the information recorded in this calendar is likely to be modified from time to time. Everyone concerned is advised to be in touch with the advisors or the undersigned regarding any modification to be introduced later by the university.

It is hoped that this course calendar will be useful to everyone concerned.

Saidpur, Bangladesh.

CHAPTER - 1

1.0 GENERAL INFORMATION

1.1 Introduction

With a view to meet the increasing global demand for the development and dissemination of Engineering and Technological as well as Business Administration, Bangladesh Armed Forces established **Bangladesh Army University of Science and Technology (BAUST)** at Saidpur Cantonment that promises to provide facilities for higher technical as well as business administration education for the students from home and abroad. BAUST started its journey on 15 February 2015 by offering Four-year Bachelor's Degrees on Electrical and Electronic Engineering (EEE), Computer Science and Engineering (CSE) and Mechanical Engineering (ME) and gradually started various programs on Faculty of Business and Social Science.

1.2 Aim

The aim of BAUST is to conduct undergraduate courses in various disciplines of Engineering and Business Administration according to syllabus leading to Bachelor of Science in Engineering (B. Sc. Engineering) and Bachelor of Business Administration (B.B.A.) program for the students from home and abroad.

1.3 Objectives

The objectives of BAUST are:

1.3.1: To offer the following discipline in Engineering as well as business with a view to meeting the increasing demands in the country:

Four-year bachelor’s and two years Master’s Programs are:

1. B. Sc. in Computer Science and Engineering (CSE),
2. B. Sc. in Electrical and Electronic Engineering (EEE)
3. B. Sc. in Mechanical Engineering (ME)
4. B. Sc. in Industrial and Production Engineering (IPE)
5. Bachelor of Business Administration (BBA)
6. Master of Business Administration (MBA)
7. B. Sc. In Civil Engineering (CE)

1.3.2: To produce skilled, well disciplined, self-motivated and dedicated engineers, computer professionals and business personnel.

1.3.3: To make provisions for research and development and dissemination of knowledge in appropriate fields of science, technology and business arena

1.4 Location

BAUST is located at Saidpur Cantonment, Saidpur, Nilphamari, a hub of knowledge for Bangladesh Armed Forces. Saidpur Cantonment is a calm and quiet education village and free from all possible pollution of a city life. Whistling birds on the tree branches and overall bounty of nature adds to the already existing splendid academic atmosphere.

1.5 Eligibility of Students for Admission in BBA Program

Students passing the Higher Secondary Certificate (H.S.C.) examination from an Education Board of Bangladesh or a recognized equivalent examination from home and abroad may be admitted to the program of Bachelor of Business Administration (BBA) in this University on such terms and conditions as may be determined by the University from time to time. For Admission, a student must have minimum GPA 3.0 in both S.S.C. and H.S.C. or equivalent, with a total of **6.0** GPA in S.S.C and H.S.C.

1.6 Admission Procedure

1.6.1 Syllabus for Admission Test

Admission test will be conducted on the basis of the syllabus of Mathematics, Analytical Ability and English (comprehension and functional) subjects of HSC examinations of all boards of secondary and higher secondary school certificates. Admission test will be conducted out of 100 marks and the distribution of marks is given below:

Sl	Subject	Marks (%)
1	English Language and Vocabulary, Comprehension& Functional	25%
2	Analytical Ability	25%
3	General Mathematics	30%
4	General Knowledge	20%
	Total:	**100%**

1.6.2 Final Selection:

Merit List will be finalized on the basis of marks as shown below:

Written Admission Test	60%.
GPA of SSC/ Dakhil / "O"level/ equivalent examination	20%.
Total GPA of HSC/ Alim/ "A" level/ equivalent examination	20%.
Total	**100%**

1.7 Admission in the Program

After final selection, the candidates are asked to go through a medical checkup at BAUST's CMH to ascertain their medical fitness. The selected candidates must collect Admission Form from Admission Section of Registrar Office and complete admission and registration formalities within the given time frame with respective BAUST Admission Section and Faculty by paying required fees. The following rules will apply in this regard:

- Candidate failing to complete admission formalities within the prescribed date and time, his/ her selection will be considered as cancelled.

- Student who fails to attend the class within two weeks of the commencement of 1st semester class, his/her admission will be considered as cancelled.

In case, the prescribed vacancies are not filled up by the candidates in the first merit list, other merit list(s) will be published from the waiting candidates for admission, who will have to follow the same procedure for admission.

1.8 Medical Checkup

Candidates selected through above procedure will go for medical checkup in BAUST/CMH, Saidpur Cantonment. If the medical authority considers any candidate unfit for study in university due to critical/contagious/mental diseases as shown in medical policy of university will be declared ineligible for admission.

CHAPTER - 2

2.0 BACHELOR OF BUSINESS ADMINISTRATION (BBA) PROGRAM

2.1 Introduction

Bachelor of Business Administration (BBA) program aims at providing modern and better education in business, preparing students as well-trained business professionals to meet the needs of the national and international business. Through this program, students will develop their ability to understand necessary techniques for dealing with the economic, social, political and technological environment of the business firms, especially quantitative techniques and communication skills. It also aims at developing in students a wide appreciation of relevant subjects and of their importance in solving practical business problems. The undergraduate degree program maintains this extensive approach to business. There are formal final examinations in all courses and all activitiescarried out in the program are considered for overall assessment of students' merit. A satisfactory record of class work will also be required at each stage for successful completion of BBA degree.

2.2 Library, Laboratory and other Facilities of the Department

The Department endeavors to provide its faculty members and students adequate computer laboratories and library facilities. A well-designed computer lab with modern computers and others digital machineries are available for the students to provide them with proper technical and communicative support necessarily. An equipped library with books of national and international writers is always open for the students to help them in research and academic activities. Business Administration Department is furnished with multimedia classrooms that not only make the lesson understandable but also enjoyable.

CHAPTER - 3

3.0 RULES AND REGULATIONS FOR BBA PROGRAM

3.1 Number of Terms in a Year (Level)

In each academic year (level) i.e. April to March, there shall be term system. From Level -1 to Level-4 there will be two regular terms (Term-1 and Term-2) in each Level. Each term shall have time period of 24 (twenty-four) weeks where 14 (fourteen) weeks are for class room teaching, class test, presentation etc. In each term there will be compulsory 5 (five) subjects and students have to pass at least 3 subjects for promotion to the next higher term. A student may appear in Clearance examination for the subjects, he/she fails in the term final examinations. From Level-1 Term- 2 and higher a student may have maximum of 4 back log subjects. Back log subjects are those subjects, which a student fails to pass even after Clearance examination. If a student fails in any of the sessional course in a term, he/she will not be promoted to next higher term even if he/she passes in all the theoretical subjects. A student may appear in the improvement examination for the theory subject with letter grade less than 'B' in final examinations. The maximum letter grade obtainable in improvement examination will be 'B.A student will not be promoted to Level-3, Term-1 until he/she clears all the Back Log subjects. The maximum letter grade obtainable in Clearance and Back Log subjects will be 'C'.

3.2 Duration of Terms

The duration of each of term will be as follows:

Events	**Durations**		
	Academic	**Others**	**Total**
Classes	7 weeks		
Mid Term Break		1 week	
Classes after Mid Term Break	7 weeks		
Preparatory Leave		2 weeks	
Term Final Examination	3 weeks		
Result Publication	2 weeks		
Clearance/ Improvement/ Backlog Examination	2 weeks		
Total	**21 weeks**	**3 weeks**	**24 weeks**

Each course is of 3 (three) credit hours and for each course there will be 3 (three) lectures per week.

3.3 Program Objective

The objectives of the BBA Program are as follows:

- Developing skilled, efficient and committed managers for the private, public and Semi-government institutions of the country and abroad.
- Providing contemporary and modern knowledge to the business graduates for competent, meaningful and successful interaction with the competitive forces of the global business environment.
- Developing future leaders for different sectors with up-to-date research exposures and sophisticated decision models to managerial responsibilities.
- Creating managerial resources from holistic view, prosperity, stability and cooperation for ensuring continuous success in the midst of growing complexities.
- Increasing technical competence, decision making skills and sociability of the future Managers with integrated analytical and ethical knowledge.

3.4 Degree Requirements

To obtain the BBA degree a student will have to complete minimum 130 credit hours. Minimum credit hour requirements for the award of Bachelor's Degree in Business Administration will be decided as per existing rules. The minimum CGPA requirement for obtaining a Bachelor's Degree in Business Administration is 2.20. A student is required to complete the whole course within 4 (four) years (8 terms). For an unavoidable reason if a student fails to complete the course within stipulated time of 4 years he/she must complete all degree requirements within a maximum period of 6 academic years (12 terms). Failure to complete all degree requirements within the given time frame may disqualify a student from continuation of his/her study at the university.

3.5 Registration

- A candidate shall attain studentship of the BAUST on admission to a program as per rules. She/he will be required to be registered with the University through such processes and on payment of such fees as determined by the University.
- A student shall never take admission in more than one program other than certificate or diploma courses. If it is so reported/found, his/her studentship and examinations, if appeared, shall be immediately cancelled.

3.6 Medium of Instruction and Examination

The medium of instruction will be **English**.

3.7 Types of Courses

The courses included in the undergraduate curriculum are divided into the following groups:

3.7.1 Foundation Courses

Foundation courses have already been arranged for the proper development of Bachelor of Business Administration Students.

3.7.2. Core Courses

In each discipline, a number of courses are identified as core courses, which form the nucleus of the respective bachelor's degree program. A student has to complete the entire designated core courses of his/her discipline.

3.7.3. Concentration Courses

Some of the courses are identified as concentration courses for a specific subject. There are some specific prerequisite courses required to be completed and achieve satisfactory result before some concentrated course(s) can be taken. BBA program concentrated areas are Management, Human Resource Management, Accounting, Finance, Marketing, and Management Information System (MIS).

3.8 The Grading System

3.8.1 The Letter Grade

The total performance of a student in a given course is based on a scheme of continuous assessment. For theory courses this continuous assessment is made through a set of quizzes, class evaluation, class participation, homework, assignment and a term final examination. The assessment in laboratory courses is made by evaluating performance of the student at work during the class, viva-voce during laboratory hours and quizzes. Each course has a certain number of credits, which describes its corresponding weight. A letter grade with a specified number of grade points is awarded in each course for which a student is registered. A student's performance is measured by the number of credits completed satisfactorily and by the weighted average of the grade points earned. A minimum grade point average (GPA) is essential for satisfactory progress. 130 credits have to be acquired in order to qualify for the degree. Letter grades and corresponding grade points will be awarded in accordance with the provisions shown below:

Numerical Markings	Grade	Grade Points
80% and above	A+	4.00
75% to below 80%	A	3.75
70% to below 75%	A-	3.50
65% to below 70%	B+	3.25
60% to below 65%	B	3.00
55% to below 60%	B-	2.75
50% to below 55%	C+	2.50
45% to below 50%	C	2.25
40%to below 45%	D	2.00
below 40%	F*	0.00
Incomplete	I	-
Withdrawal	W	-

* Subject in which the student gets 'F' grades will not be counted towards credit hours requirements and for the calculation of Grade Point Average (GPA)

3.8.2 Distribution of Marks

Thirty percent (30%) of marks of a theoretical course shall be allotted for continuous assessment, i.e. quizzes/ class tests, Assignment submission and presentation, class evaluation and class participation. The rest of the marks will be allotted to the term final. Distribution of marks for a given course is as follows:

Class Attendance	5%
Class Participation/Observation/Lecture follow up	5%
Class Tests/ quizzes/Assignment/Presentation	20%
Final Examination (3 hours)	70%
Total	**100%**

The number of quizzes of a course shall be n+1, where n is the number of credits of the course. Evaluation of performance in quizzes will be on the basis of the best n quizzes. The scheme of continuous assessment that a particular teacher wishes to follow for a course will be announced on the first day of classes.

3.8.3 Eligibility to Appear at the Examinations

1. In order to be eligible for appearing the examination center, a candidate shall be required to attend on an average not less than 60% of the lectures.
2. The Controller of the Examinations shall issue admit card only to the eligible candidates as per rules and send these to the concerned Department/Faculty and the Head shall distribute to the candidates.

3.9 Duration of Examination

Examination will be held on term basis. Time allotted for the Final Examination will be as follows:

3.0 Hours for 70 Marks

3.10 Attendance

All students are expected to attend classes regularly. The university believes that attendance is necessary for effective learning. The first responsibility of a student is to attend classes regularly, and one is required to attend at least 60% of all classes held in any course, otherwise he/she shall not be allowed to sit for the final examination.

3.11 Internship

The internship is a part of the BBA degree requirement. The internship constitutes a practical work experience and is a preparatory step towards placement. The primary goal of internship is to provide on the job exposure to the students and an opportunity for translation of theoretical concepts in to real life situation. During internship students will be placed in enterprises, organizations, research institutes as well as development projects. The program covers a period of **8 (eight)** weeks of organizational attachment and **4 (four)** weeks of report finalization work.

The student is required to prepare and submit an internship report within the time specified. The internship report of a student will be graded as per usual grading practice of the university. The passing grade in the internship program is ‘D’. Failure to obtain passing grade will call for a retake of internship

program. Such retake will be allowed only once. The grade earned on the internship report will be included in the grade sheet of students.

3.12 Teacher-Student Interaction

The academic system in this university encourages students to come in close contact with the teachers. For promotion of high level of teacher-student's interaction, a course coordinator (CC) is assigned to each course. Students are free to discuss with CC about all academic matters. Students are also encouraged to meet other teachers any time for help and guidance for academic matters. Heads of the departments, Proctor, Advisor of Students Welfare (ASW) and Dean may address the students at some intervals.

3.13 Conduct and Discipline

During their stay in BAUST, all students are required to abide by the existing rules, regulations and code of conduct. Students are strictly forbidden to form or be members of student organization or political party, club, society etc., other than those set up by university authority in order to enhance student's physical, intellectual, moral and ethical development. Zero tolerance in regards of sexual abuse, harassment in any forms, drug abuse and addiction will be shown and all these activities will be strictly observed in the campus.

CHAPTER – 5

5.0 DETAILS SYLLABUS FOR BBA PROGRAM

ENG 1108: ENGLISH LANGUAGE AND COMMUNICATION

Course Objectives

Proficiency in English creates competitive advantage in the job market. The course aims at developing adequate proficiency in listening and reading comprehension and writing ability in English. The course deals with the fundamental concepts of the English Language, which will help students to use the language with more confidence and accuracy in their respective field of study. The course contains vocabulary, grammar and essential elements of good writing and developing speaking style. The objective of this course is to enable students to cope with academic studies in English and to meet up their demand in fluent speaking and writing in English.

Course Outlines

1. Vocabulary: Transformation of words- Prefixes vs. Suffixes-parts of speech.

2. Grammar:

I. Verb and tense: Regular and Irregular verbs- Classification of tense- present, past and future tenses and their structures.
II. Modal auxiliaries: Definition- Characteristics- Forms and use of modals.
III. Sentence: Structure- variations of structure- structures analysis- Transformation of sentences (simple, complex and compound)- Conditional of sentences
IV. Preposition: General use and idiomatic expression of prepositions.
V. Subject: Verb agreement.
VI. Correction of the mistakes: verb, tense, number, gender, person, article and punctuation.

3. Phonetics: Definition: Classification of phonetics- Articulators and articulation- The consonant phonemes- Short long and dip thongs- Stress and Intonation- Practicing phonetic transcription.

4. Business Correspondence: Importance- Ways of communication- Forms of business letter- Types of business letter- Conducting business meeting (agenda, meeting, minutes)- Writing job application and preparing CV- Writing memo- preparing press release.

5. Paragraph writing: The criterion of paragraph- Difference between a paragraph and essay- Organizing paragraph.

6. Reading comprehension: Reading skills- Practice comprehension.

7. Speaking: Basic skills speaking- Speaking in some everyday life.

Required text book:

Collins Cobuilds Basic Grammar, Dave Willis & Jon Wright

Reference books:

Oxford Practice Grammar- New Edition, John Eastwood, Intermediate English Grammar, Raymond Murphy, Headway, Intermediate student's Book, Liz & John Soars, Advanced Learner's Dictionary- Hornsby.

BBA 1102: BSINESS MATHEMATICS

Course objectives:

After completing this course, the Students will be able to formulate business problems in quantitative forms, to solve the mathematically formulated business problems and be equipped with mathematical techniques necessary for other advanced courses in business administration.

Course contents:

1. **Theory of Sets**: Definition, Finite Sets, Null Set, Equal and Equivalent Set, Subset, Power Set, Union and Intersection of Sets, Universal Set, Complement and Difference of Sets, Set Operation and its Application to Business Problems.

2. **Functions and Equations Idea of Functions** – Implicit and Explicit – Functions, Linear, Quadratic, Cubic and Biquadratic Functions, Solution of Linear, Quadratic and Simultaneous Equations – Graphs of Function.

3. **Coordinate Geometry**: Rectangular Coordinate System – Distance between two Points – Gradient – Equations of Straight Lines – Slope Intercept from – Two Points Form – Parallel and Perpendicular Lines Equation and Graphical Representation of Circle, Parabola and Hyperbola.

4. **Matrices and Determinants**: Definition of Matrix and determinant and their Properties, Addition and Multiplication of Matrices- Inverse of Matrix – Solution of Simultaneous Equations.

5. **Eliminatory Calculus**: (a) Differentiation: Definition – Basic Rules of Differentiation – Successive and Partial Differentiation- Rules Theorem – Application to Elasticity of Durand, Marginal cost, Revenue Functions, Conditions for profit and Output Maximization and cost Minimization. b) Integration:

Definition-Basic Rules of integration-methods of substitution and Integration by parts-idea of definite-application.

Books Recommended:

1. V.K. Kapoor, Business Mathematics

2. Zamiruddin & Khanna, Business Mathematics

3. Bowen, Mathematics: With Application in Management and Economics.

4. M. Raghavacharia, Mathematics for Management.

BBA 1103: INTRODUCTION TO BUSINESS

Course objectives:

The students after going through this course will be able to understand the various aspects of business in a holistic manner. This will include private enterprise system, the world economic system and contrast it to other possibilities; various functional areas of business--accounting, finance, management, and marketing--and how these areas are interrelated by means of information systems;

Course contents:

1. Introduction: Definition, Features, Importance and Scope of Business, Industry- Types of Industry, Commerce- Branches of Commerce.
2. Locating of Business: Factors to be considered in selecting a suitable business site –Rural Vs Urban Location.
3. Forms of Business Organization: Sole Trader ship- Partnership- Joint Stock Company, State Enterprise –Cooperative Societies. Effectiveness of Various Forms of Business Organization in Bangladesh.
4. Institution for Promotion of Business: Support Services of Government Institutions – Chamber of Commerce and Industry, Trade Associations – The Dhaka Stock Exchange. The Chittagong Exchange and SEC.
5. Trade Practices in Bangladesh: Commercial Policy- Import Procedure – Export Procedure – Formalities – Problems and Measures to overcome them.

6. Business Combination and Integration: Types –Levels – Internal and External, Advantages and Disadvantages. Growth of MNcs and EPZs in Bangladesh.

Books Recommended:

1. M.C. Shukla, Business Organization and Management
2. Khan and Arif, Essential of Business Organization and Management
3. Richard Norman Ownes, Business Organization and Combination
4. May and Baker, Introduction to Business

BBA 1104: PRINCIPLES OF MANAGEMENT

A broad awareness and understanding of the principles, concepts, theories and techniques of modern management in the contemporary environment is very important to be an effective business leader and executive. The main objective of the course is to get students accustomed with the classical neo classical concepts and scientific methods of management. The course covers management theory and its historical development, transition from classical management theories to contemporary theories, principles, functions and techniques. This course will let the students know about the issues of scientific management theory in the field of business and will enable them to lead an organization efficiently.

Course outline:

1. Introduction: The concept of Management- Importance of Management- Management process-Environmental context of Management-Social responsibility of Management- Evolution of Management-Scientific Management school- Classical Management theory.

2. Planning: Overview of planning- Importance, Types and steps of planning-Planning strategy- Decision making-Time and human relationship in decision making-problem and opportunity finding the nature of managerial decision making-The rational model of decision making.

3. Organizing: Definition of organization- Organization structure- Type of organization structure-Functional organization- Product/market organization- Matrix Organization-Power and the distribution of authority-Types of authority-Definition and sources of power-Line and stuff authority- Delegation of authority-Decentralization and centralization- Job Design-Grouping of activities-Departmentation.

4. Human Resource Management: Span of supervision-Optimum span of supervision and factors influencing optimum span- Recruitment- Selection- Training and Development-Performance appraisal & compensation- Transfer, promotion, demotion, separation and evaluation of human resources-Organizational change.

5. Motivation: Concept of motivation, Basic assumption of motivation-Motivation process-Importance of motivation in organization-Motivational theories-Maslow's need hierarchy- REG and two-factor theory-Motivation techniques- Job satisfaction

6. Leadership: Defining leadership-The trait approach to leadership- Leadership Styles-Managerial grid.

7. Communication: Importance- Communication Process-Communication in organization- Barriers to communication.

8. Controlling: Meaning, importance, steps and characteristics in control process- Conditions for control-Control techniques.

Recommended Text:

1. Stoner, A.F James, Freeman R.E &Gilbert, R Daniel, Management, Prentice Hall of India, New Delhi, 1998.
2. Reference Book: Griffin, W. Ricky, Management, Houghton Miffin Company, Boston, 2003.

BBA 1105: INTRODUCTION TO SOCIOLOGY AND PSYCHOLOGY

Business studies are not apart from the study of social science. The objective of this course is to provide the knowledge about the basic concepts and principles of sociology and psychology pertaining to real-life situation. The course includes scope and some basic concepts of sociology, social structure, family urbanization & industrialization, scope and methods of psychology, learning process, biological basis of human behavior, perception, motivation, emotion, personality etc. looking into these concepts the course will provide the students with basic knowledge of sociological and psychological theories and concepts used in the field of business studies.

Course outline:

Part-A: Sociology:

1. Introduction: Definition- Scope and uses of sociology- Nature and importance of sociology.
2. Sociological Perspective: Thoughts of August Comte, Emile Durkhein, Max weber, Karl Marx, Robert Metron and Talcott Parsons.
3. Culture and Society: The concepts of culture- Types of culture- Elements of culture- Cultural diversity- Cultural integration- Dominant culture- Ethnocentrism- Cultural universality.
4. Crime and Deviance: Definition of deviance- Theories of crime and deviance- Gender and crime.
5. Social Stratification and Social Class:Definition and types of stratification-Theories of social stratification- Definition of social class-Nature and complexity of social class.
6. Marriage and Family: Definition- Characteristics and importance of marriage- Types of marriage- Definition of family- Importance and functions of family- Changing structure of family- Alternatives of marriage and family- Future prospects of family.

Part B: Psychology:

1. Introduction: Definition- Nature of psychology- Subject matter of psychology- Methods in psychology- Relationship between psychology, sociology and physiology.
2. Motivation: Definition- The Dynamics of Behavior- Motivated Behavior- Characteristics of motivated behavior- Theories of motivation.
3. Emotion: Definition- Biological significance of emotion- Behavioral measures of emotion- Theories of emotion.
4. Perception: Definition of perception and illusion- Theories of illusion- Theories of perception.
5. Learning: Definition of learning- Basic elements of learning- Types of learning- Theories of learning.
6. Personality: Definition of personality- Developmental theories of personality- The psycho-analytical theory of fraud- The behavioral theory- The reinforcement theory.

Recommended Text:

2. Ali, Muhammad Raushan, *Psychology* .

HUM 1111: বাংলা ভাষা ও সাহিত্য

লক্ষ্য ও উদ্দেশ্য (Objectives):

১.যোগাযোগের মাধ্যম হিসেবে বাংলা ভাষার গুরুত্বকে উপলব্ধি করা এবং সেইসাথে জ্ঞানকান্ডের বিভিন্ন শাখার সাথে সংযোগ তৈরির উপায় হিসেবে ভাষা সম্পর্কিত জ্ঞান লাভ করা।

২.সাহিত্য ব্যক্তির কল্পনা ও অনুভূতি নিয়ে কাজ করে ফলে আদর্শ মানুষ হয়ে গড়ে ওঠার পেছনে সাহিত্য গুরুত্বপূর্ণ ভূমিকা পালন করে।

৩.সাহিত্য পাঠের মাধ্যমে বোধ জাগ্রত হয় ফলে অন্যের প্রতি সহানুভূতিশীল এবং মানবিক বোধসম্পন্ন চিন্তা- চেতনা গড়ে ওঠে।

৪.যুক্তিবোধ তৈরি করে এবং সৃষ্টিশীল পৃথিবী গড়তে সহায়ক ভূমিকা পালন করে।

৫.তথ্য- প্রযুক্তির উৎকর্ষ ও জ্ঞান-বিজ্ঞানের বিভিন্ন শাখার সাথে আন্তঃসম্পর্ক গঠনে গুরুত্বপূর্ণ ভূমিকা পালন করে।

বিস্তারিত বিষয় (Detailed Content):

ক. বাংলা ব্যাকরণ: বাংলা ভাষার উৎপত্তি ও ক্রমবিকাশ, ধ্বনি ও বর্ণ, স্বরধ্বনি ও ব্যঞ্জনধ্বনি, স্বরবর্ণ ও ব্যঞ্জনবর্ণ, বাংলা বানানের নিয়ম, ণ-ত্ব বিধান ও ষ-ত্ব বিধান, যতিচিহ্ন, বঙ্গানুবাদ ইত্যাদি।

খ.নির্মিতি:

- প্রতিবেদন বা রিপোর্ট লিখন, পত্র লিখন (ছুটি, নিমন্ত্রণ পত্র, ব্যবসা-বাণিজ্য, চাকরির আবেদন)
- দিনলিপি, অভিজ্ঞতা বর্ণনা, বক্তব্য লিখন, ই-মেইল, এসএমএস, ফেসবুক, সংলাপ রচনা, ক্ষুদেগল্প লেখা ইত্যাদি।
- ব্যবহারিক বাংলা (সংক্ষিপ্ত আলোচনা):
  একুশে ফেব্রুয়ারি, মুক্তিযুদ্ধ, বাংলা নববর্ষ, বাংলা উৎসব, ষড়ঋতু, বাংলা ভাষা, লোকসংস্কৃতি, মানবতা ও নৈতিকতা, বিশ্বায়ন, তথ্য-প্রযুক্তি ইত্যাদি।

গ. বাংলা সাহিত্য:
কবিতা: বঙ্গবাণী, বঙ্গভাষা, খাঁচার ভিতর অচিন পাখি, নির্ঝরের স্বপ্নভঙ্গ, আজ সৃষ্টি সুখের উল্লাসে, বাংলার মুখ আমি, অমর একুশে, স্মৃতিস্তম্ভ, তোমাকে পাওয়ার জন্য হে স্বাধীনতা, আমার পরিচয় ইত্যাদি।

ঘ.ছোটগল্প:
পোস্টমাস্টার, বায়ুযানে পঞ্চাশ মাইল, পুঁইমাচা, মৌন নয়, নয়নচারা, একাত্তরের দিনগুলি, খাঁচা, অপঘাত ইত্যাদি।

ঙ.প্রবন্ধ:
বাঙ্গালা ভাষা, সভ্যতার সংকট, তৈল , যৌবনে দাও রাজটিকা, বর্তমান বিশ্বসাহিত্য, আমাদের বাংলা উচ্চারণ, আমাদের আত্মপরিচয়।

চ.নাটক:
কবর

সহায়ক পুস্তক:

১. বাঙ্গালা ভাষার ইতিবৃত্ত- ড. মুহম্মদ শহীদুল্লাহ
২. বাঙ্গালা সাহিত্যের ইতিহাস– সুকুমার সেন
৩. বাংলা সাহিত্যের সমগ্র ইতিহাস– ক্ষেত্র গুপ্ত
৪. বাংলা সাহিত্যের ইতিবৃত্ত– অসিতকুমার বন্দ্যোপাধ্যায়

৫. বাংলা সাহিত্যের ইতিহাস (১ম ও ২য় খন্ড)- বাংলা একাডেমি
৬. বাংলাদেশের সাহিত্যের ইতিহাস (১৯৪৭-২০০০)- শহীদ ইকবাল

BBA 1201: PRINCIPLES OF MARKETING

Course objectives:

Participants in this course will be expected to learn the basic concepts & the role of marketing. Understand the environmental context of marketing. Appreciate the role and importance of marketing in firm's search for Profits in Market segment & Target marketing. Understand the Marketing Mix (Popularly Known as 4 Ps) for the desired impact.

Course contents:

1. Marketing: Definition – Nature – Objective – Scope and importance – Marketing Concepts – Approaches to Study of Marketing – Role of Marketing in various Economic Systems.
2. Marketing functions: Exchange Functions – Physical Distribution functions – Ancillary Functions.

3. Market and Buyer's Behavior: Classification of Market – Segmentation – Targeting and Positioning – Psychological Influences on Buyer's Behavior.

4. Marketing Environment: Macro and Micro Environment – Organization's Internal Environment – Marketing Mix.

5. Product: Basic Concept – Classification – Characteristics and Marketing Considerations of Different types of consumer Goods, Industrial Goods and services – product Life cycle – product Line simplification – Diversification.

6. Price: Importance – Objectives – Influencing Factors for Price – Determination – Pricing Methods – price policy and strategy.

7. Channel of Distribution: Types and functions of channels – Utility of channel – Channel Objectives and Options – Selection of Channel of Distribution.

8. Promotion: Objectives and Importance – Promotional Tools – Promotional Mix- Promotional Budget.

Books Recommended:

1. William J. Stanton Michael, J. Etzel & Bruce J. Walker, Fundamentals of Marketing

2. Philip Kotler, Principles of Marketing
3. Edarin H. Lewis, Marketing Channels: Structure and Strategy
4. Thomas C. Kinnear Kenneth L. Barnhardt, Principles of Marketing
5. N. Ranjan Nair, Marketing

BBA 1202: MICROECONOMICS

Course Objectives:

After pursuing this course students will be able to understand the basic microeconomics principles and their applications. It informs how economy performs and expands its scope in micro level according to the demand of society.

Course contents:

1. Nature and Scope of Economics- Economic Law- Normative and Positive Economics- Utility- Law of Diminishing Marginal Utility.
2. Theory of Demand – Demand Curves – Elasticity of Demand – Consumption – Consumer Surplus – Indifference Curve Analysis.
3. Theory of Supply – Supply Curves – Elasticity of Supply and its Measurement – Exceptional Supply Curves.
4. Theory of Production and Cost: Production Function – Diminishing Returns- Returns to Scale – Cost of Production – Various Economic Concepts of cost- Long Run and Short run Cost Curves- Measurement of Opportunity Cost, Least- Cost Combination.
5. Theory of Firm – Market Structure- Equilibrium of Firm and Industry- Price Determination under Different Market Conditions.
6. Theory of Distribution – Rent- Wages- Interest- profit.

Books Recommended:

1. Lpesy, R.B., An Introduction to positive Economics
2. Hendorson, R.N. and R.E. Quant, Micro Economic Theory
3. Hanson, J.L., A Text Book of Economics
4. Dewett. K.K., Modern Economic Theory
5. Paul, A. Samuelson, Economics

BBA 1203: INTRODUCTION TO FINANCE

Course objectives:

This primary course of Finance helps to understand the basic principles of inflow and outflow of funds and their applications. It also shows how funds expand its scope according to the society's demand.

Course contents:

1. Finance: Conceptual Framework, Financial Decision Making, Role of Finance in a Firm, Goal of Financial Management of a Firm, Finance as a Discipline-Agency Theory.
2. Time Value of Money: Basic Concept, Computing present Value, Future Values.
3. Risk and Return: Financial and Business Risk, Leverage and Risk, Measuring Risk-Probability Distribution, Expected Value, Standard Distribution, Expected Value, Standards Devotion and coefficient of Variation, Risk Premium, Risk and Requires Return.
4. Valuation: Fundamentals Valuation o fronds, Valuation of Common Stock.
5. Financing Working capital: Concepts of Working capital, Major savor Sources of short Term Financing, The Matching Principle. Estimation of wording capital requirements.
6. Intermediate and Long Term financing: Term Loans, Gammon stock, Retained Earnings, Raising Funds from the capital Market, Institutions Supplying Long Term Finance in Bangladesh.
7. Leasing: Badin Concepts, Types of Lease or Buy Decision.
8. Capital Budgeting: Basic Concepts, The Capital Budgeting Process, cash Flow from an Investment, Introduction to the Evaluation Techniques.

Recommended Text:

1. Horne, James C. Van & Wachowicz, John M. Jr., Fundamentals of Financial Management New Delhi, 2004

BBA 1204: INTRODUCTION TO COMPUTER IN BUSINESS

Introduction to Studying Computers, History and development of Computers, Generation of Computers, Types of Computers, Impact of Computers on Society. Number Systems: Radix, Bases of number systems, converting different type number systems. Computer Hardware and Peripherals: Basic Units of Computer Hardware, Keyboard, Mouse and Different types of Monitors, Different parts of system unit, Block diagram of computer organization. Memory: Primary and secondary memory/volatile vs. non-volatile memory, Functions of RAM, ROM and Cache memory.

Software: Classifications, Application software, System software, Operating system concepts and importance, components and basic functions of DOS, Windows. Lab: Application software's, MS-OFFICE: MS-Word, MS Excel, MS Power Point etc. and Utility programs, Computer Virus. Applications: Computer networks and its goals, Basic concept on LAN, MAN, WAN and Internet systems, Internet services, E-mail, www, E-Commerce, IT concepts, its applications and Information processing cycle.

Books Recommended

1. P. Norton, Introduction to Computer
2. Dr. M Lutfar Rahman & Dr. MAH, Computer Fundamentals

HUM 1221: বাংলাদেশের অভ্যুদয়ের ইতিহাস

Course Objectives:

After completing this course, students will be able to:

- Identify and explain the main events of the history of Bangladesh since the Partition of Bengal to the creation of Bangladesh as a sovereign state in 1971.
- Identify and explain the background of the partition of India in 1947.
- Identify and explain the early history of Bangladesh for the enlargement of their understanding with patriotism towards the national integration and advancement.

Course Content:

বাংলাদেশ নামকরণ, ভূ-প্রকৃতির বৈশিষ্ট্য ও প্রাচীন বাংলার জনপদ, বাঙ্গালির নৃতাত্ত্বিক গঠন ও বৈশিষ্ট্য, বঙ্গভঙ্গ (১৯০৫), হিন্দু - মুসলিম প্রতিক্রিয়া, বঙ্গভঙ্গ রদ (১৯১১), দ্বিজাতিতত্ত্ব (১৯৩৯), লাহোর প্রস্তাব (১৯৪০), অখন্ড স্বাধীন বাংলা রাষ্ট্র গঠনের উদ্যোগ, ১৯৪৭ ও পরিণতি, মাউন্টব্যাটেন পরিকল্পনা, ১৯৪৭ সালের ভারত স্বাধীনতা আইন ও দেশ বিভক্তি ১৯৪৭, পাকিস্তান সৃষ্টি (১৯৪৭),

পূর্ব পাকিস্তান ও পশ্চিম পাকিস্তানের মধ্যকার বৈষম্য, ভাষা আন্দোলনঃ পটভূমি ও ঘটনা প্রবাহ, হক-ভাসানী-সোহরাওয়ার্দীর যুক্তফ্রন্ট, ১৯৫৪ সালের নির্বাচন ও ফলাফল, সামরিক শাসন (১৯৫৮), পাকিস্তানে সামরিক শাসনের কারণ, আইয়ুব খানের ক্ষমতা দখল ও শাসনের বৈশিষ্ট্য (রাজনৈতিক নিপীড়ন, মৌলিক গনতন্ত্র, ধর্মের রাজনৈতিক ব্যবহার), ১৯৬২ সালের শিক্ষা আন্দোলন, ১৯৬৫ সালের নির্বাচন, পাক ভারত যুদ্ধ (১৯৬৫), ১৯৬৬ সালের ৬ দফা/শেখ মুজিবুর রহমানের ৬ দফা আন্দোলন, ১৯৬৮ সালের আগরতলা ষড়যন্ত্র মামলা ১৯৭০ সালের নির্বাচন, ১৯৬৮ সালের আগরতলা ষড়যন্ত্র মামলা, ১৯৬৯ সালের গনঅভ্যুত্থান, ১১ দফা আন্দোলন ও শেখ মুজিবকে বঙ্গবন্ধু উপাধি, ১৯৭০ সালের নির্বাচন, অসহযোগ আন্দোলন, বঙ্গবন্ধুর ৭ মার্চের ভাষণ, অপারেশন সার্চ লাইট, বঙ্গবন্ধুর স্বাধীনতা ঘোষণা ও গ্রেফতার, মুক্তিযুদ্ধ (১৯৭১), গণহত্যা, নারী নির্যাতন, শরনার্থী, মুজিব নগর সরকার গঠন ও স্বাধীনতার ঘোষণা পত্র, স্বতঃস্ফুর্ত প্রাথমিক প্রতিরোধ ও সংগঠিত প্রতিরোধ (মুক্তিফৌজ, মুক্তিবাহিনী, গেরিলা ও সম্মুখ যুদ্ধ), মুক্তিযুদ্ধে প্রচারমাধ্যম (স্বাধীন বাংলা বেতার কেন্দ্র, বিদেশী প্রচার মাধ্যম ও জনমত গঠন), মুক্তিযুদ্ধে বৃহৎশক্তি সমূহের ভূমিকা, দখলদার বাহিনী, আলবদর, আলশামস, রাজাকার বাহিনী, রাজনৈতিক দল ও দেশীয় অন্যান্য সহযোগিদের স্বাধীনতা বিরোধী কর্মকান্ড ও বুদ্ধিজীবী হত্যা, পাকিস্তান বাহিনীর আত্মসমর্পণ ও স্বাধীন সার্বভৌম বাংলাদেশের অভ্যুদয়, বঙ্গবন্ধুর স্বদেশ প্রত্যাবতন।

BBA 2101: MACROECONOMICS

Course objectives:

After pursuing this course students will be able to understand the basic macroeconomics principles and their applications. It enables the students to know how the economy performs and expands its scope in macro level according to the demand of society.

Course contents:

1. Some fundamental Concepts ofMacro Economics, Aggregate Income, Consumption, Savings and Investment, Stock and Flow Variables Static's and Dynamics.

2. National Income Accounting: Concepts and Me3asurement of GNP, NNP and GDP – Nominal and Real National Income.
3. Classical Theory of Output, Income and Employment – Simple Graphical and Analytical Exposition of the Theory. Attainment of Full Employment.
4. The Keynesian Theory of income and Employment – A Simple Expositions of Keynesian Structure – Obstacles to Attainment of full Employment Inflationary and Deflationary Gaps.
5. Simple Concept of Consumption and Savings Functions- Marginal Propensity to Consume- Derivation of the Multiplier
6. Aggregate Supply, Wage, Price and Unemployment: Limitations of the short run growth model – Aggregate supply curve and the price adjustment mechanism- Wages, prices and output- Phillips curve- Effects of a monetary expansion on unemployment and inflation- inflation and price- Price indexes- GDP deflator- Producer price indexes- Neutrality of money- Supply shocks- Adverse supply shock-Stagflation- Expected inflation-expectations.
7. Monetary and fiscal policy: Monetary policy- Transition mechanism- Liquidity trap- Fiscal policy and crowding out- Composition of policy output and policy mix.

Recommended Text:

1. Dornbusch, Rudiger, Fischer, Stanley and Startz Richard, *Macroeconomics*, McGraw-Hill New York, 2004.

BBA 2102: BUSINESS COMMUNICATION

Course Objectives:

The students after going through this course will be able to understand the various aspects of business communication. This will include role of communication in business and Writing Process, report writing and technology used in communication process.

Course contents:

1. Introduction to Communication-Nature, Scope, Principles of communication; Business and Social Communication; Barriers to Communication.
2. Different Methods of Communication: Verbal, Non-Verbal and Electronic Communication
3. Different Perspective of Communication: Down ward, Upward, Horizontal, Diagonal, External, Internal, Formal, Informal/Grapevine, Intrapersonal, Interpersonal, Personal, Organizational, Group and Public Communication.
4. The Communication Process – Essential elements, One- way versus Two-way Communication, Different Models of the Communication process.
5. Communication Networks- Types, Selection of Networks.
6. Organizational Communication: Intra and Inter Organizational communication. Tools of Internal Communication- Memorandums, Office Orders, circulars: Inter-Organizational Communication- Business & Job letters. Writing an Application Letter, Preparing a CV/ Resume.
7. Mass Communication –Importance, Media of Mass Communication, Mass Communication in the Business Enterprise of Bangladesh.
8. Meeting – Types of Meetings, Writing Notice, Agenda and Minutes, Convening and Conducting Meetings, Points of Information, Points of Order, Motions.
9. Report Writing: Informal and analytical Reports – Planning Business reports, Preparatory steps of Writing Reports, Writing the Final Reports, Documenting Reports.
10. Business English: Fundamentals of Grammar, Composition, Translation and Comprehension.
11. Commercial Terms & Abbreviations.

Books Recommended:

1. M. Omar Ali, Business Communication: Theory and Application
2. Betty R. Ricks and Day F Gow, Business Communication, Systems and Application
3. Kitty O. Locker, Business and Administrative Communication
4. Louise E. Boone, Contemporary Business Communication
5. Rajendar Pall, J.S. Karlohalli, Essentials of Business Communication

BBA 2103: BASIC ACCOUNTING

Course objectives:

Accounting is called the language of business. People in the business world-owners, managers, bankers, stockbrokers, engineers, investors - use accounting terms and concepts to describe the events that make up the day-to-day existence of very business, large or small.

Course contents:

1. Introduction: Concept of Accounting-Objectives of accounting-Branches of Accounting, Accounting Equation-Users of accounting information. Accounting Cycle: Concept-Steps in accounting cycle-Concept of account- Types of account- Double entry accounting system-Journal-Ledger-Trial balance.
2. Adjusting the accounts-Concept of adjustments-Types of adjustment-Reasons of adjustments-Types of adjustment –Reasons of adjustments- Adjusting entries.
3. Worksheet-Concept of worksheet-Reasons of worksheet preparation-Worksheet problem exercise of service company-Closing entries-Reversing entries.
4. Accounts of Merchandising Company-Income Statement-Balance Sheet-Correction of errors.
5. Special Journals-Purchase Journal-Sales Journal-Cash book-Bank reconciliation statement.
6. Accounting of plant Assets-Concepts and nature of plant assets-Depreciation-Factors affecting depreciation-Methods of depreciation.
7. Accounting for Different Types of Organization: Non-trading Concern, Sole Trader ship, Partnership
8. Company Accounting-Concepts-Types of shares-Issuance of shares.
9. Inventory Accounting-Concept of inventory-Types of inventory-Methods of inventory calculation.

Books Recommended:

Philip E. Fess & Carl S. Warren, Accounting Principles, South Western, Publishing Company, Cincinnati, 1984

1. Jerry J. Weygandt and et al, Accounting Principles
2. M. Khan, Advanced Accounting Vol. I
3. Nisownger & Fees, Accounting
4. Welseh Newman & Zlatkowich, Intermediate Accounting
5. Simth and Skousen, Intermediate Accounting

BBA 2104: BUSINESS STATISTICS (I)

Course objectives:

After completing this course, the students will be able to understand the fundamentals of quantitative data, understand the facts expressed in quantitative form and be able to apply statistical techniques in solving business problems.

Course contents:

1. **Introduction**: Definition-nature- scope- functions- use of statistics in business.
2. **Data Collection and Presentation**: Collection, Classification & tabulation of statistical data- frequency distribution and graphical representation of data.
3. **Measures of Central Tendency**: Mean median & mode- their computation and properties, problems.
4. **Measures of Dispersion**: Absolute and relative measures of dispersion- computation and properties, problems.
5. **Skewness**: Moments and Kurtosis: Moments from arbitrary value- moments from mean- relation between moments –measures of skewness& kurtosis and their uses.
6. **Regression and correlation** : difference between regression and correlation analysis- regression line –scattered diagram- regression equation- regression coefficients- significance of the study of correlation and causation- coefficients of correlation rank correlation coefficients
7. **Probability**: Meaning- addition and multiplication theorems- sample space- events –marginal conditional probability –statistical independence of events- Bayer's Theorem- expected value.
8. **Index Number**: Construction of price. Quantity, value and cost of living index numbers- problems of construction- ideal index- tests and uses of index number.
9. **Time series Analysis**: Definition, Utility, Components and trends.
10. **Sampling**: Sampling and census- advantages and disadvantages of sampling over complete counting-different types of sampling. Social surveys- planning of surveys- different methods of securing information- schedule- questionnaire-published statistics in Bangladesh.

Books Recommended:

1. Gupta & Gupta, Business Statistics.
2. Yule and Kendall, Introduction to Theory of Statistics.
3. Richard and Levin, Statistics for Management
4. Md. Ali Main and Alimullah Miyan, Introduction of Statistics.
5. Shukla MC and Gulshan, Statistics-Theory and Practice.
6. A.L. Budding ton, Statistics and their Application in Commerce

BBA 2105: MARKETING MANAGEMENT

Course objectives:

Students after completing this course will be expected to learn the applicability of various marketing mix elements in carrying out the marketing function in an organization effectively. this will include pricing, distribution, retailing, and promotional elements of marketing mix. in addition the students will also learn the marketing in global context, ethics in marketing and social responsibility of marketing.

Course contents:

1. Marketing Management: meaning nature and scope of marketing management – objectives and responsibilities of marketing management-Building customer satisfaction, value and retention.
2. Demand measurement: Analyzing state of demand- Forecasting and measuring demand.
3. Analyzing marketing opportunities: Scanning the marketing environment- Analyzing consumer market and business market- Analyzing competitors- Market segmentation, targeting and positioning.
4. Managing Product: Nature and of product- Product innovation-Diffusion of innovation-Managing product life cycle.
5. Developing pricing strategies: Setting the price- Experience curve pricing- Cost based pricing – New product pricing – Pricing over product life cycle- Pricing for export marketing –adapting price- Initiating and responding to price changes-Legal aspects of pricing – price promotion.
6. Managing marketing channels: Channel design decisions- Management decisions- integrated marketing communication.
7. Managing Sales force: Designing sales force- Recruiting, Training, Motivating and evaluating sales representatives.
8. Organizing, Implementing and Controlling Marketing programs: Marketing organization-marketing implementation-Analyzing Marketing performance-Marketing control-Annual plan control-profitability control –Efficiency control- Marketing audit

Books Recommended:

1. Philip Kotler, Marketing Management: Analysis, Planning Implementation and control.
2. Kenneth R.Davis, Marketing Management
3. Martin Zober, Marketing Management

BBA 2201: BUSINESS STATISTICS (II)

This course has been designed as an advanced course on the use of quantitative tools in Business decision- making. It includes correlation, regression, index number, probability, sampling and various statistical tests. The learners will also be taught about the use of computer in quantitative business analysis. Understanding of the course will develop the required skills of using quantitative tools and techniques in analyzing business situation and making appropriate decisions for the organizations. The course will also equips the students for using statistical tools and techniques in business research.

Course outline:

1. **Correlation:** Introduction to Correlation – Types of correlation – Methods of calculating correlation – Graphic method – Mathematical method – Scatter diagram method – Arithmetical method – Karl Pearson's coefficient of correlation – Rank correlation – Correlation of grouped bi-variant data – Measurement of error of correlation – Correlation of time series.
2. **Regression:** Introduction to regression – Uses of regression analysis – Method of studying regression – Graphic method – Algebraic method – Regression equation – Calculating the regression for regression equations – Calculating the regression coefficient for bi-variant data – Calculating standard error of estimate.
3. **Index numbers:** Concepts and applications of index numbers – construction of index numbers – quantity index numbers – Value index numbers – test for perfection of index numbers – Chain index numbers – Consumer price index numbers – Index numbers of industrial production.
4. **Forecasting:** Importance of forecasting in business – Business forecasting and time series analysis – Forecasting methods – Free hand graphic method – semi-average method – Method of least squares – Method of moving average – Second degree parabola – Measuring trend by logarithms – Measurement of seasonal variation – Method of simple average –Ratio-to-Trend method – Ratio-to-Moving average method.
5. **Probability:** Approach to probability – Rules of probability – Bayes theorem – Discrete probability – Probability Distribution (Mean, Variance and Standard deviation) – Binomial probability distribution – Cumulative and Huper-geometric probability distribution – Standard normal probability distribution.
6. **Sampling:** Sampling of the population – Probability Sampling – Random sampling – Cluster sampling – Sampling error – Standard error of sample mean – Sampling distribution of the sample mean - Central limit theorem –Confidence interval for a population – Finite population correction factor – Choosing appropriate sample size.

7. **Test of Hypothesis:** Concept of testing of hypothesis – testing of hypothesis concerning small sample and large samples – Testing hypothesis about population mean – Testing hypothesis about difference between two means – Testing of hypothesis concerning attributes – Testing hypothesis about population proportion – Testing hypothesis about the difference between two proportions.
8. **Chi-test:** Chi-square distribution – chi-square test – Corrections for continuity –Sampling distribution of the sample variance – Confidence interval for variance – testing of hypothesis concerning variance – Testing of independence – Testing of goodness of fit – Testing of homogeneity.

2. Lind, Dough A. Marchal, W.G and wathen, S. A. *Statistical Techniques in Business and Economics*, McGraw-Hill/Irwin, Boston, 2006

BBA 2202: INSURANCE AND RISK MANAGEMENT

This course covers the principles of insurance and the tools and the techniques of managing risk in business. It includes insurance as the device for handling and managing all types of risks. Life insurance, marine and fire insurance and various other types of emerging insurance and their organization and management will be the major focus of the course.

Course outline:

1. Introduction: Meaning of risk- types of risk- The risk management process- Risk management methods.
2. Objectives of Risk Management: The need of risk management – Understanding the cost of risk, Components of cost of risk, Cost tradeoffs, Firm value maximization and the cost of risk, Determinants of value, Maximizing value by maximizing the cost of risk, Measuring the cost of risk, Individual risk management and the cost of risk, Risk management and social welfare.
3. Risk identification and Measurement: Risk identification – Identifying business risk exposures- Identifying individual exposures.
4. Basic Concepts from Probability and Statistics: Random variables and probability, Distributions, Characteristics of probability distributions.

5. Insurance and types of Insurance: Definition, Nature of insurance, Kinds of insurance, Elements of Insurance, Insurance contract, Reinsurance, Double insurance.
6. Life Insurance: Nature of life insurance, Natural of General contract, Insurable interest, Utmost good faith, Warranties, Proximate cause, Classification of policies, Whole-life policies, Term insurance policies, Annuities, Difference between annuity contact and life insurance policies, Selection of risk, factors affecting risk.

7. **Special Applications of Organization Development:** Organization Development for Economic- Ecological- and Social Outcomes- Organization Development in Nonindustrial Settings: Health Care- School Systems- the Public Sector- and Family Owned- Future Directions in Organization Development.

Book(s) Recommended:

1. Thomas G. Cummings and Christopher G. Worley, Organization Development and Change

MGT 4204: INDUSTRIAL MANAGEMENT

01. Introduction to Industrial Management

Concept of Industrial Management – Industrial Management Process-

Importance of Industrial Management – Scientific approach to Industrial Management

02. Industrial Productivity

(a) Meaning of Productivity-Factors affecting Industrial Productivity -Significance of higher Industrial Productivity-Productivity with reference to Indian Industries-Suggestions for Productivity improvement - Role of National Productivity Council

(b) Work Study-Concept of Work Study

Advantages of Work Study - Work Study techniques (i) Method Study - Importance, steps (ii) Work Measurement, - Importance, steps, Techniques

(c)Rationalization - Meaning of Rationalization-Aspects of Rationalization-

(i) Technological aspect (ii) Financial aspect (iii) Human aspect-

Need for Rationalization of Indian Industries-Steps initiated by Government of India to facilitate Rationalization

03. Total Quality Management

Concept of TQM- Principles of TQM-Benefits of TQM-

Methods of TQM-Management methods (i) Benchmarking (ii) Deming Wheel (iii) Just in time (iv) Quality Circles

Analytical methods- (i) Critical Path Method (ii) Force field Analysis

(iii) Failure Mode and Effect Analysis

ISO-9000 and ISO- 14000(in brief)

04. Industrial Safety

Definition of safety- Objectives of Safety Management-

Industrial Accidents- Causes of Accidents-(a) Mechanical Causes (b) Human causes (c) Environmental causes-

Occupational Safety-

(i) Occupational health (ii) Occupational environment Occupational Hazards-Code of practices for accident prevention

05. Employee Compensation

Concept of Wage - Factors determining Wage Rates- Essentials of a sound Wage system – System of wage payment- (i) Time wage system-advantages and limitations (ii) Piece wage system-advantages and limitation Individual wage incentive plans- (i) Halsey Premium Plan (ii) Rowan Plan (iii) Taylor's Differential Piece rate Plan (iv) Emerson's Efficiency Plan Group incentive plans- (i) Profit sharing scheme-features advantages and disadvantages (ii) Co-partnership – features - advantages and limitations

06. Trade Unions

Definition of Trade Union - Functions of Trade Unions - Trade Union Movement in India - Weaknesses and problems of Indian Trade Unions - suggestions for healthy growth of Trade Unions in India, challenges faced by Trade Union in the light of globalization.

07. Industrial Conflicts

Meaning of Industrial Conflict - Causes of conflicts in Industries – Consequences of Conflicts-

(i) on Employer and (ii) on Employees. Forms of Industrial Conflicts-Prevention of Industrial conflicts, Settlement of Industrial conflicts-(i) Works Committees (ii) Conciliation Officer (iii) Board of Conciliation (iv) Court of Enquiry (v) Labour Courts (vi) Industrial and National Tribunals (vii) Voluntary Arbitration (viii) Collective Bargaining

Books Recommended:

1) Effective Industrial Management James L Lundy, Eurasia Publishing House (Pvt) Ltd, New Delhi
2) Industrial and Business Management-Martand T Telsang, S Chand & Company Ltd, New Delhi
3) Students Guide to Business Organization-DrNeeruVasishth, Taxmann, Allied Services Pvt Ltd, New Delhi

4) Industrial Organization and Management – N.G. Kale Vipul, Prakashan, Mumbai

4) Industrial Organization and Management – A.S. Deshpande, Vora& o Publishers Pvt Ltd, Mumbai

MGT 4205: SUPPLY CHAIN MANAGEMENT

1. Understanding the Supply Chain: What is a Supply Chain?-Historical Perspective-The objective of a Supply Chain-The Importance of a Supply Chain-Decision Phases in a Supply Chain-Process Views of a Supply Chain.
2. Supply Chain Performance- Achieving Strategic Fit and Scope: Competitive and Supply Chain Strategies-Achieving Strategic Fit-Expanding Strategic Scope-Obstacles to Achieving Strategic Fit.
3. Supply Chain Drivers and Metrics: Impellers of Supply Chain-Drivers of Supply Chain Performance-Framework for Structuring Drives-Facilities-Inventory-Transporation-Information-Sourcing-Pricing-Obstacles to Achieving Strategic Fit.
4. Designing Distribution Networks and Applications to e-Business: The Role of Distribution in the Supply Chain-Factors Influencing Distribution Network Design-Design Options for a Distribution Network-e-Business and the Distribution Network. Distributions Channels of Agricultural Product, FMCG Sector and Commodities in Bangladesh-Distribution Networks in Practice.
5. Network Design in the Supply Chain: The Role of Network Design in the Supply Chain- Factors influencing Network Design Decisions- Framework for Network Design Decisions- Models for Facility Location Design Decisions- Models for Facility Location and Capacity Allocation- The Role of IT in Network Design-Networking Tradition with Modernity- Making Network Design Decisions in Practice- The Impact of Uncertainty on Network Design
6. Designing Global Supply Chain Networks: The Impact of Globalization on supply Chain Networks- The Off shoring Decision: Total Cost- Risk Management in Global Supply Chains- The Basic Aspects of Evaluating Global Supply Chain Design- Evaluating Network Design Decision Using Decision Trees- AM Tires; Evaluation of Global Supply Chain design Decisions Under Uncertainty- Making Global Supply Chain Design Decisions Under Uncertainty in Practice-Uncertainty in Global Supply Chain Operations.
7. Demand Forecasting in a Supply Chain: The Role of Forecasting in a Supply Chain- Characteristics of Forecasts- Components of a Forecast and Forecasting Methods- Basic Approach to Demand Forecasting- Time-Series Forecasting Methods- Measures of Forecast Error- Forecasting Demand. The Role of IT in Forecasting- Risk Management in Forecasting- Forecasting in Practice.
8. Aggregate Planning in a Supply Chain: The Role of Aggregate Planning in a supply Chain- The Aggregate Planning Problem- Aggregate Planning Strategies- Aggregate Planning in Excel- The Role of IT in Aggregate Planning- Inventory Planning and Economic Theory Aberrations-Implementing Aggregate Planning in Practice.

9. Sales and Operations Planning-Planning Supply and Demand in a Supply Chain: Responding to Predictable Variability in the Supply Chain- Managing Supply- Managing Demand- Implementing Sales and Operations Planning in Practice- Tacking Predictable Variability in Practice.
10. Planning and Managing Inventories in a Supply Chain: Managing Economics of Scale in a supply Chain- Cycle Inventory, Managing uncertainty in a Supply Chain- Safety Inventory, Determining the Optimal Level of Product Availability.
11. Logistics In Supply Chain: Movement within a Facility-Incoming and Outgoing Shipments-Distribution Requirements Planning (DRP)- Electronic Data Interchange (EDI).
12. Supplier Management: Choosing Suppliers- Supplier Audit- Supplier Certification, Supplier Relationships- Supplier Partnership, Evaluations Supplying Alternatives.

Books Recommended:

1. Sunil Chopra, Peter Meindl& D. V. Kalra, Supply Chain Management: Strategy, Planning and Operation, 4th Edition, Pearson Education

HRM 4201: INDUSTRIAL RELATIONS

1. An Overview of Industrial Relations: Definition-Objectives-Nature of Industrial Relations Model-Factors affecting the patterns of industrial relations- actors in industrial relations.
2. Trade Union Movement: Historical analysis-Type of trade union management and leadership in Bangladesh.
